Welcome to TAGGS

The mission of the U.S. Department of Health and Human Services (HHS) is to enhance the health and well-being of Americans by providing for effective health and human services and by fostering sound, sustained advances in the sciences underlying medicine, public health, and social services. In support of its mission, HHS manages hundreds of programs which award over 75,000 grants annually. Tracking and accounting for HHS grant spending and providing high quality data to the public and external stakeholders is critical to fulfilling HHS' mission and strategic goals.

The Annual Report

This annual report reflects a summary of grants HHS awarded during Fiscal Year 2013 (October 1, 2012, through September 30, 2013). Grants are a legal instrument reflecting the relationship between the United States Government and a State, a local government, or other entity when

1. the principal purpose of the relationship is to transfer a thing of value to the State or local government or other recipient to carry out a public purpose of support or stimulation authorized by a law of the United States instead of acquiring (by purchase, lease, or barter) property or services for the direct benefit or use of the United States Government; and
2. substantial involvement is not expected between the executive agency and the State, local government, or other recipient when carrying out the activity contemplated in the agreement (31 U.S.C. §6304).

This report does not include information related to technical assistance, which provides services instead of money; other assistance in the form of loans, loan guarantees, interest subsidies, or insurance; direct payments of any kind to individuals; or contracts, which are required to be entered into and administered under procurement laws and regulations.

Executive Summary

Photo Courtesy of CDC Connects, James Gathany, Photographer

Our Year

The 2013 Annual Report marks the second year of the interactive format. Improving the accessibility of data to the public and providing viewers with tools to customize information in order to see changes in spending and trends remains a high priority for HHS. In addition to the interactive U.S. maps and graphs that were introduced in the 2012 Annual Report, Regional and International maps have been added in 2013, which provide the public an open and transparent view of how HHS tracks and accounts for grant spending in foreign countries.

Grant Highlights

In FY 2013, the 6 states receiving the highest amount of HHS grant funds were California, New York, Texas, Pennsylvania, Florida, and Michigan.

- HHS awarded approximately $345 billion in grants.
- 86% of HHS' grant funds for FY 2013 were allocated to entitlement (block, closed-ended and open-ended) grants.
- Universities and colleges represented 33 of the top 50 HHS discretionary grant recipients in FY 2013.
- The Centers for Medicare and Medicaid (CMS) awarded over 74% of all HHS grant dollars in FY 2013.
- The National Institutes of Health (NIH) awarded 67% of all HHS awards in FY 2013.

Funding Highlights

HHS awards $2.8 million to transition veterans' skills into nursing careers - HHS Secretary Kathleen Sebelius announced $2.8 million to help veterans advance in nursing careers by building on their combat medical skills and experience and awarding academic credit for prior military training and experience. Over four years, these grants will enable more than 1,000 veterans to obtain baccalaureate nursing degrees. Nine institutions were awarded funding under the Nurse Education, Practice, Quality and Retention: Veterans' Bachelor of Science Degree in Nursing Program (VBSN) by HHS' Health Resources and Services Administration (HRSA). Award recipients recruit veterans and prepare VBSN undergraduates for practice and employment in local communities, and also develop career ladders that include academic and social supports, career counseling, mentors and linkages with veteran service organizations and community health systems.

HHS announces expansion of Maternal, Infant, and Early Childhood Home Visiting - Health and Human Services (HHS) Secretary Kathleen Sebelius announced $69.7 million in grant awards to 13 states to expand Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program activities funded by the Affordable Care Act. These competitive awards recognize states that have implemented a high-quality, evidence-based home visiting program as part of a comprehensive, early childhood system of care. Funded by the Health Resources and Services Administration (HRSA), the MIECHV Program provides grants to states to deliver critical health, development, early learning and family support services to children and families who enroll in the program.

Six states awarded supplemental Race to the Top-Early Learning Challenge Grants - Departments of Education (ED) Secretary Arne Duncan and HHS Secretary Kathleen Sebelius announced that California, Colorado, Illinois, New Mexico, Oregon and Wisconsin will each receive a supplemental award from the 2013 Race to the Top-Early Learning Challenge (RTT-ELC) grant fund to improve quality and expand access to early learning programs throughout their states. The total award amount for these supplemental grants is $89,213,863.

HHS awards $32 million in grants to sign up children for health coverage - Health and Human Services (HHS) Secretary Kathleen Sebelius announced nearly $32 million in grants for efforts to identify and enroll children eligible for Medicaid and the Children's Health Insurance Program (CHIP). The Connecting Kids to Coverage Outreach and Enrollment Grants were awarded to 41 state agencies, community health centers, school-based organizations and non- profit groups in 22 states; two grantees are multistate organizations.

HUD and HHS partner to provide permanent housing and services to low-income people with disabilities - To prevent thousands of people with disabilities from experiencing homelessness or unnecessary institutionalization, the U.S. Department of Housing and Urban Development (HUD) and the U.S. Department of Health and Human Services (HHS) announced nearly $98 million in funding for 13 state housing agencies for rental assistance to extremely low -income persons with disabilities, many of whom are transitioning out of institutional settings or are at high risk of homelessness.

2013 Grant Awards and Award Dollars

Total Grant Awards by HHS Agencies

OPDIV	Awards	% Awards	Dollars (Millions)	% Dollars
ACF	7,438	9 51	$47,518 42	13 77
ACL	1,744	2 23	$1,546 57	0 45
AHRQ	500	0 82	$163 43	0 05
CDC	3,706	5 33	$4,996 59	1 43
CMS/CCIIO	1,635	2 06	$257,387 56	74 58
FDA	332	0 57	$87 39	0 03
HRSA	5,864	7 39	$6,880 53	1 99
IHS	947	1 25	$2,243 59	0 65
NIH	50,479	66 57	$20,885 59	6 05
SAMHSA	2,872	3 62	$3,036 64	0 88
OS/ASPE	3	0 00	$2 90	0 00
OS/ASPR	31	0 05	$29 07	0 00
OS/OASH	465	0 56	$400 49	0 13
OS/OGA	6	0 01	$1 29	0 00
OS/ONC	3	0 09	$0 58	0 00
Total	76,038	100 00	$345,122 70	100 00

Note ATSDR awards do not appear separately in the above table; they are grouped under CDC. HHS OPDIVs and STAFFDIVs that do not issue grants are omitted from the table.

Tracking Accountability in Government Grants System (TAGGS)

The Tracking Accountability in Government Grants System (TAGGS) is a robust reporting tool developed by the Department of Health and Human Services' (HHS) Office of Grants and Acquisition Policy and Accountability (OGAPA) in 1995. The TAGGS database is a central repository for grants awarded by the HHS Operating Divisions (OPDIVs), and the Office of the Secretary Staff Divisions (STAFFDIVs). In addition to award data that is submitted twice a week by the OPDIVs, TAGGS also receives recipients' demographic information, payment data from the Payment Management System (PMS), and the grant program description information from the Catalog of Federal Domestic Assistance (CFDA) website.

HHS remains committed to increasing transparency of Federal funds and to show the public where and how their money is spent. Through the TAGGS public website (hhs.taggs.gov) HHS staff, congressional offices, other executive agencies, potential and current grant recipients, and other interested parties access the site for a variety of informational purposes. Commonly searched data fields include: Congressional District, program name, recipient name, recipient location, awarding OPDIV, transaction amount and fiscal year.

The annual report data reflects award transactions made during Fiscal Year (FY) 2013, and may not exactly correspond to the HHS FY 2013 budget and accounting records based on the following assumptions:

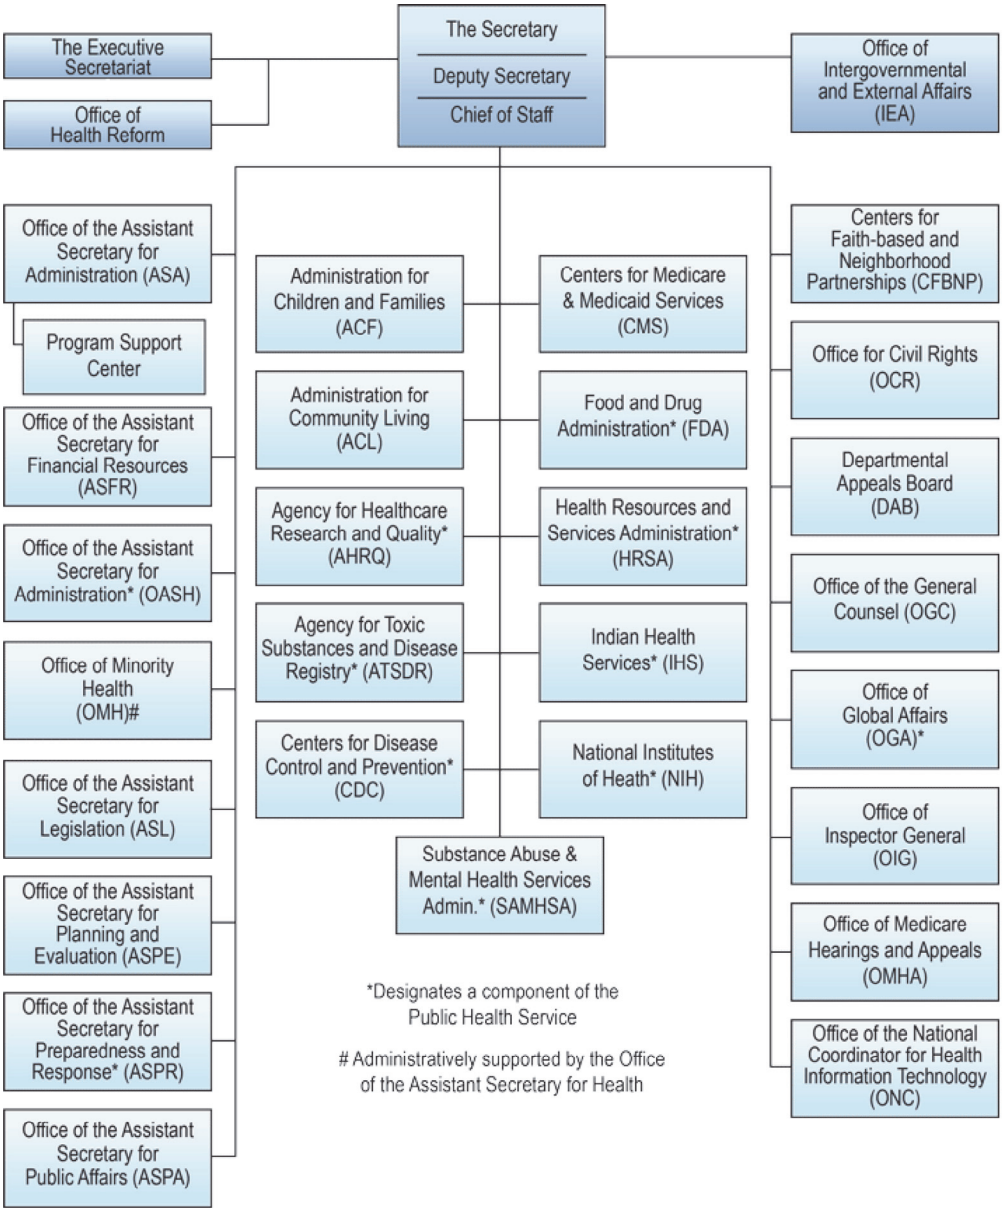
1. Award data may include de-obligations of prior years in addition to current year funds;
2. Costs of personnel in lieu of cash are recorded as personnel costs in accounting records; and
3. Joint agency programs are only recorded if they originated at HHS.

The dollar amounts set forth in this report for each OPDIV may also differ from the amounts shown in each OPDIV's Budget Request. Percentages used throughout the report may not add up to exactly 100% due to rounding and other minor adjustments.

HHS 2013 Organization

HHS is comprised of Operating Divisions (OPDIVs) and Staff Divisions (STAFFDIVs), each with its own unique mission. The organization chart below presents the overall structure of HHS during FY 2013. The OPDIVs/STAFFDIVs are responsible for administering and managing approximately 467 grant programs which are described in the Catalog of Federal Domestic Assistance (CFDA).

Note that in this report, Agency for Toxic Substances and Disease Registry awards are included in the Centers for Disease Control and Prevention grant funding data.



Formula/Block & Entitlement, Discretionary Grants and Cooperative Agreements

In FY 2013 the Department of Health and Human Services administered more grant dollars than all other federal agencies combined. HHS awards formula/block, entitlement, discretionary grant awards and cooperative agreements.

Title 45 CFR Part 74 defines discretionary grants as **those that permit the federal government, according to specific authorizing legislation, to exercise judgment, or "discretion" in selecting the applicant/recipient organization, through a competitive grant process."**

Formula/block grants and entitlement programs are those that a federal agency is required by statute to award, subject to availability of an appropriation, if the recipient, usually a state, submits an acceptable state plan or application, and meets the eligibility and compliance requirements of the statutory and regulatory provisions of the grant program.

The Federal Grant and Cooperative Agreement Act of 1977, 31 U.S.C. 6301, defines the cooperative agreement as an alternative assistance instrument to be used in lieu of a grant whenever substantial Federal involvement with the recipient during performance is anticipated. The difference between grants and cooperative agreements is the degree of Federal programmatic involvement rather than the type of administrative requirements imposed. Therefore, information contained in this report that is applicable to grants, also applies to cooperative agreements, unless the award itself provides otherwise.

Medicaid, State Children's Health Insurance Program (SCHIP), and Temporary Assistance for Needy Families (TANF) are large HHS formula/block and entitlement programs, providing support for health care and human services to millions of Americans.

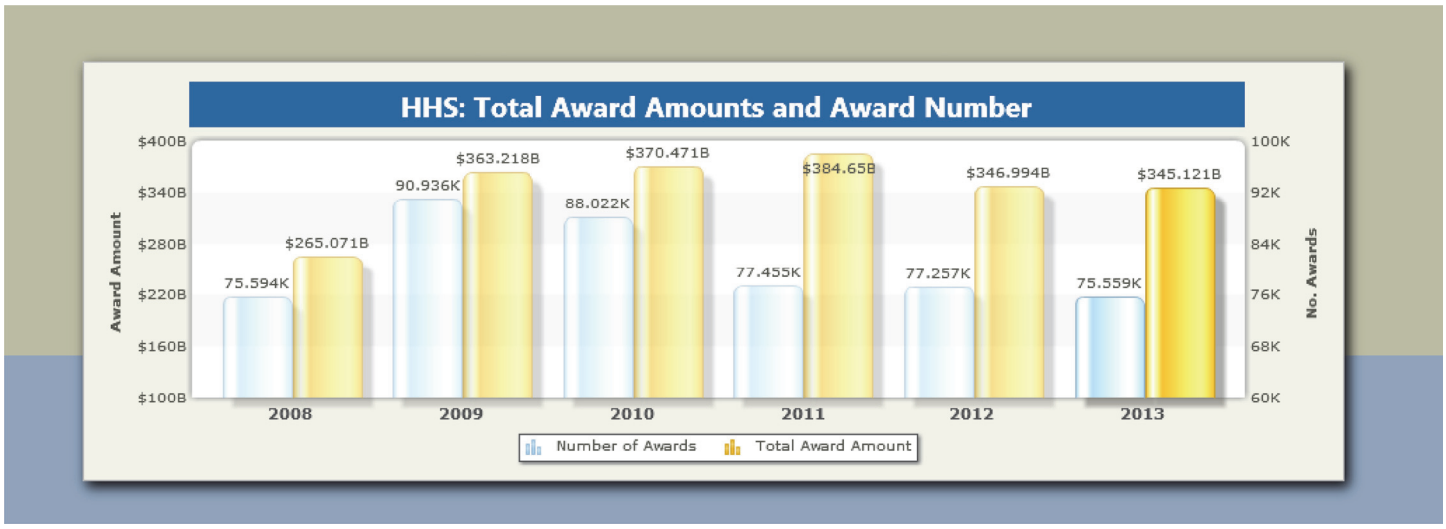
Medicare, the nation's largest health insurance program, is a direct payment program and its funding levels are not included in the TAGGS CMS grant totals. Examples of key CMS grant programs include the Medicare State Survey and Certification Group; CMS Research, Demonstrations and Evaluations; Medicare Hospital Insurance; and Medicare Supplementary Medical Insurance. TAGGS does not track direct payments to individuals thus direct payments are not included in in the annual report.

As of September 2013, HHS awarded approximately $345 billion in grants for FY 2013. This included $48 billion in discretionary awards and $297 billion in formula/block and entitlement awards.

CMS, which administers the Medicaid Program, awarded 75% ($257 billion) of the total HHS grant funds. However, these awards only represented about 2% of the total number of grants awarded by HHS.

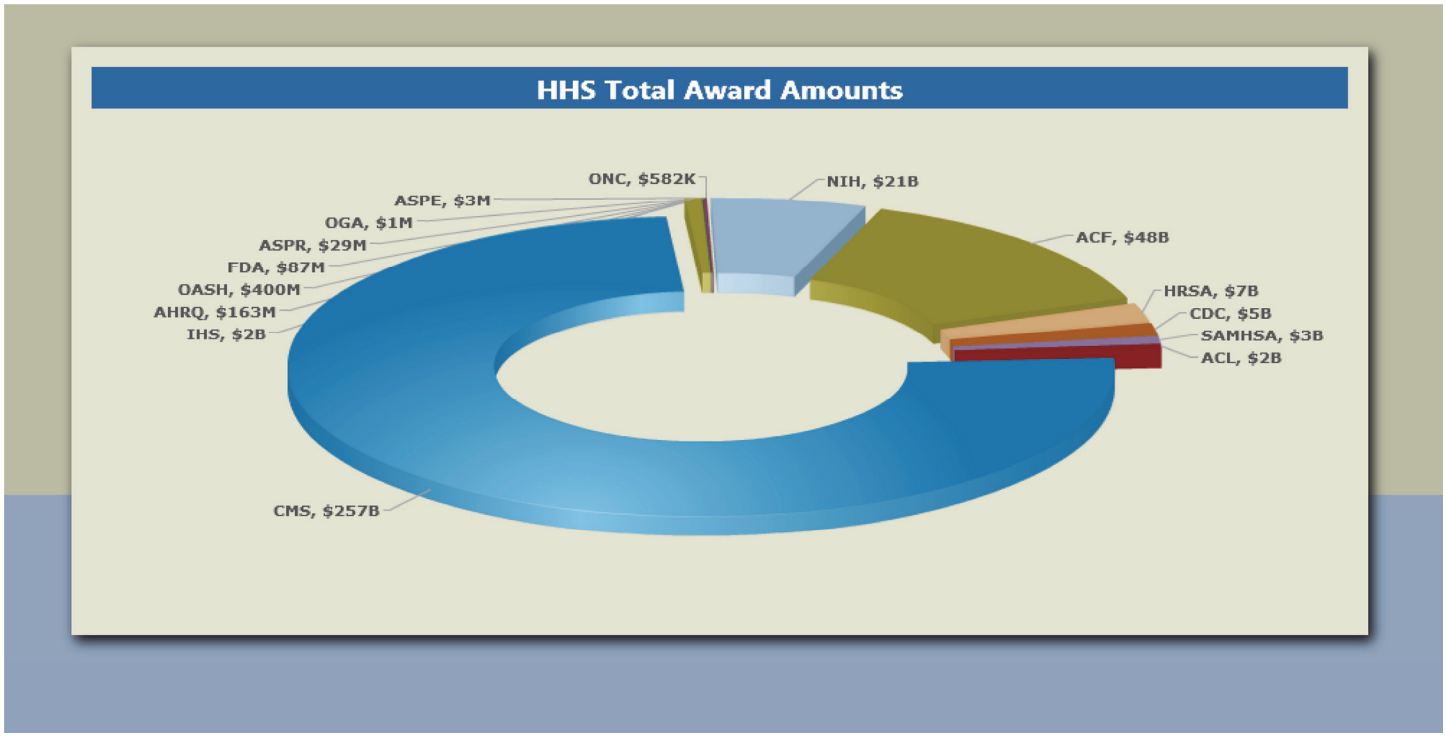
ACF had the second highest percentage of total HHS grant funds awarded at 14% or $48 billion. This represented about 10% of the total number of grants awarded. NIH, which awarded 7% or $21 billion of the total HHS grant funds, accounted for 67% of the total number of HHS grants.

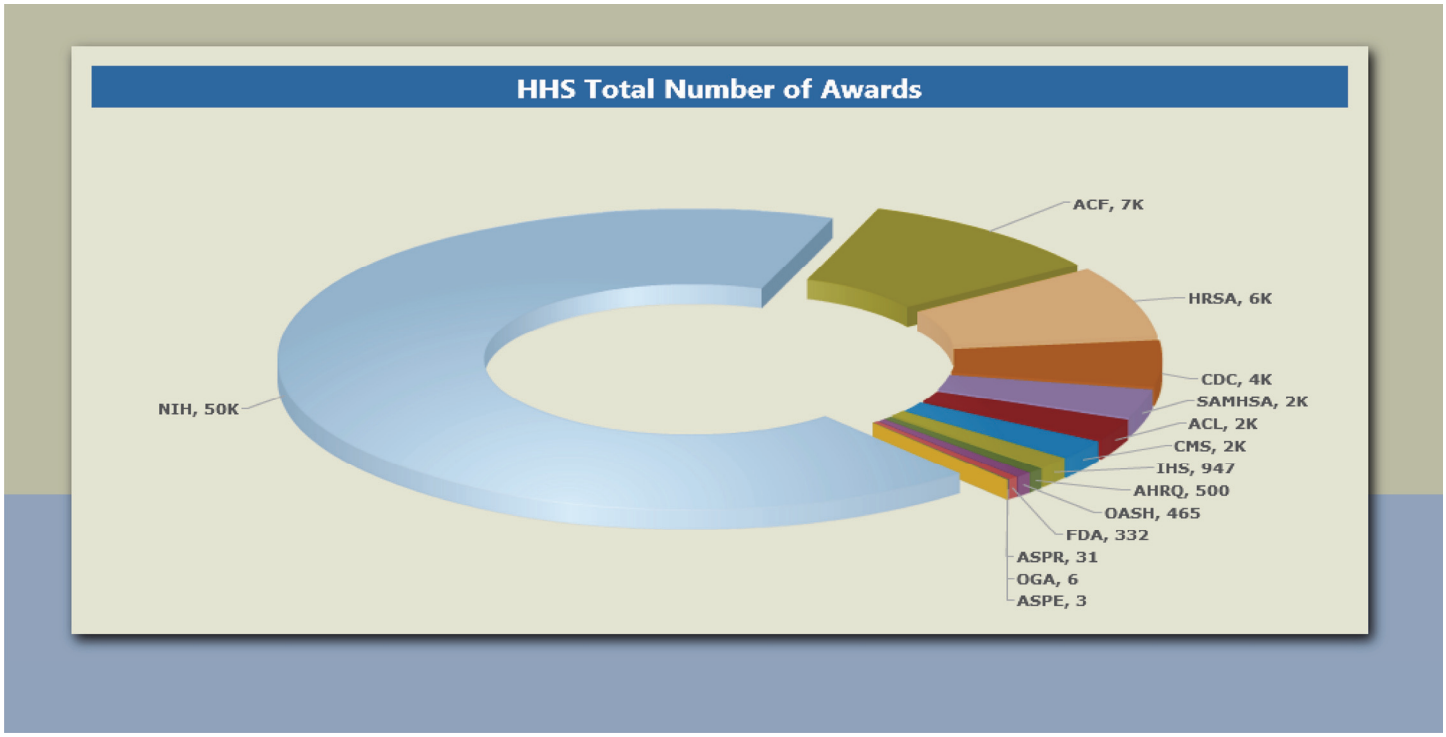
The following charts show HHS award history and the total grant awards and dollars for each OPDIV for FY 2013.



The two pie charts on this page contrast OPDIVs that spent the largest amount of grant funds in FY 2013 against those OPDIVs awarding the largest number of grant awards. Please note that the grant dollars and number of awards by the remaining grant-making OPDIVs at HHS are not reflected due to the small percentages that they encompass for display.

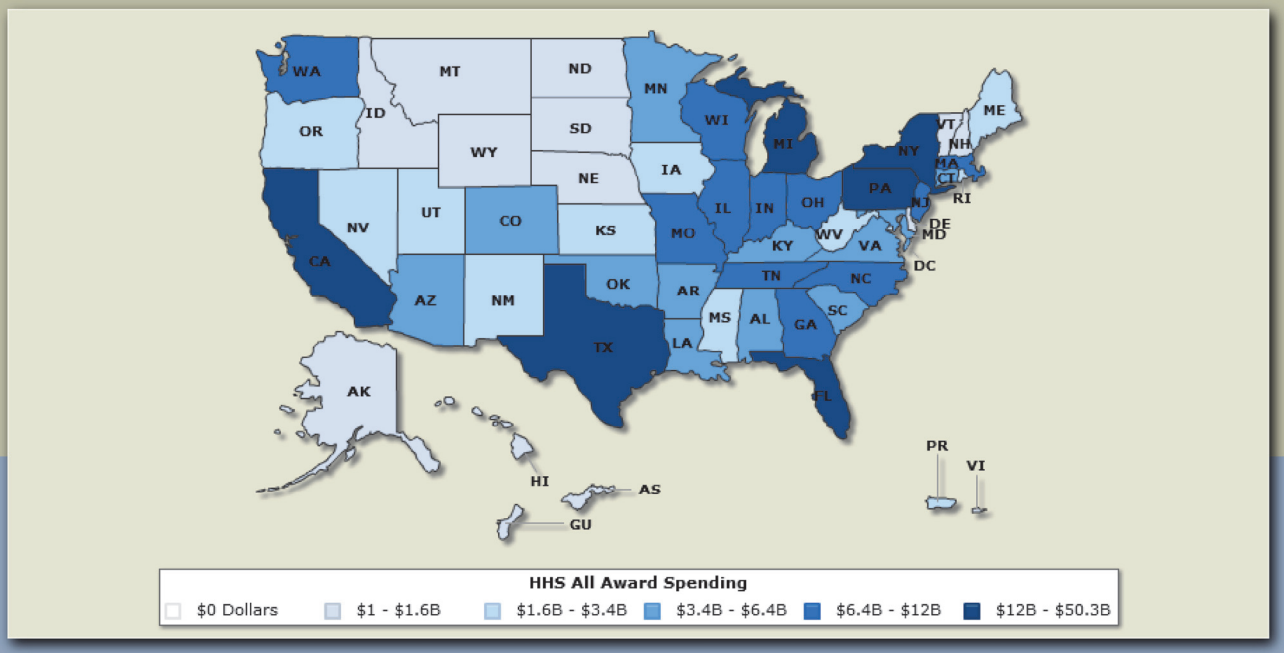
As illustrated, CMS far exceeded all other OPDIVs in terms of grant dollars spent. In contrast, NIH had the lion's share of the number of grants awarded in FY 2013, followed by ACF and HRSA.





Awards by U.S. Location

The map below shows total award dollars that HHS agencies granted by state for FY 2013.[1]



[1]Four of the eight territories that received grants from HHS agencies are shown in the above map. The additional territories will be added in the near future. See Appendix A for detailed award data for all eight territories.

Treemap

The online version of this Annual Report uses various interactive charts to show these award comparisons. The data contained in these charts are substantial and best viewed in tables online.

A treemap is a chart resembling the concentric circles of a “tree trunk” that compares FY 2013 and FY 2012 non-discretionary grant program awards by Grantee Type, Grantee Class and Award activity, and displays grant information in several ways. It shows the number of dollars awarded for a type of grant in a fiscal year, the proportion of dollar awards for the type of grant in the current fiscal year, and how much the award dollar value changed from the previous fiscal year.

Closed-ended entitlement program- A type of non-discretionary grant program where the award amount constitutes an upper limit on the amount of funds the federal government may pay for allowable programmatic activities.

Open-ended entitlement program- A type of non-discretionary grant program where, based on compliance with programmatic requirements, e.g., provision of specified services to eligible beneficiaries, the OPDIV is required to reimburse the recipient (generally a state) for all or a portion of eligible costs and there is no upper limit on the amount of funds the federal government will pay for allowable services and activities (as specified in the governing statute and implementing regulations).

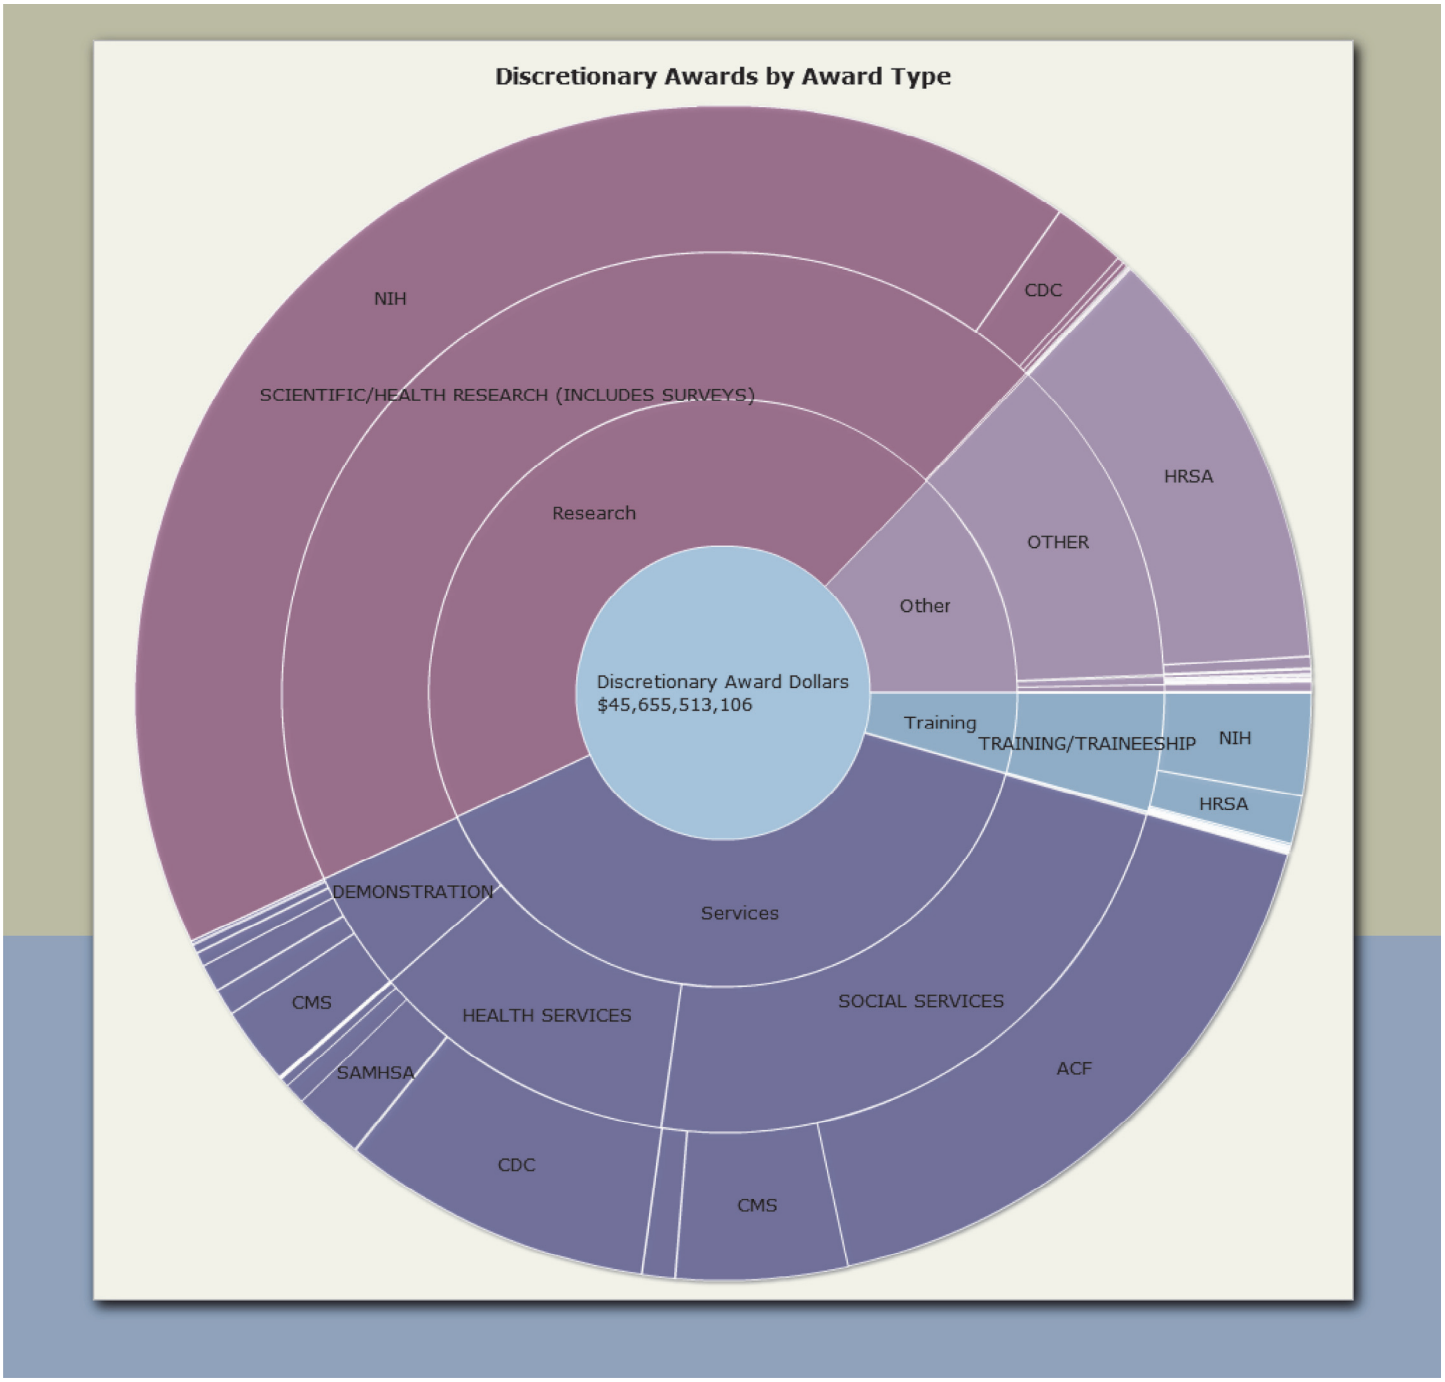
Discretionary Award Types

In accordance with HHS regulation 45CFR Part 74, HHS defines "discretionary" grants as an award made by an HHS awarding agency in keeping with specific statutory authority which enables the agency to exercise judgment ("discretion") in selecting the applicant/recipient organization through a competitive award process.

Discretionary grants commonly support activities such as demonstration, research, training, service, and construction projects or programs. Discretionary grants are sometimes referred to by the CFDA term "Project Grants."

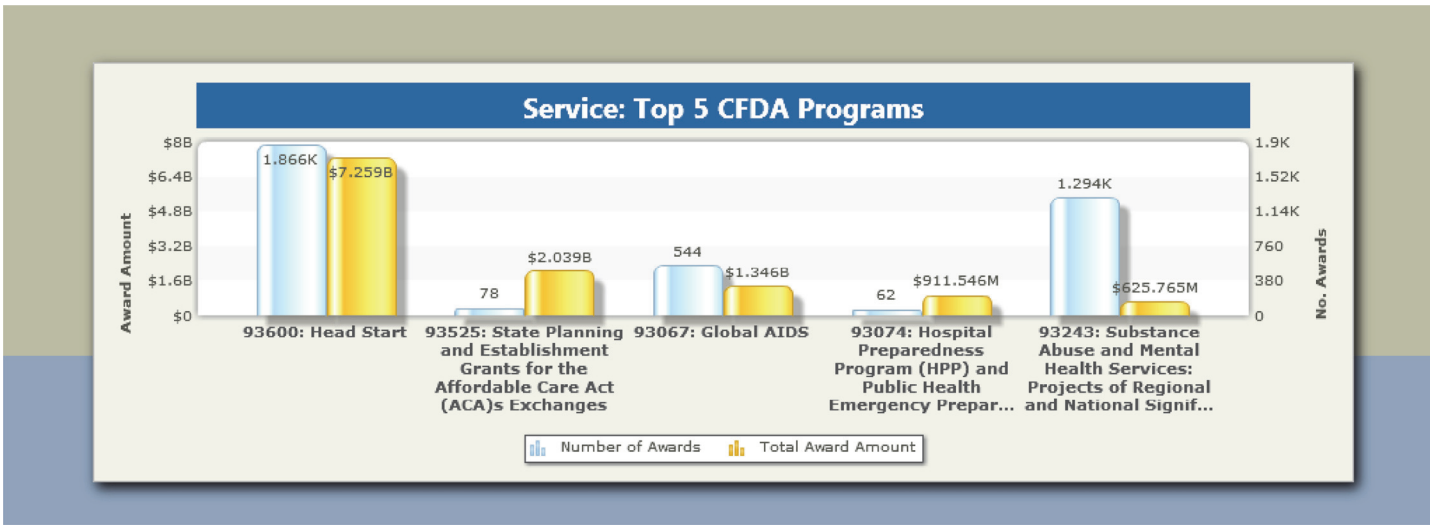
Based on the HHS mission, grant program descriptions, and the CFDA guidelines, the TAGGS system uses 16 activity types to characterize the nature of the grant being funded. For the purpose of this report, these 16 have been grouped into four major activity types (Research, Services, Training, and Other). HHS OPDIVs self-select the activity type for awards based on the primary purpose of the grant.

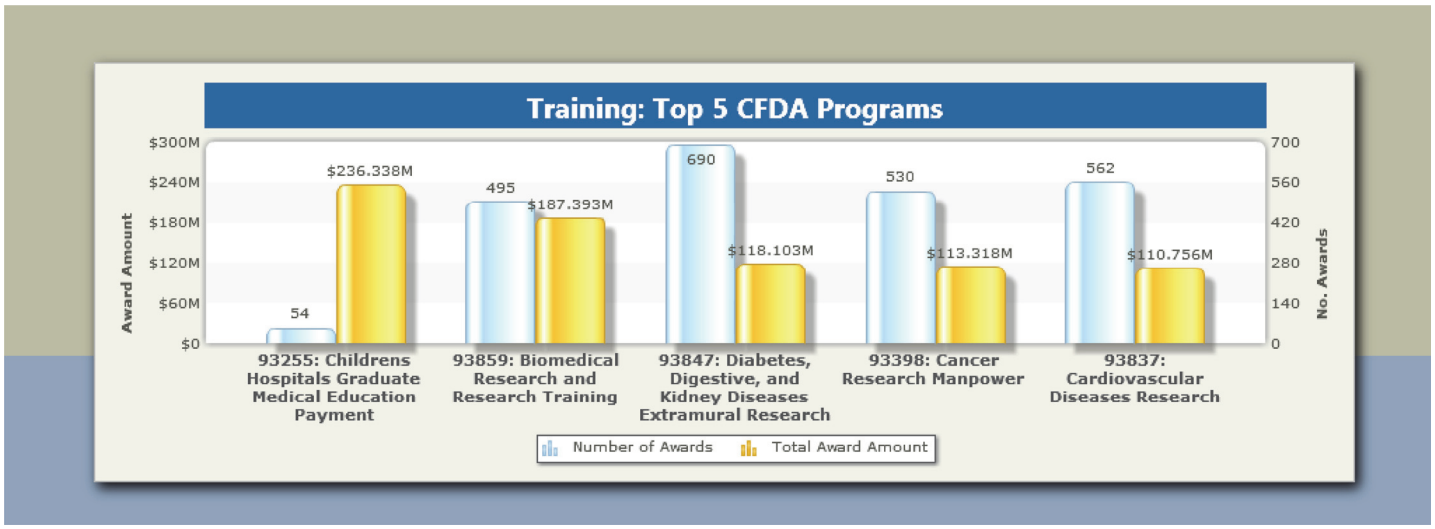
The chart below shows the number of awards and award dollars that HHS agencies granted organized by the four Major Activity Types – Research, Services, Training, and Other. The chart contains rings, with summary data shown at the center.



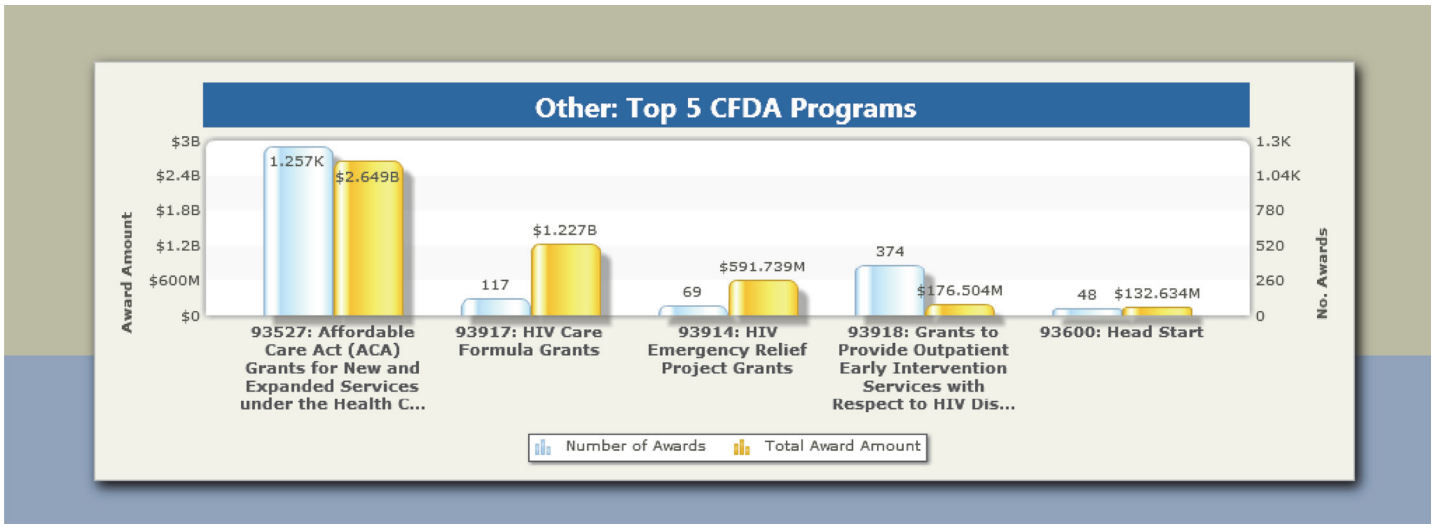
Top 5 Discretionary Grant Programs for Research, Services, Training, and Other Activities

The data displayed in the following charts reflect awards classified by OPDIVs as research, service, training, or other activities. Program names generated by the OPDIVs may not encompass all activities carried out under the CFDA program. The charts represent the CFDA programs with the largest award funding classified by each of the TAGGS activity types (Research, Services, Training and Other).



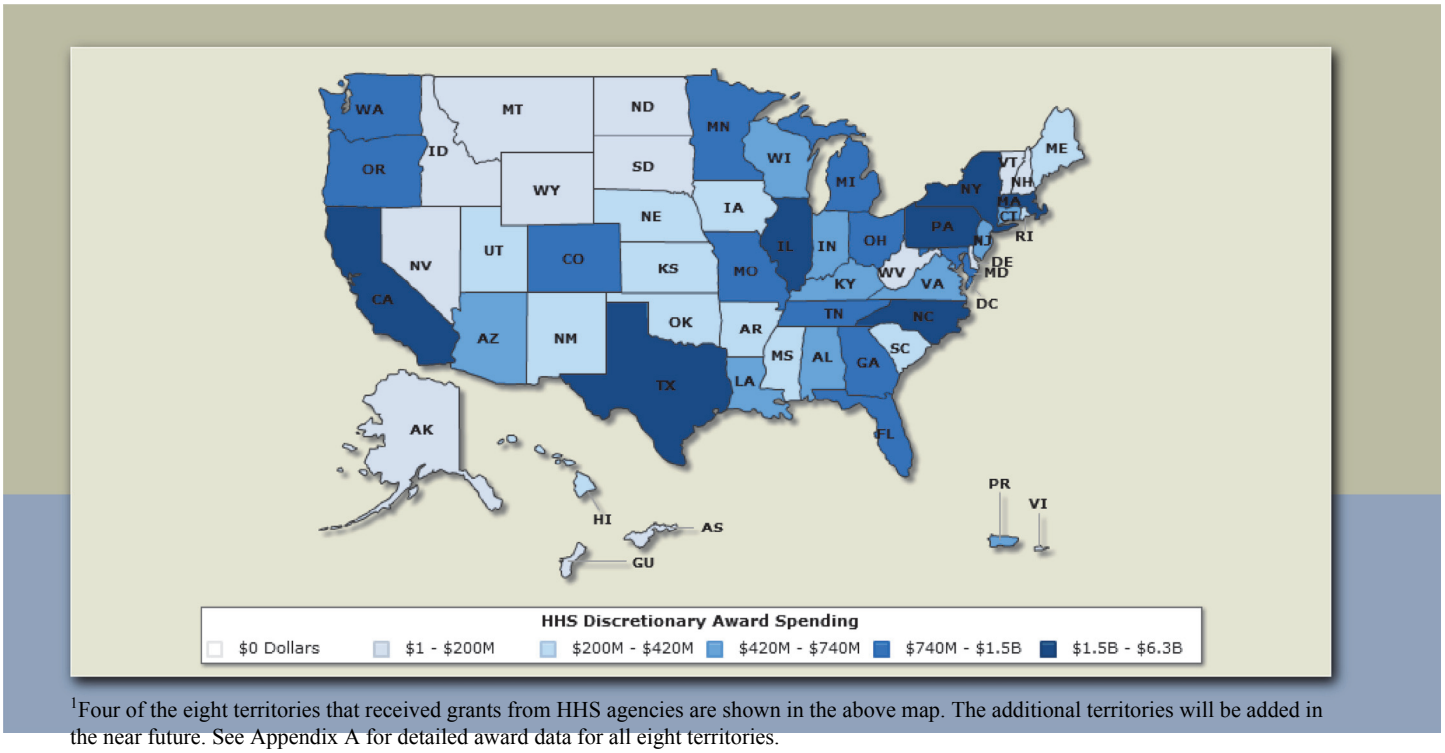


"Other" programs include construction projects; grants for the planning and development of health programs and health resources; evaluations; and health infrastructure awards.



Discretionary Awards By U.S. Location

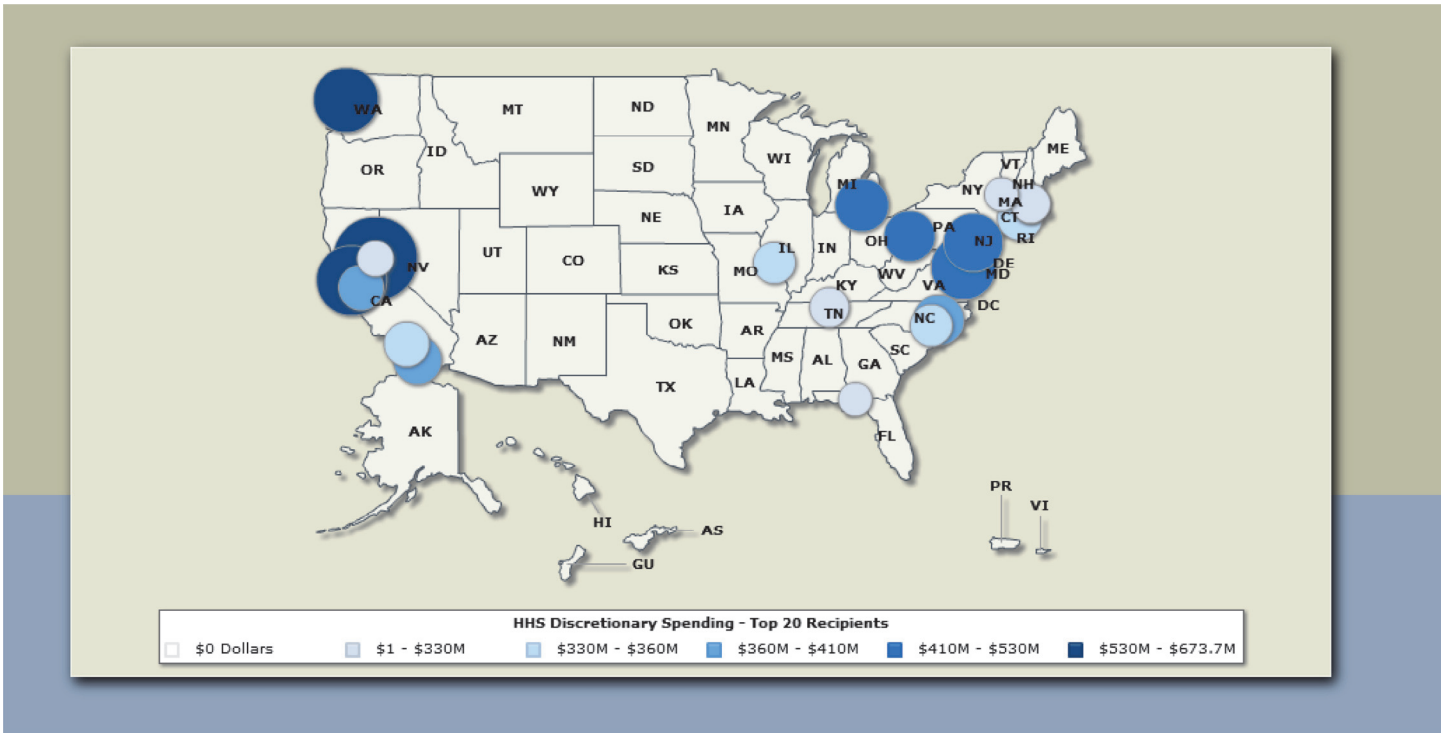
The map below shows discretionary awards and award dollars that HHS agencies granted by state for FY 2013.[1]



[1]Four of the eight territories that received grants from HHS agencies are shown in the above map. The additional territories will be added in the near future. See Appendix A for detailed award data for all eight territories.

Top 20 Discretionary Award Recipients

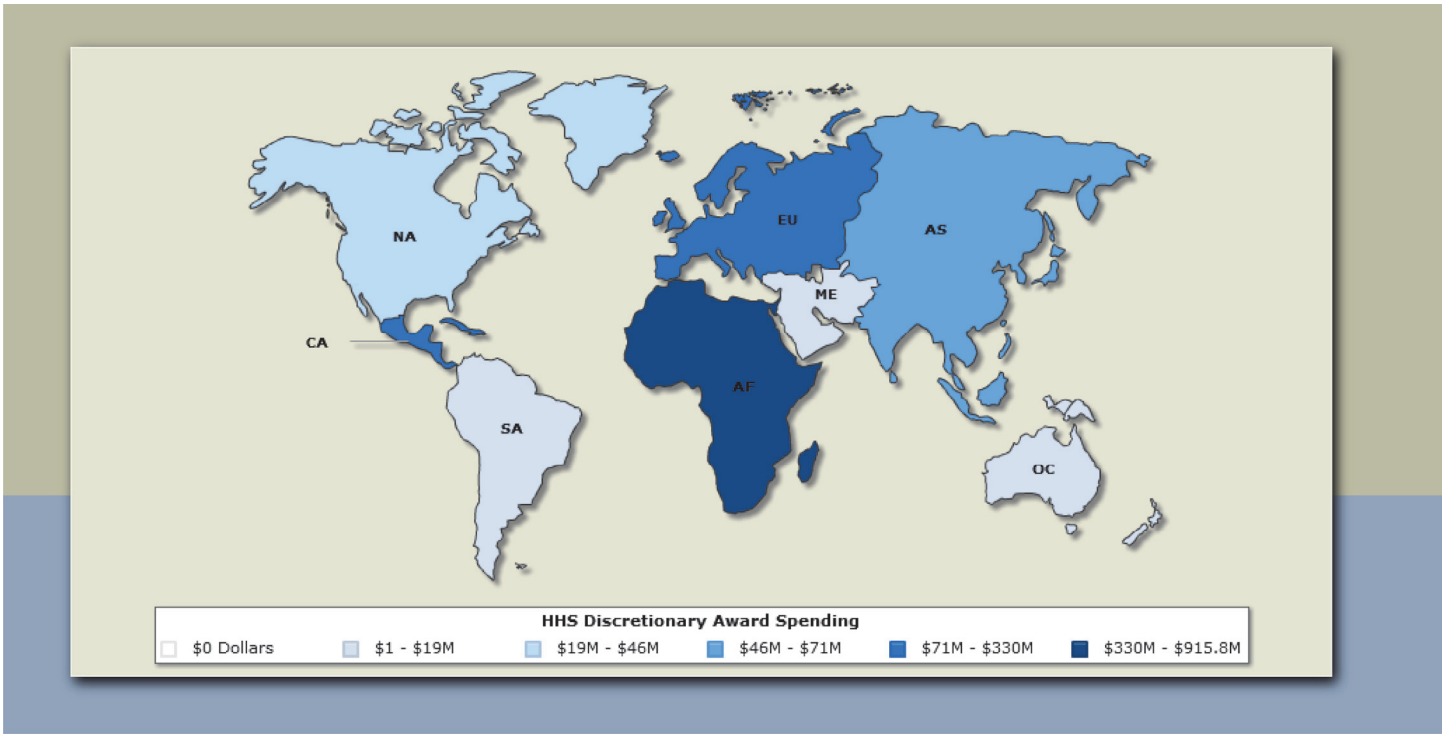
The map below shows the top recipients of HHS discretionary awards ranked by dollar amount. The Annual Report's PDF (Appendix A) contains a table of HHS's top discretionary recipients.



Discretionary Awards Regional and International Recipients

In FY 2013 HHS made discretionary awards to regional[1] and international recipients.

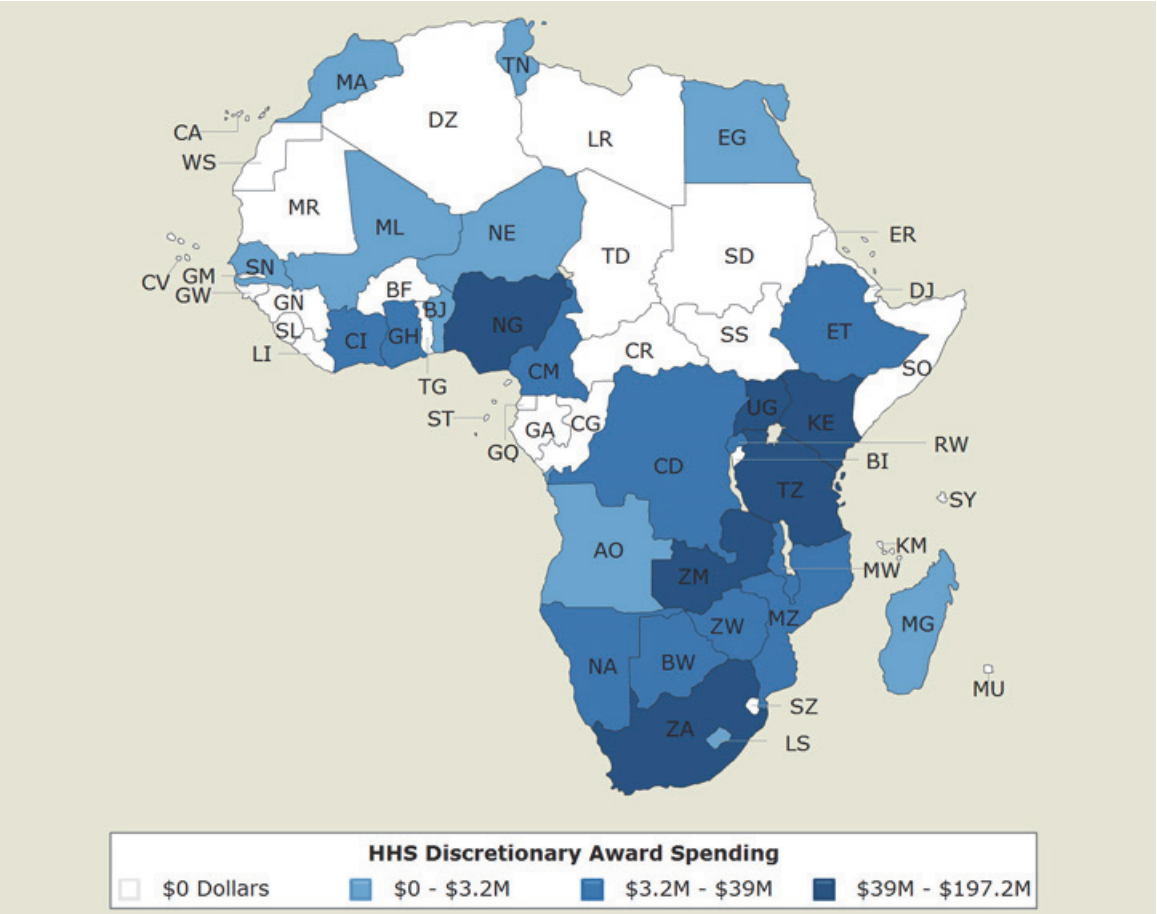
Data for international recipients are presented in Appendix A of this site's PDF.



[1]Regional is defined as an external piece of land or area in a subordinate location, that is governed by a country but that is not a state or province.

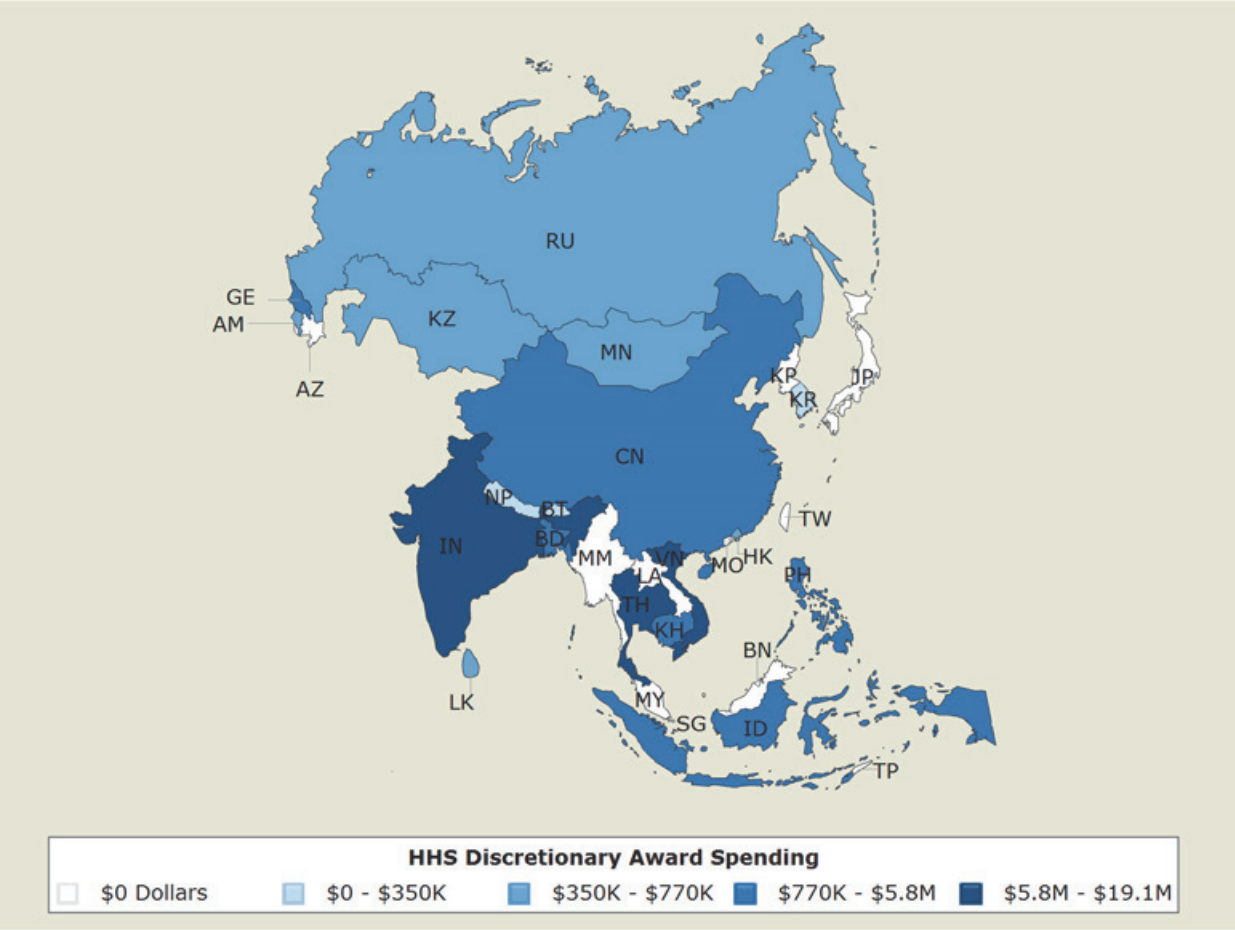
Discretionary Awards to African Countries

This map shows the total discretionary award dollars HHS granted to African nations in FY 2013.



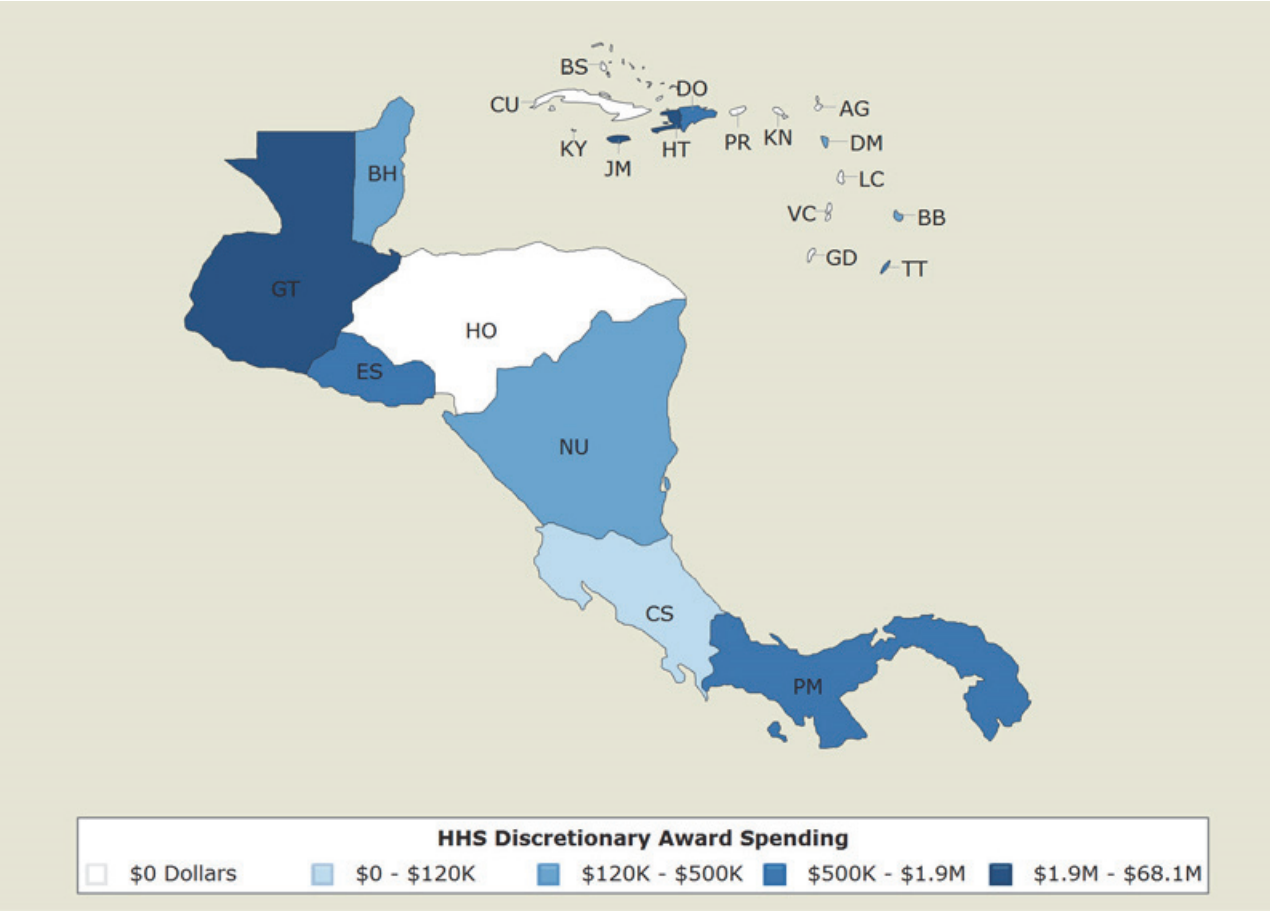
Discretionary Awards to Asian Countries

This map shows the total discretionary award dollars HHS granted to Asian nations in FY 2013.



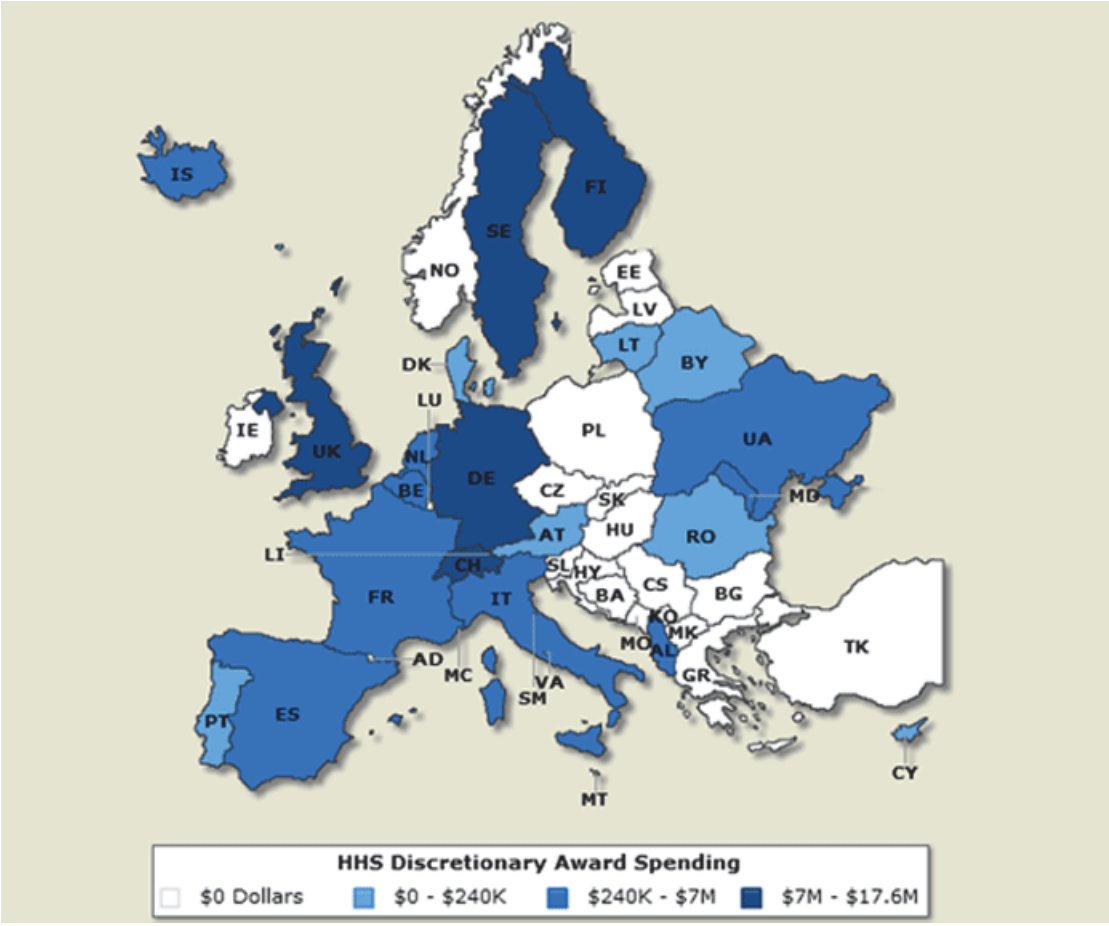
Discretionary Awards to Central American Countries

This map shows the total discretionary award dollars HHS granted to Central American nations in FY 2013.



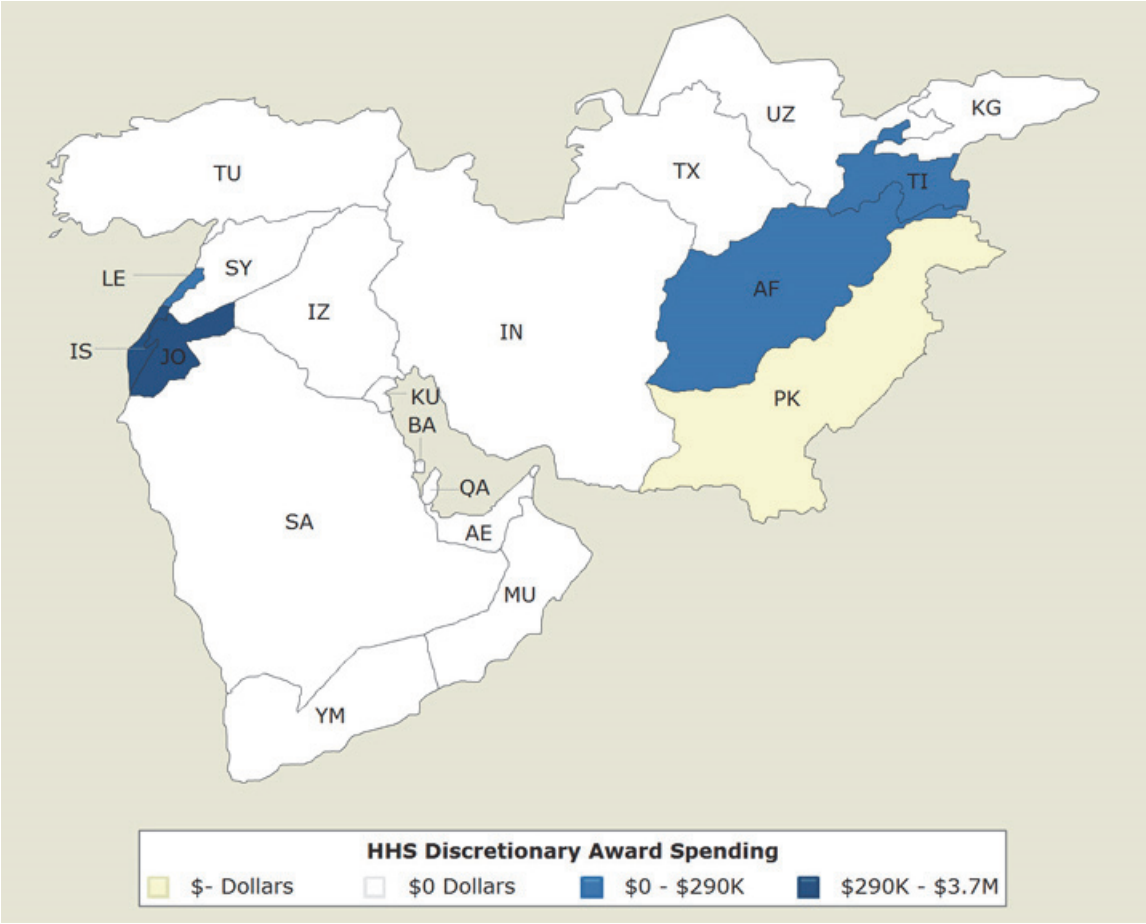
Discretionary Awards to European Countries

This map shows the total discretionary award dollars HHS granted to European nations in FY 2013.



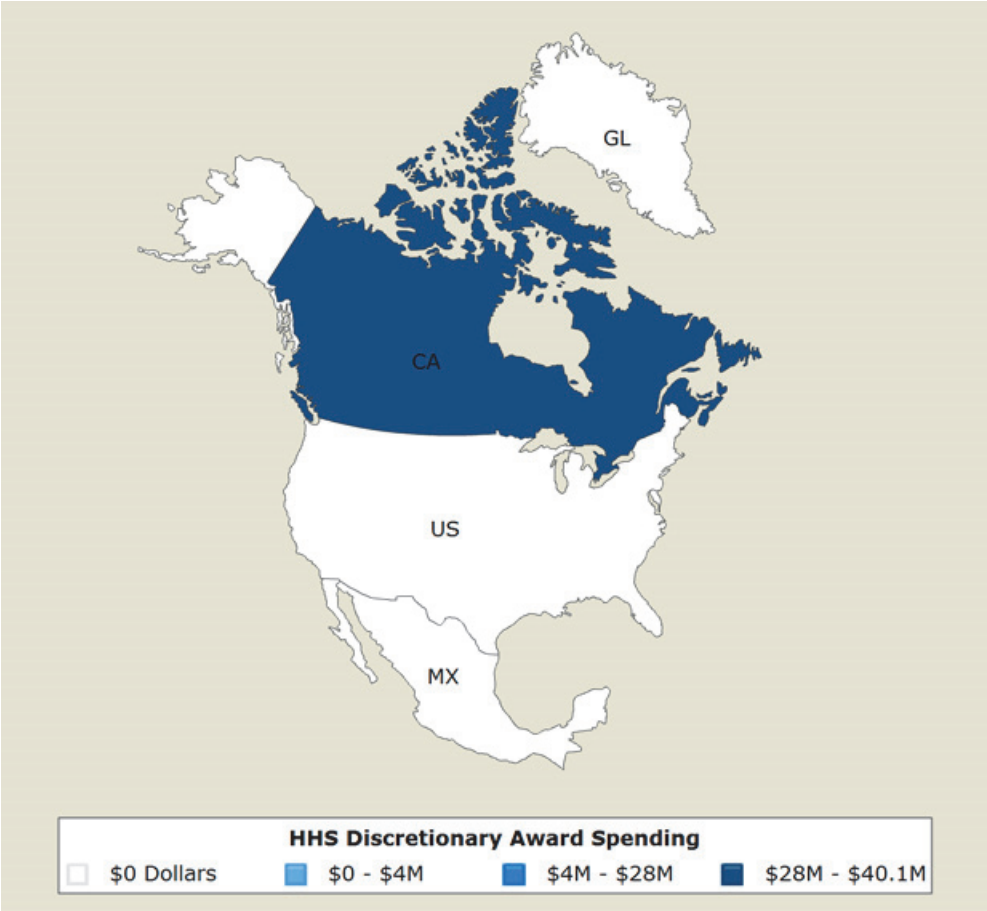
Discretionary Awards to Middle Eastern Countries

This map shows the total discretionary award dollars HHS granted to Middle Eastern nations in FY 2013.



Discretionary Awards to North American Countries

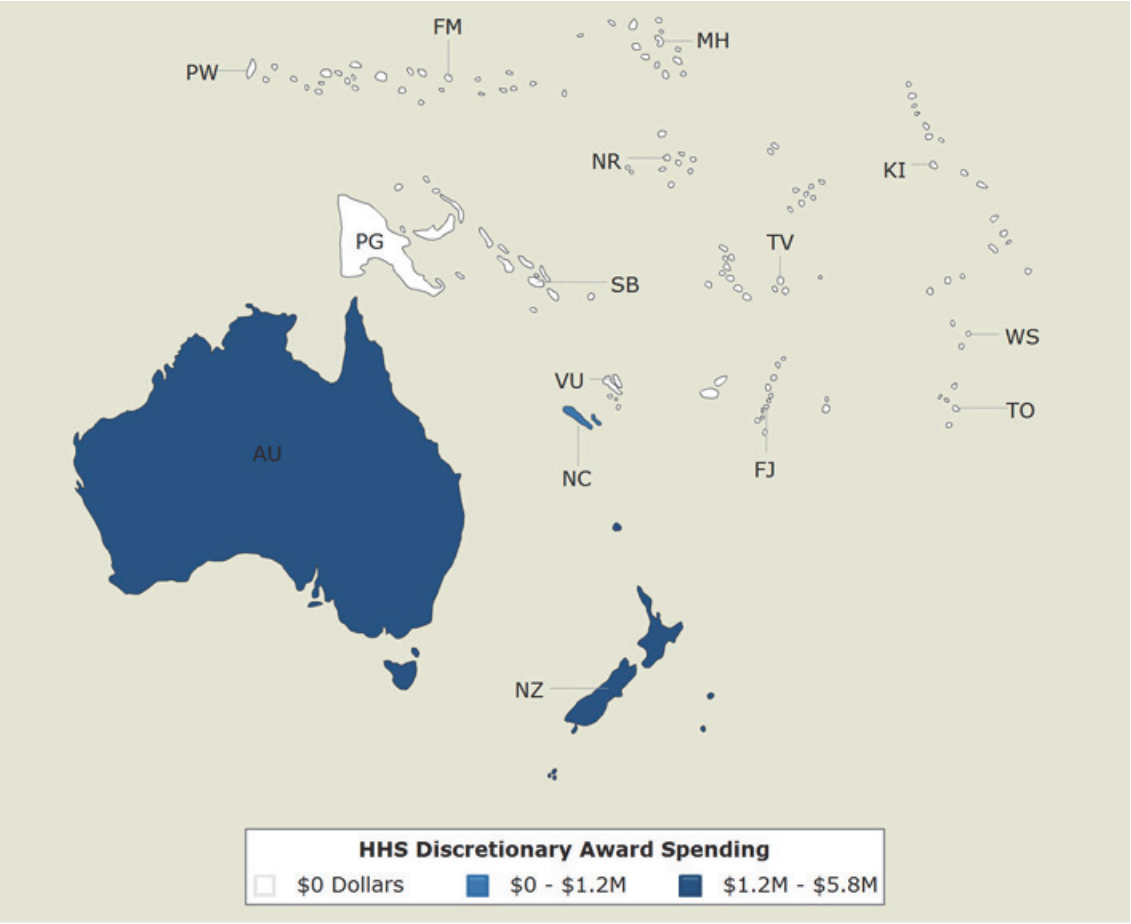
This map shows the total discretionary award dollars HHS granted to North American nations[1] in FY 2013.



[1]This map shows the total discretionary award dollars HHS granted to North American nations outside of the U.S. in FY 2013. U.S. award dollars have been excluded.

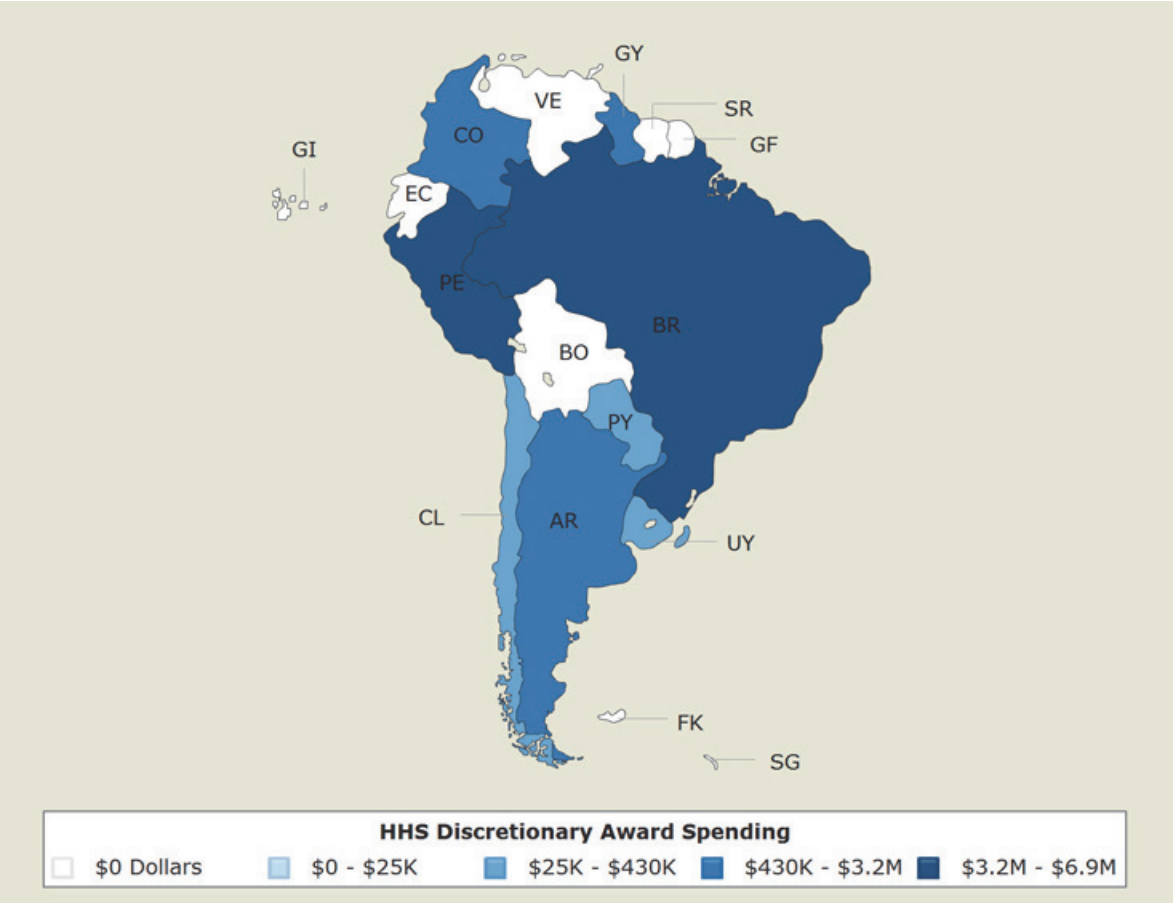
Discretionary Awards to Oceania Countries

This map shows the total discretionary award dollars HHS granted to Oceania nations in FY 2013.



Discretionary Awards to South American Countries

This map shows the total discretionary award dollars HHS granted to South American nations in FY 2013.



HHS Agency Portfolios

HHS is comprised of Operating Divisions (OPDIVs) and Staff Divisions (STAFFDIVs), each with its own unique mission. Each granting agency has a portfolio section in this report that contains its mission statement and its current fiscal year grant information.

Each portfolio page has a treemap.

The online version of this Annual Report uses various interactive charts to show these award comparisons. The data contained in these charts are substantial and best viewed in tables online.

A treemap is a chart resembling the concentric circles of a “tree trunk,” that compares FY 2013 and FY 2012 non-discretionary grant program awards by Grantee Type, Grantee Class and Award activity, and displays grant information in several ways. It shows the number of dollars awarded for a type of grant in a fiscal year, the proportion of dollar awards for the type of grant in the current fiscal year, and how much the award dollar value changed from the previous fiscal year.

Closed-ended entitlement program - A type of non-discretionary grant program where the award amount constitutes an upper limit on the amount of funds the federal government may pay for allowable programmatic activities.

Open-ended entitlement program - A type of non-discretionary grant program where, based on compliance with programmatic requirements, e.g., provision of specified services to eligible beneficiaries, the OPDIV is required to reimburse the recipient (generally a state) for all or a portion of eligible costs and there is no upper limit on the amount of funds the federal government will pay for allowable services and activities (as specified in the governing statute and implementing regulations).

Administration for Children & Families

Mark Greenberg
Acting Assistant Secretary

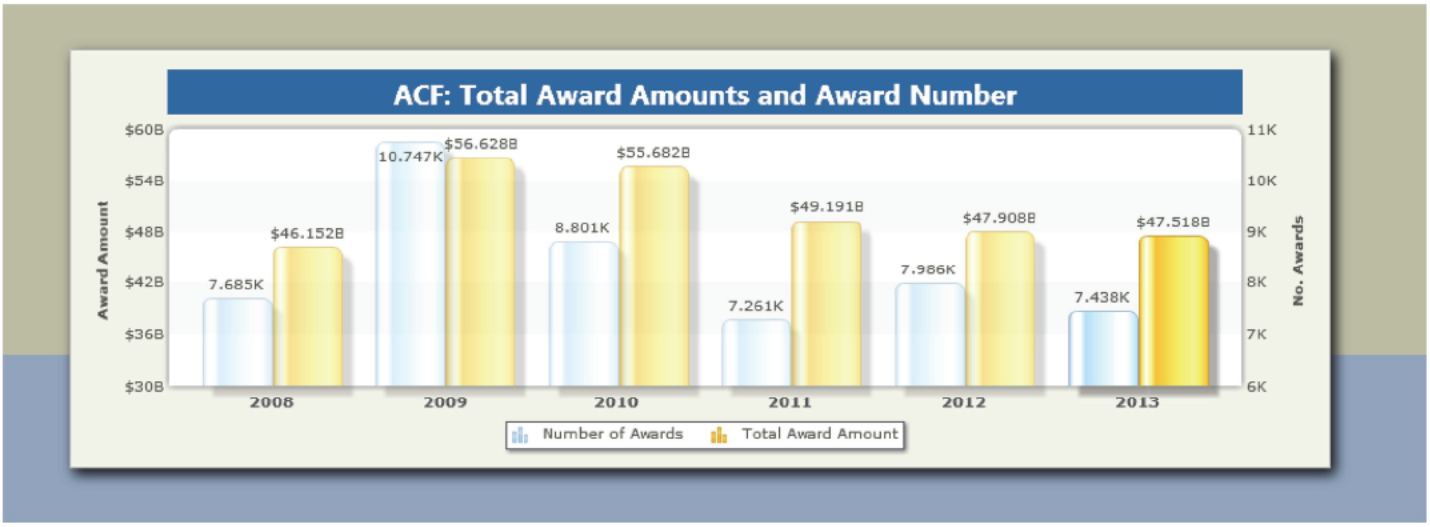
Mission To foster health and well-being by providing federal leadership, partnership and resources for the compassionate and effective delivery of human services.

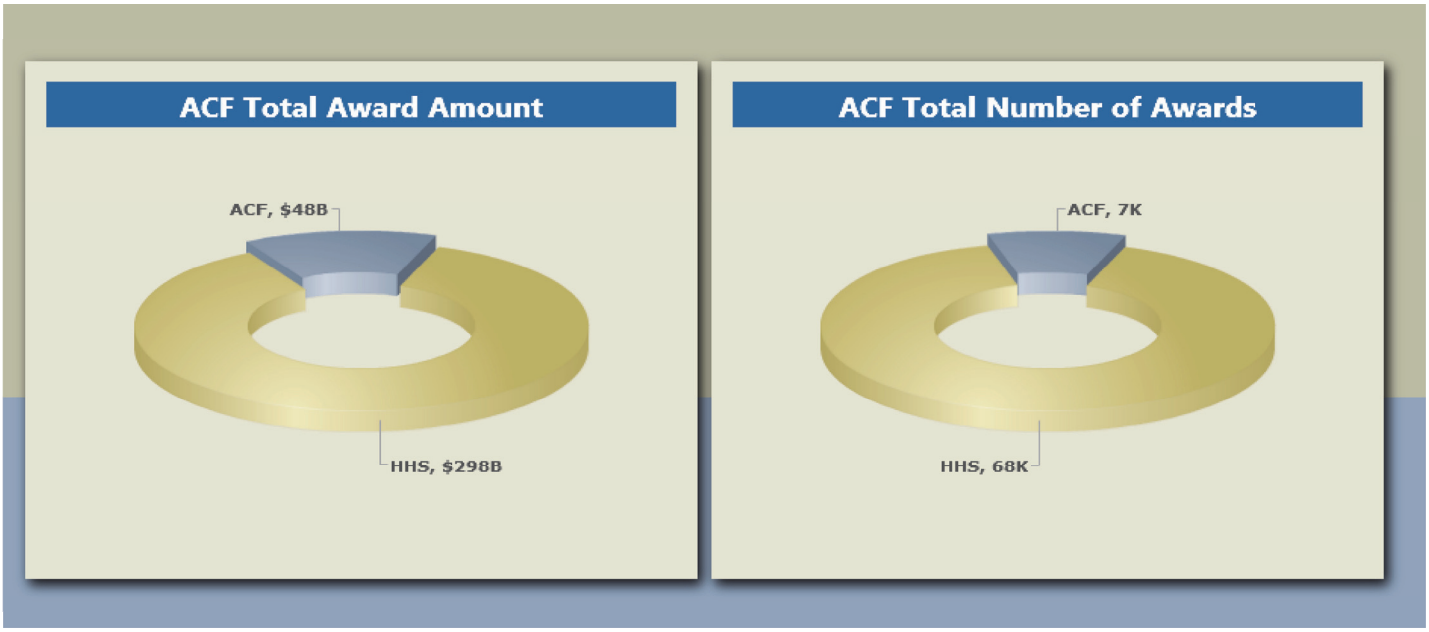
Organization ACF promotes the economic and social well-being of families, children, individuals and communities.

Photo courtesy of the ACF.

ACF programs aim to:

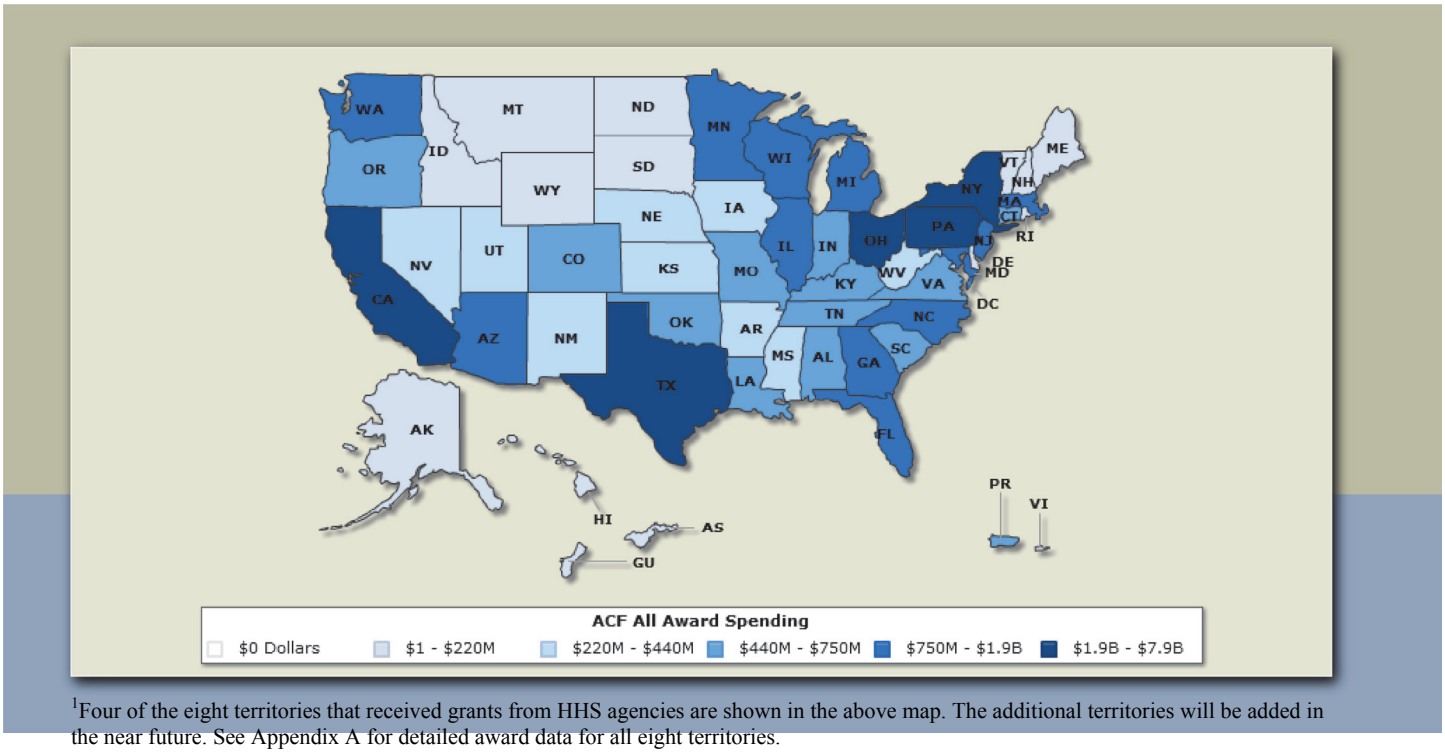
- Empower families and individuals to increase their economic independence and productivity
- Encourage strong, healthy, supportive communities that have a positive impact on quality of life and the development of children
- Create partnerships with front-line service providers, states, localities and tribal communities to identify and implement solutions that transcend traditional program boundaries
- Improve access to services through planning, reform and integration
- Address the needs, strengths and abilities of vulnerable populations including refugees and migrants and people with developmental disabilities





Awards by U.S. Location

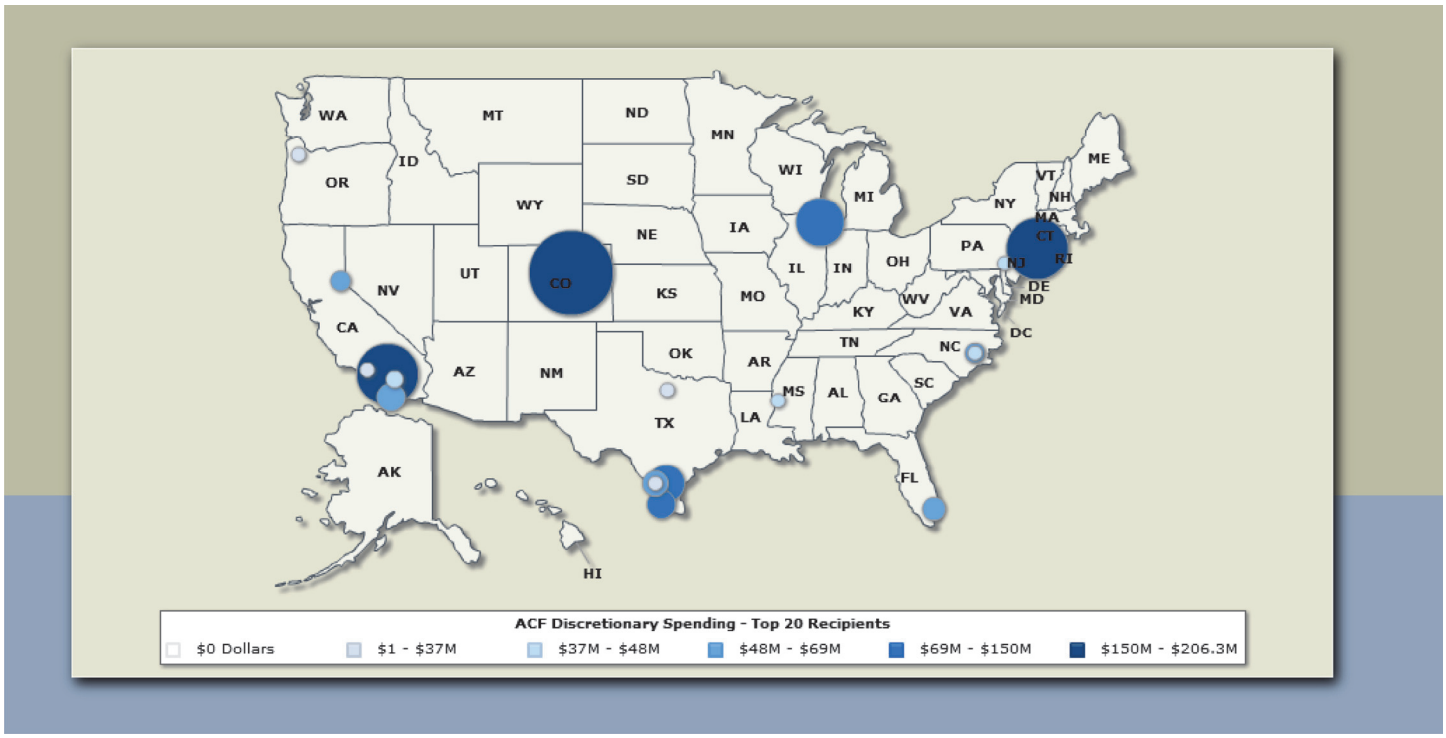
The map below shows ACF's total awards and award dollars granted by state for FY 2013.[1]



[1]Four of the eight territories that received grants from HHS agencies are shown in the above map. The additional territories will be added in the near future. See Appendix A for detailed award data for all eight territories.

Top 20 Discretionary Award Recipients

The map below shows the top recipients of ACF awards ranked by dollar amount. The Annual Report's PDF (Appendix A) contains a table of this agency's top recipients.



ACL Administration for Community Living

Kathy Greenlee
Administrator

Mission

Maximize the independence, well-being, and health of older adults, people with disabilities across the lifespan, and their families and caregivers.

Photo courtesy of the ACL.

Organization

The Administration for Community Living (ACL) is part of the U.S. Department of Health and Human Services and is headed by the Administrator, who reports directly to the Secretary of Health and Human Services (HHS). ACL's Principal Deputy Administrator serves as Senior Advisor to the HHS Secretary for Disability Policy.
ACL serves as the Federal agency responsible for increasing access to community supports, while focusing attention and resources on the unique needs of older Americans and people with disabilities across the lifespan.

ACL is structured to provide general policy coordination while retaining unique programmatic operations specific to the needs of each population we serve. ACL is comprised of the following units:

- Office of the Administrator*
- Administration on Aging (AoA)
- Administration on Intellectual and Developmental Disabilities (AIDD)
- Center for Disability and Aging Policy (CDAP)
- Center for Management and Budget (CMB)

*Within the Office of the Administrator is ACL's Office of Regional Operations. ACL's ten Regional Support Centers are located across the United States.

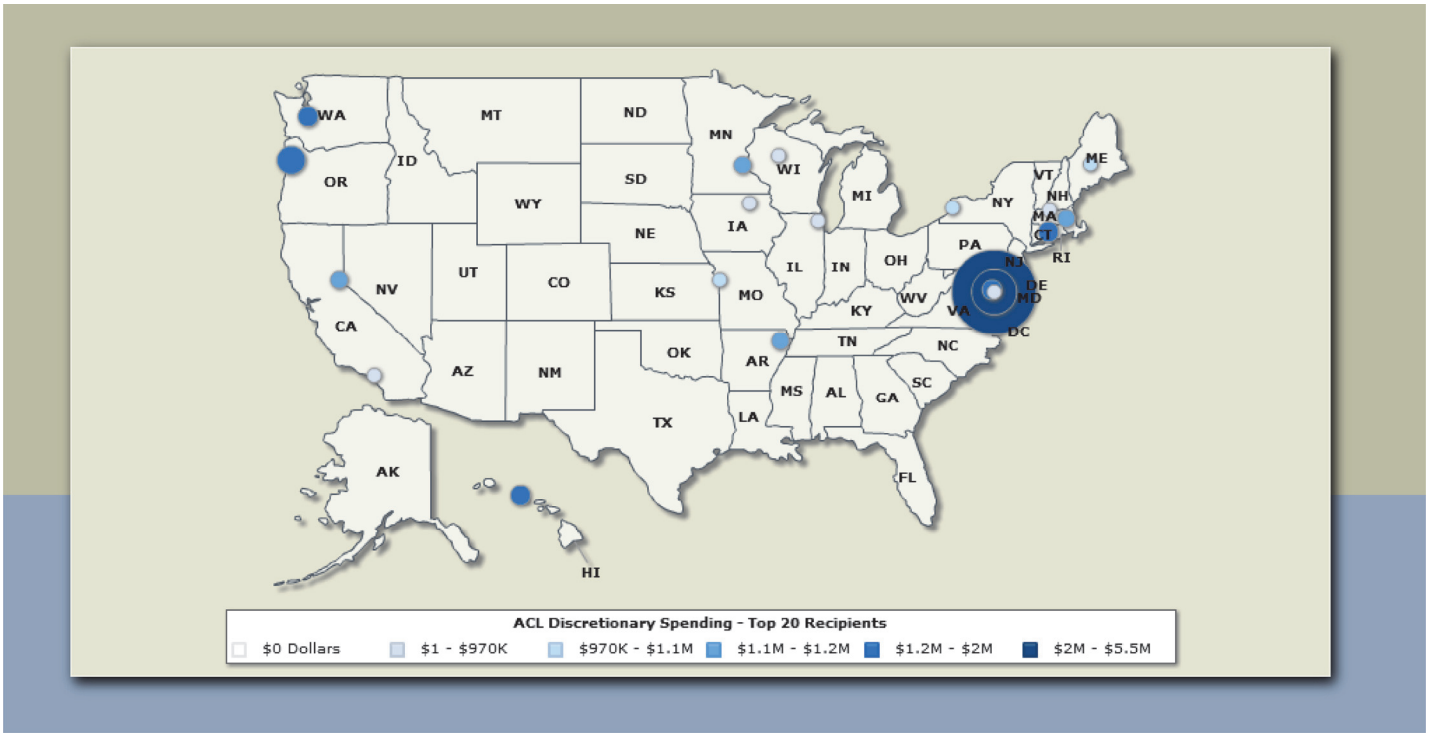
Top 20 Discretionary Award Recipients

The map below shows the top recipients of ACL awards ranked by dollar amount. The Annual Report's PDF (Appendix A) contains a table of this agency's top recipients.



Agency for Healthcare Research and Quality

Richard Kronick, Ph.D.
Director

Mission

The Agency for Healthcare Research and Quality's mission is to improve the quality, safety, efficiency, and effectiveness of health care for all Americans.

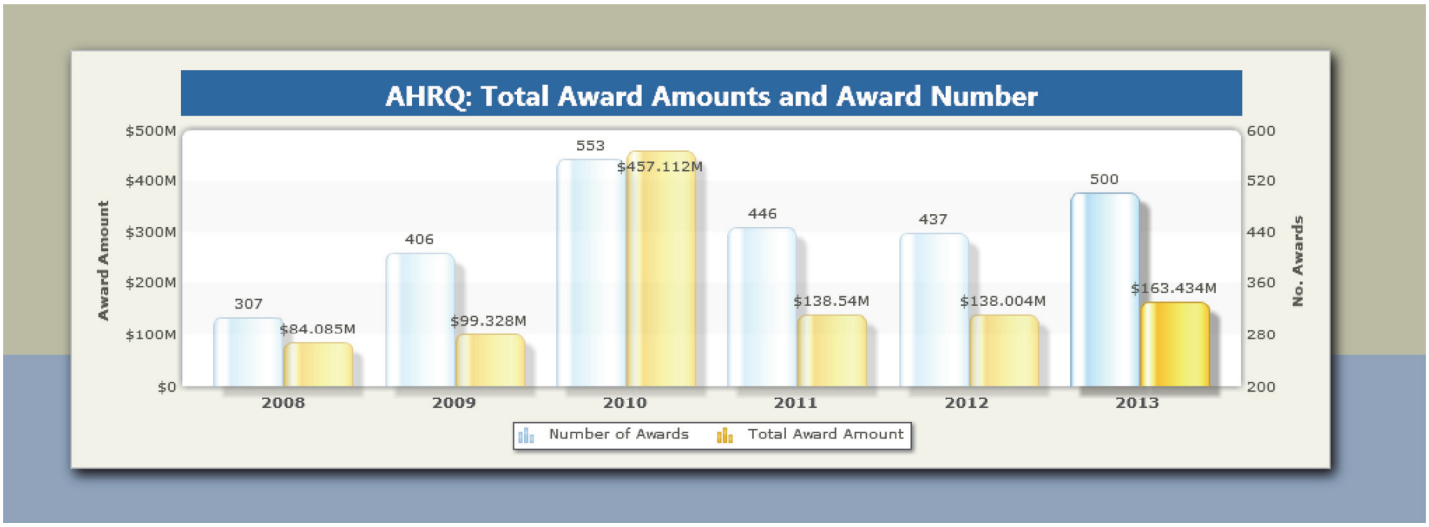
Photo courtesy of the AHRQ.

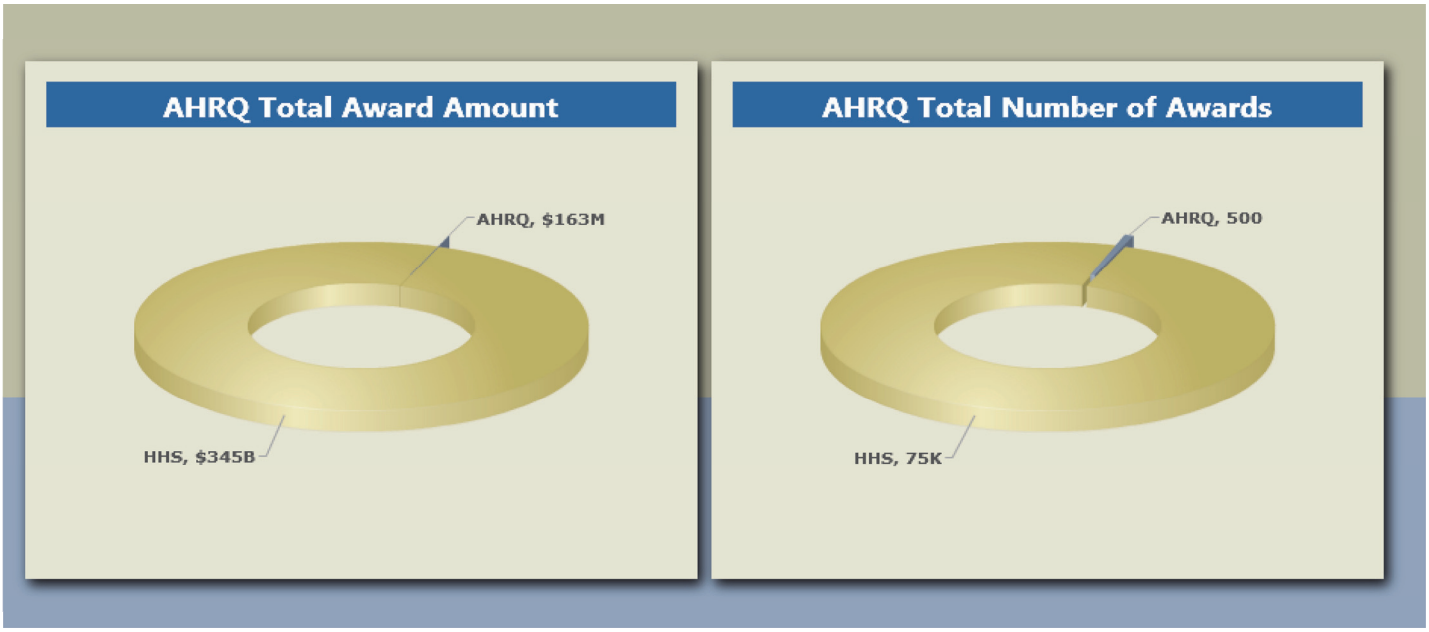
Organization

The Agency for Healthcare Research and Quality (AHRQ) is the lead agency charged with supporting research designed to improve the quality of health care, reduce its cost, improve patient safety, decrease medical errors, and broaden access to essential services.

AHRQ awards discretionary grants, cooperative agreements, and contracts to carry out research projects, demonstrations, evaluations, and dissemination activities. AHRQ's research projects examine the availability, quality, and costs of healthcare services; ways to improve the effectiveness and appropriateness of clinical practice, including the prevention of disease; and other areas of health services research, such as services for persons with HIV infection. The information helps healthcare decision makers, patients and clinicians, health system leaders, and policymakers make more informed decisions and improve the quality of healthcare services.

AHRQ also supports small grants, conference grants, and training through dissertation grants, National Research Service Awards, and career development awards.





Awards by U.S. Location

The map below shows AHRQ's total awards and award dollars granted by state for FY 2013.[1]

ASPE Assistant Secretary for Planning and Evaluation

Donald B. Moulds, Ph.D.
Acting Assistant Secretary for Planning and Evaluation

Mission

The Assistant Secretary for Planning and Evaluation (ASPE) advises the Secretary of the Department of Health and Human Services on policy development in health, disability, human services, data, and science, and provides advice and analysis on economic policy. ASPE leads special initiatives, coordinates the Department's evaluation, research and demonstration activities, and manages cross-Department planning activities such as strategic planning, legislative planning, and review of regulations. Integral to this role, ASPE conducts research and evaluation studies, develops policy analyses, and estimates the cost and benefits of policy alternatives under consideration by the Department or Congress.

Photo courtesy of ASPE.

Organization

ASPE, within the Office of the Secretary, is organized into five principal offices and several smaller ones. Each of the major offices is headed by a Deputy Assistant Secretary.

ASPR Assistant Secretary for Preparedness and Response

Nicole Lurie, M.D., M.S.P.H.
Assistant Secretary

Mission

To lead the country in preparing for, responding to, and recovering from the adverse health effects of emergencies and disasters by supporting our communities' ability to withstand adversity, strengthening our health and response systems, and enhancing national health security.

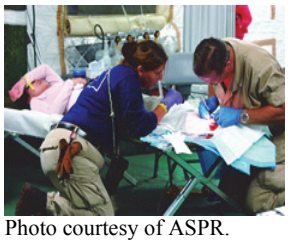

Photo courtesy of ASPR.

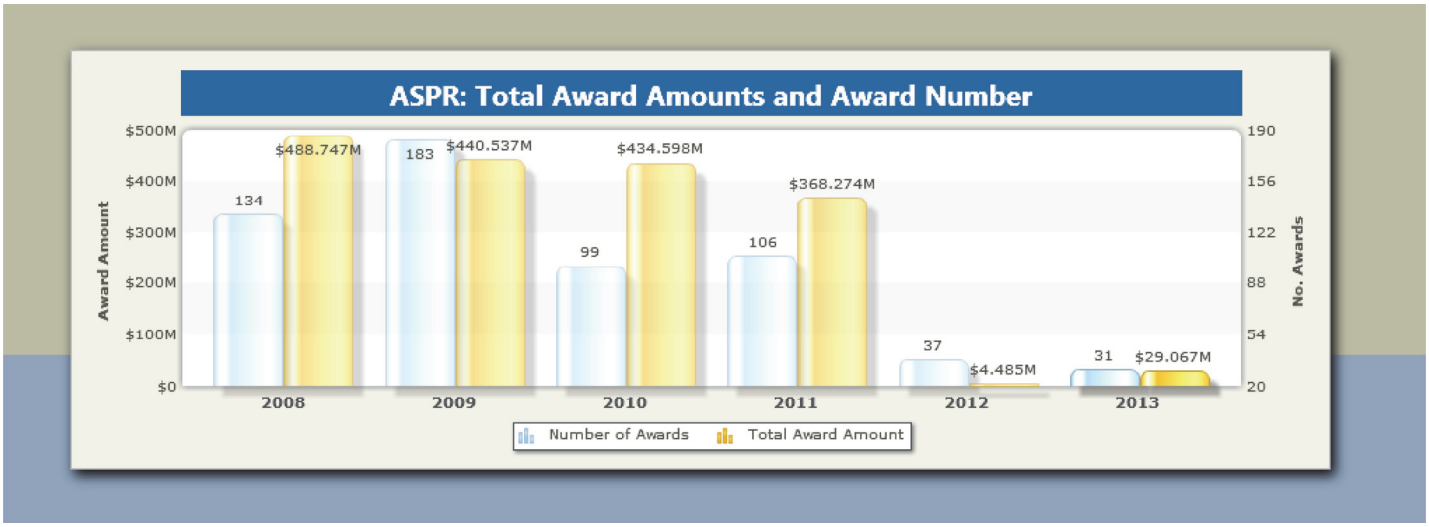
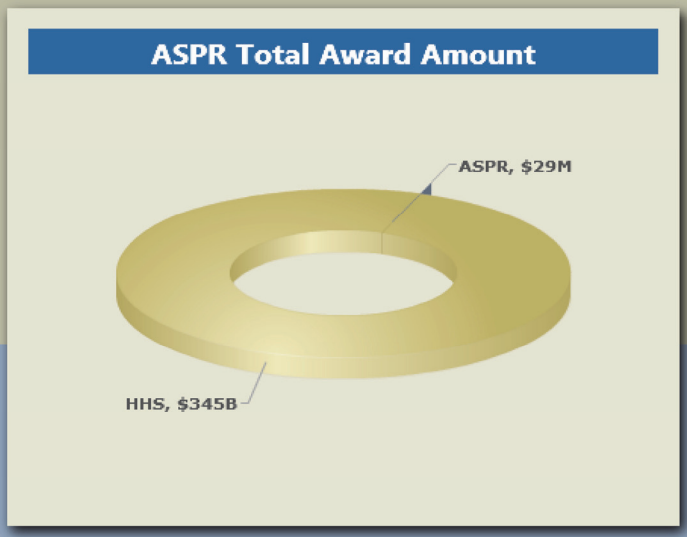
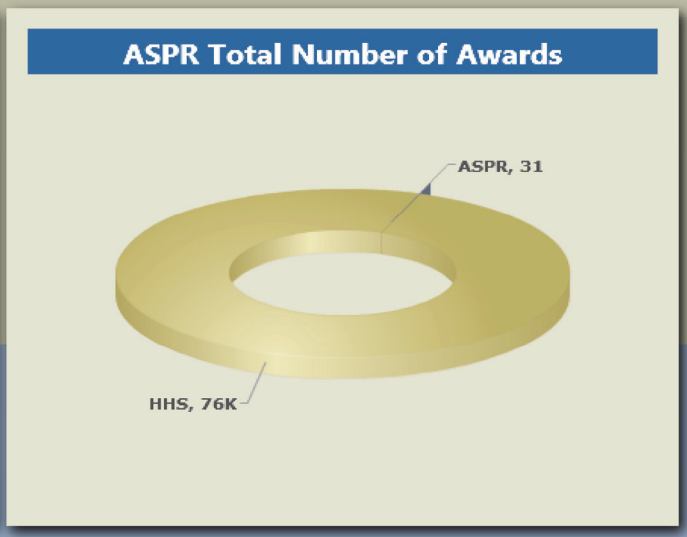
Organization

ASPR, as delegated by the Secretary, leads the federal public health and medical response to public health emergencies and incidents covered by the National Response and National Recovery Frameworks. ASPR serves as the principal advisor to the Secretary on all matters related to public health and medical emergency preparedness and response and leads a collaborative approach to the Department's preparedness, response and recovery portfolio. In addition to coordination of the federal public health and medical response to incidents, ASPR has operational responsibilities for the advanced research and development of medical countermeasures.







Awards by U.S. Location

The map below shows ASPR's total awards and award dollars granted by state for FY 2013.[1]

Centers for Disease Control and Prevention

Dr. Tom Frieden
Director

Mission

CDC works 24/7 keeping America safe from health, safety, and security threats, both foreign and domestic. Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease, and supports communities and citizens to do the same. CDC is the nation's health protection agency — saving lives, protecting people from health threats, and saving money through prevention.

Organization

CDC performs many of the administrative functions for the Agency for Toxic Substances and Disease Registry (ATSDR), a sister agency of CDC. ATSDR is charged with assessing health hazards at specific hazardous waste sites, helping to prevent or reduce exposure and the illnesses that result, and increasing knowledge and understanding of the health effects that may result from exposure to hazardous substances.

Photo courtesy of the CDC.

CDC is our nation's health protection agency, and our scientists and disease detectives work around the world to track diseases, research outbreaks, and respond to emergencies of all kinds. CDC works with partners around the country and world to:

- Prepare the US to respond to emergency health threats
- Investigate deadly disease outbreaks around the world
- Stop disease outbreaks before they spread
- Detect harmful germs rapidly in the US food supply
- Strengthen the quality, response and effectiveness of America's laboratories
- Provide critical data that saves lives and protects people
- Put proven prevention strategies to work
- Provide life-saving vaccines

Centers for Medicare & Medicaid Services

Marilyn Tavenner
Administrator

Mission

To ensure effective, up-to-date healthcare coverage and to promote quality care for beneficiaries.

Photo courtesy of CMS.

Organization

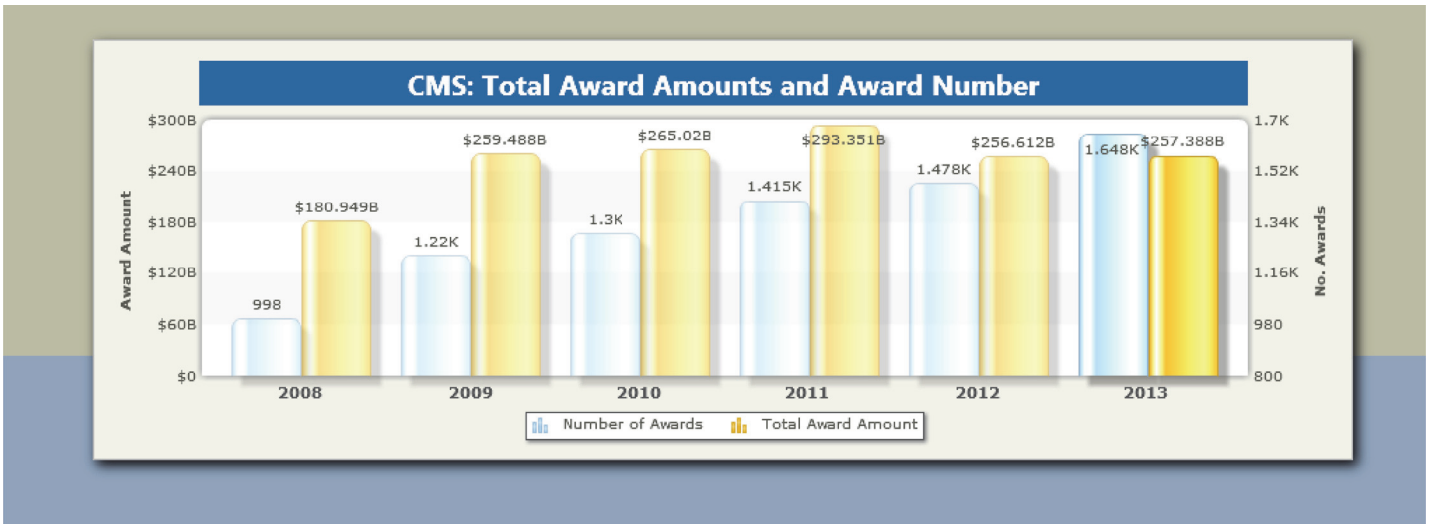
The Centers for Medicare & Medicaid Services (CMS) administers the Medicare program and works in partnership with states to administer Medicaid and the State Children's Health Insurance Program (SCHIP). About one in four Americans receives health coverage.

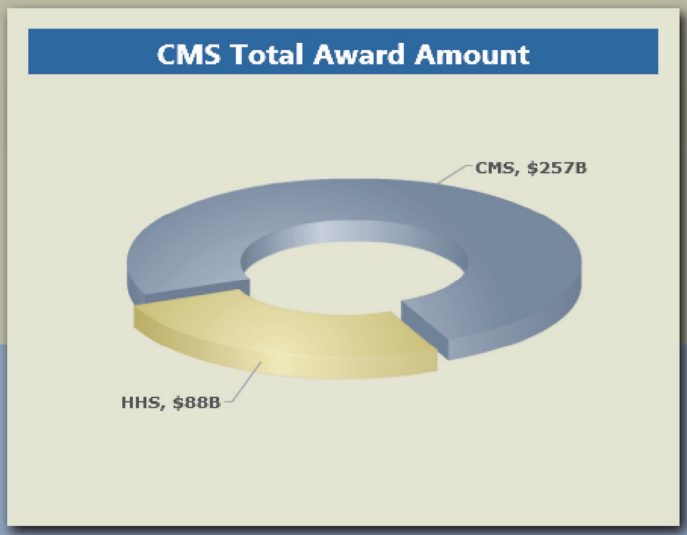
Medicare, the nation's largest health insurance program, is a direct payment program and its funding levels are not included in the CMS grant totals. Grant programs which support the administration of some Medicare services are included in CMS totals. Examples of key CMS grant programs include the Medicare State Survey and Certification Group; CMS Research, Demonstrations and Evaluations; Medicare Hospital Insurance; and Medicare Supplementary Medical Insurance.

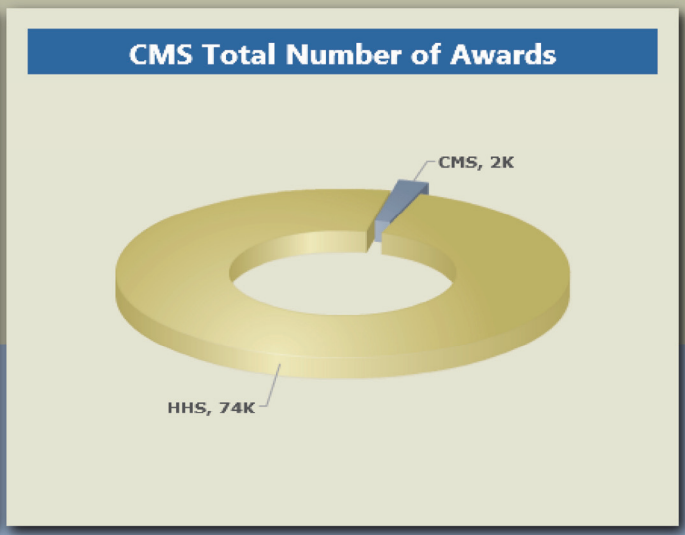
Medicaid provides healthcare to millions of low-income families with children, elderly, blind or disabled persons. It is the Department's largest grant program in terms of funding levels. The SCHIP allows states to initiate and/or expand health insurance to uninsured, low-income children.

In addition to these programs CMS administers a number of quality-focused activities that benefit all Americans. CMS program objectives include:

- Building and Maintaining a Skilled, Committed, and Highly Motivated Workforce
- Accurate and Predictable Payments
- High-Value Health Care
- Confident, Informed Consumers
- Collaborative Partnerships







Awards by U.S. Location

The map below shows CMS's total awards and award dollars granted by state for FY 2013.[1]

Food and Drug Administration

Margaret A. Hamburg, MD
Commissioner

Mission

To protect the public health by assuring the safety, effectiveness, and security of human and veterinary drugs, biological products, medical devices, our nation's food supply, cosmetics, and products that give off radiation. The FDA is also responsible for advancing the public health by helping to speed innovations that make medicines and foods more effective, safer, and more affordable; and helping the public get accurate, science-based information they need to use medicines and foods to improve their health.

Organization

The Food and Drug Administration (FDA) is a scientific regulatory agency that is responsible for protecting and advancing the public health in the United States: FDA's responsibilities cover a wide range of regulatory activities. FDA decisions affect every American on a daily basis. Annually, consumers spend nearly $1.5 trillion, or more than 20 percent of all consumer expenditures, on FDA-regulated products.

Health Resources and Services Administration

Mary K. Wakefield, Ph.D., RN
HRSA Administrator

Mission

To improve health and achieve health equity through access to quality services, a skilled health workforce and innovative programs.

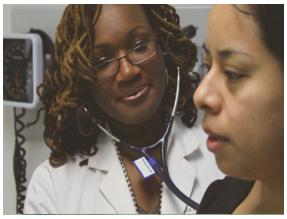

Photo courtesy of HRSA.

Organization

The Health Resources and Services Administration (HRSA) is the primary federal agency responsible for improving access to healthcare services for people who are uninsured, isolated, or medically vulnerable. Tens of millions of Americans get affordable health care and other help through HRSA's 100-plus programs and more than 3,000 grantees.
HRSA provides leadership and financial support to healthcare providers in every state and U.S. territory.
HRSA works to strengthen the health care workforce, build healthy communities, and improve health equity.
HRSA grantees provide health care to uninsured people, people living with HIV/AIDS, pregnant women, mothers, and children. They train health professionals and improve systems of care in rural communities.
HRSA oversees organ, bone marrow and cord blood donation. It compensates individuals harmed by vaccination and maintains databases that protect against health care malpractice, waste, fraud and abuse.

HRSA grantees provide health care to uninsured people, people living with HIV/AIDS, pregnant women, mothers, and children. They train health professionals and improve systems of care in rural communities.

HRSA's strategic goals are to:

- Improve Access to Health Care
- Improve Health Outcomes
- Improve the quality of Health Care
- Eliminate Health Disparities
- Improve the Public Health and Healthcare Systems
- Achieve Excellence in Management Practices

Indian Health Service

Dr. Yvette Roubideaux
Acting Director

Mission

To raise the physical, mental, social, and spiritual health of American Indians and Alaska Natives to the highest level.

Organization

The Indian Health Service (IHS) provides a comprehensive health services delivery system for American Indians and Alaska Natives with opportunity for maximum tribal involvement in developing and managing programs to meet their health needs. IHS serves a population of approximately 2.1 million American Indians and Alaska Natives who belong to more than 566 federally recognized tribes in 35 states.

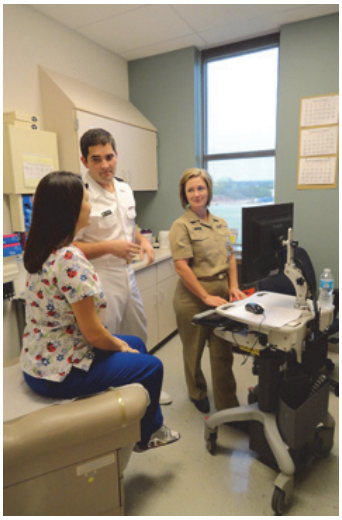

Photo courtesy of the IHS.

The IHS goal is to ensure that comprehensive, culturally acceptable personal and public health services are available and accessible to all American Indian and Alaska Native people. The foundation of IHS is to uphold the federal government obligation to promote healthy American Indian and Alaska Native people, communities, and cultures and to honor and protect the inherent sovereign rights of tribes.

IHS awarded over $1.8 billion in comprehensive health services to American Indian and Alaska Native people.

The IHS manages Discretionary and "Compact" awards. Compacts are written agreements consistent with the federal government's trust responsibility, treaty obligations, and the government-to-government relationship between Indian tribes and the United States and may only be amended by mutual agreement of the parties. Compacts are usually awarded with an "indefinite term" per the Indian Self-Determination and Education Assistance under Title V of the statute and therefore intended to be in place in perpetuity. Funding Agreements associated with Title V compacts identify the Programs, Functions, Services, and Activities (PFSAs) or portions thereof that will be assumed by a tribe or tribal organization and the funding that is related to those PFSAs. Each tribe has a sole right to its share of IHS PFSAs. Each tribe chooses whether to receive the funding and each tribe controls the timing of the funding agreement and the retention of the ongoing responsibility for so long as permitted by federal law or until terminated by mutual written agreement, retrocession, or resumption.

NIH National Institutes of Health

Francis S. Collins, M.D., Ph.D.
Director

Mission

To seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life and reduce illness and disability.

Photo courtesy of the NIH.

Organization

National Institutes of Health (NIH) is the primary federal agency for conducting and supporting medical research. Helping to lead the way toward important medical discoveries that improve people's health and save lives, NIH investigates ways to prevent disease as well as the causes, treatments, and even cures for common and rare diseases. Comprised of 27 Institutes and Centers, NIH provides leadership and financial support to researchers in every state and throughout the world.

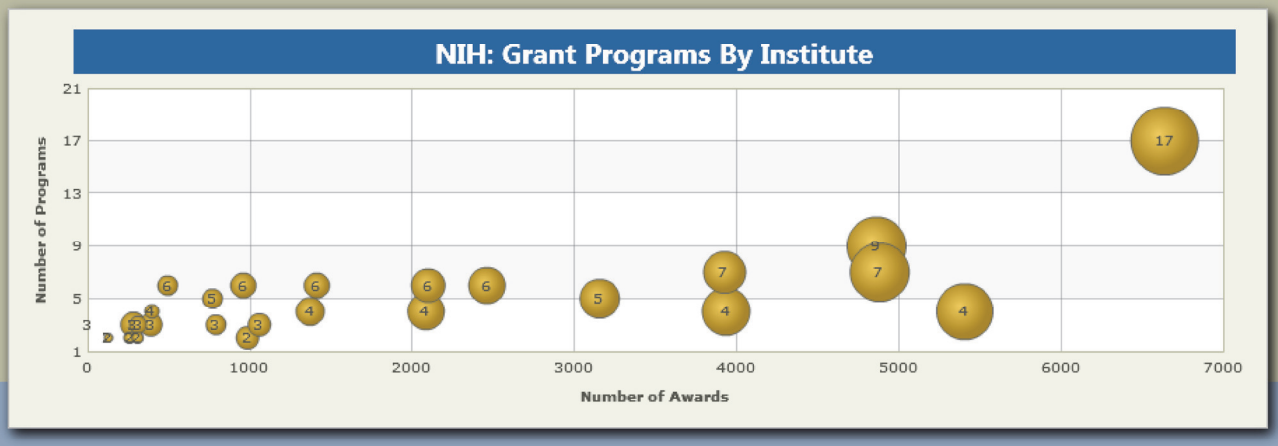
In realizing these goals, NIH provides leadership and direction to programs designed to improve health by conducting and supporting research in: the causes, diagnosis, prevention, and cure of human diseases; the processes of human growth and development; the biological effects of environmental contaminants; the understanding of mental, addictive and physical disorders; and by directing programs for the collection, dissemination, and exchange of information in medicine and health, including the development and support of medical libraries and the training of medical librarians and other health information specialists.

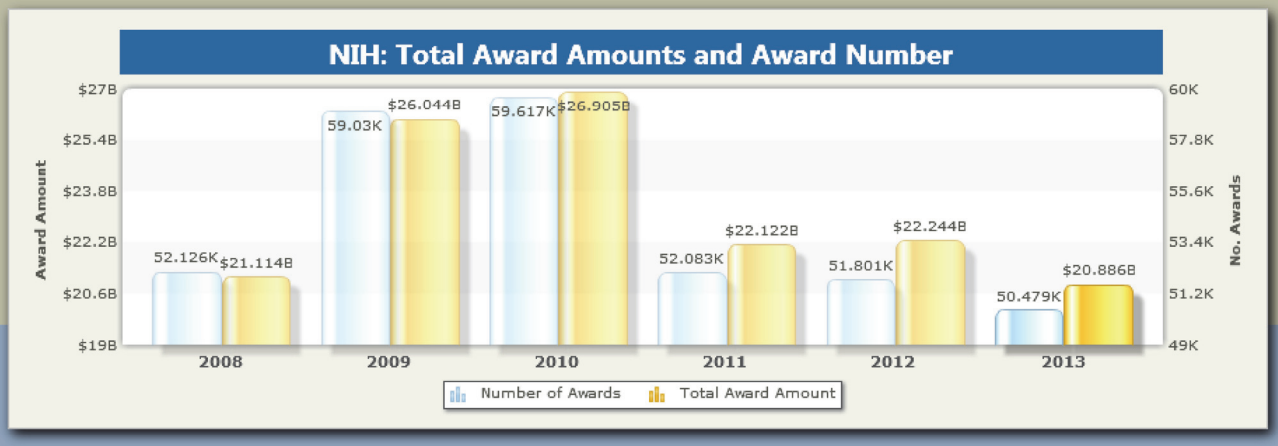
NIH awarded over $23 billion in support of its mission to extend healthy life and reduce the burdens of illness and disability.

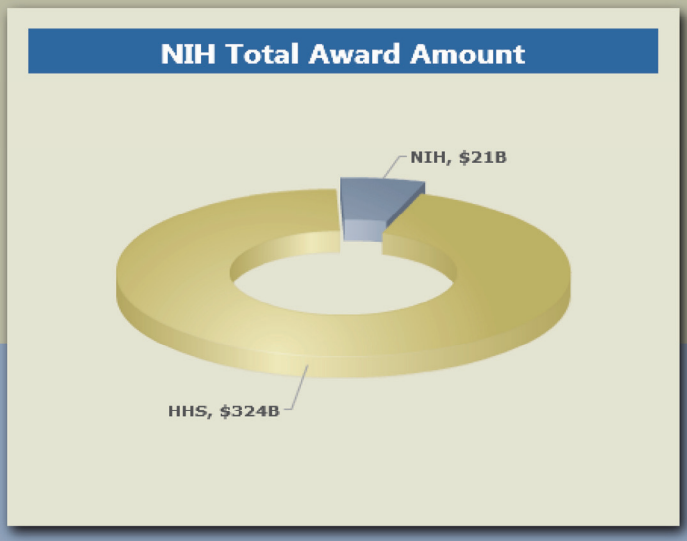
The goals of NIH are to:

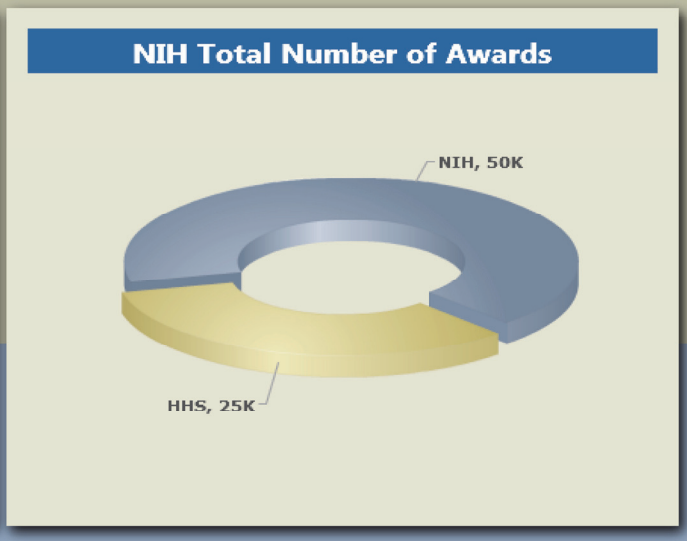
- Foster fundamental creative discoveries, innovative research strategies, and their applications as a basis to significantly advance the Nation's capacity to protect and improve health
- Develop, maintain, and renew scientific human and physical resources that will assure the Nation's capability to prevent disease
- Expand the knowledge base in medical and associated sciences in order to enhance the Nation's economic well-being and ensure a continued high return on the public investment in research and
- Exemplify and promote the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science

The chart shown below represents NIH institutes that granted awards in FY 2013. See Appendix A for detailed data on awards and award dollars.









Awards by U.S. Location

The map below shows NIH's total awards and award dollars granted by state for FY 2013.[1]

Office of the Assistant Secretary for Health (OASH)

Dr. Howard K. Koh
Assistant Secretary for Health

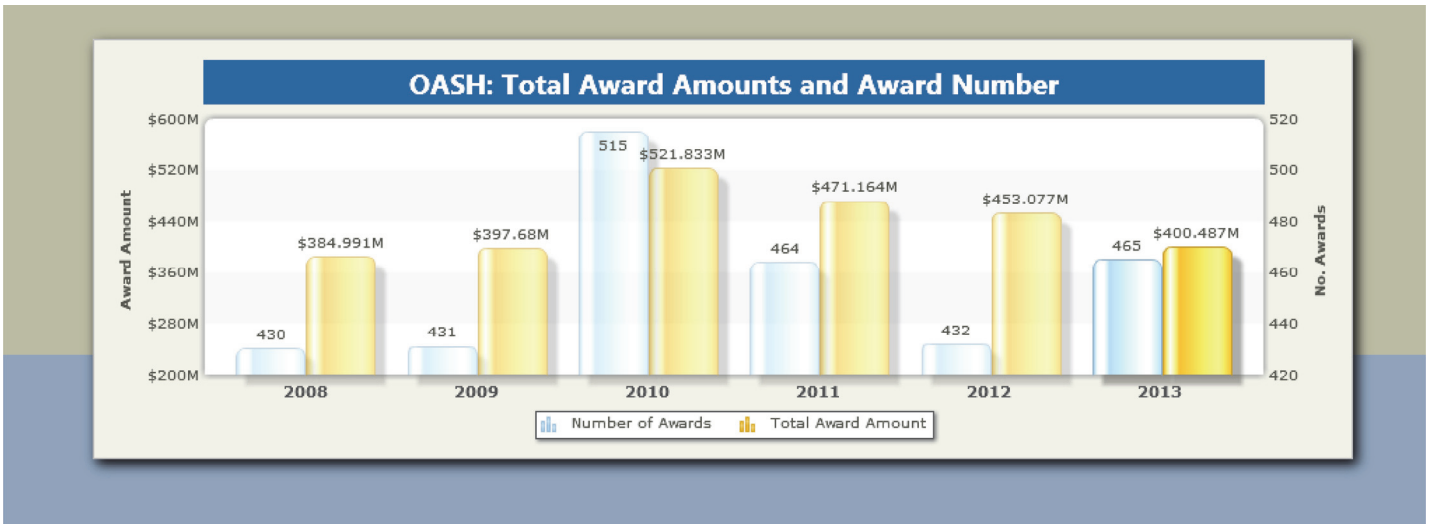
Mission

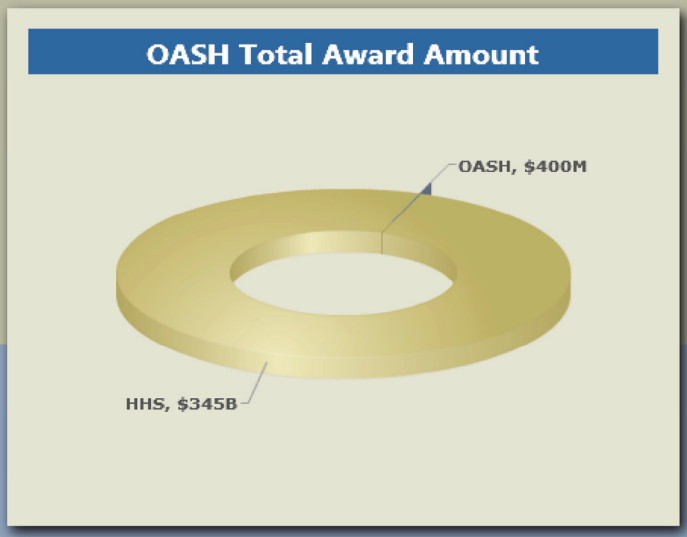
Mobilizing leadership in science and prevention for a healthier nation.

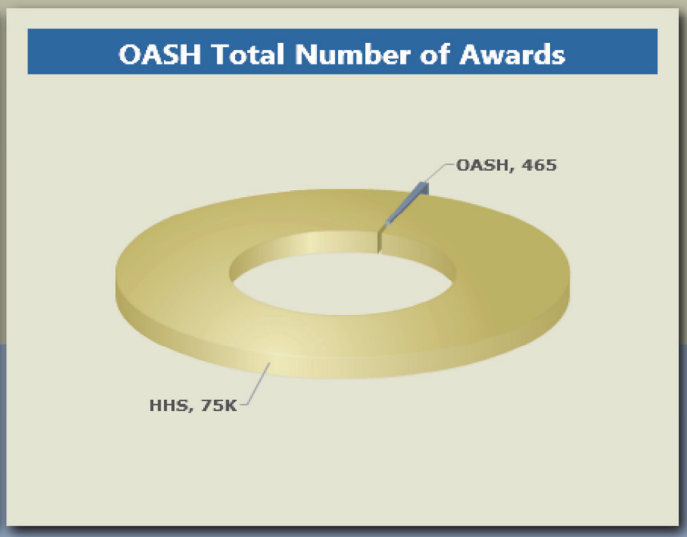
Photo courtesy of OASH.

Organization

OASH oversees 12 core public health offices — including the Office of the Surgeon General and the U.S. Public Health Service Corps — as well as 10 regional health offices across the nation and 10 Presidential and Secretarial advisory committees.

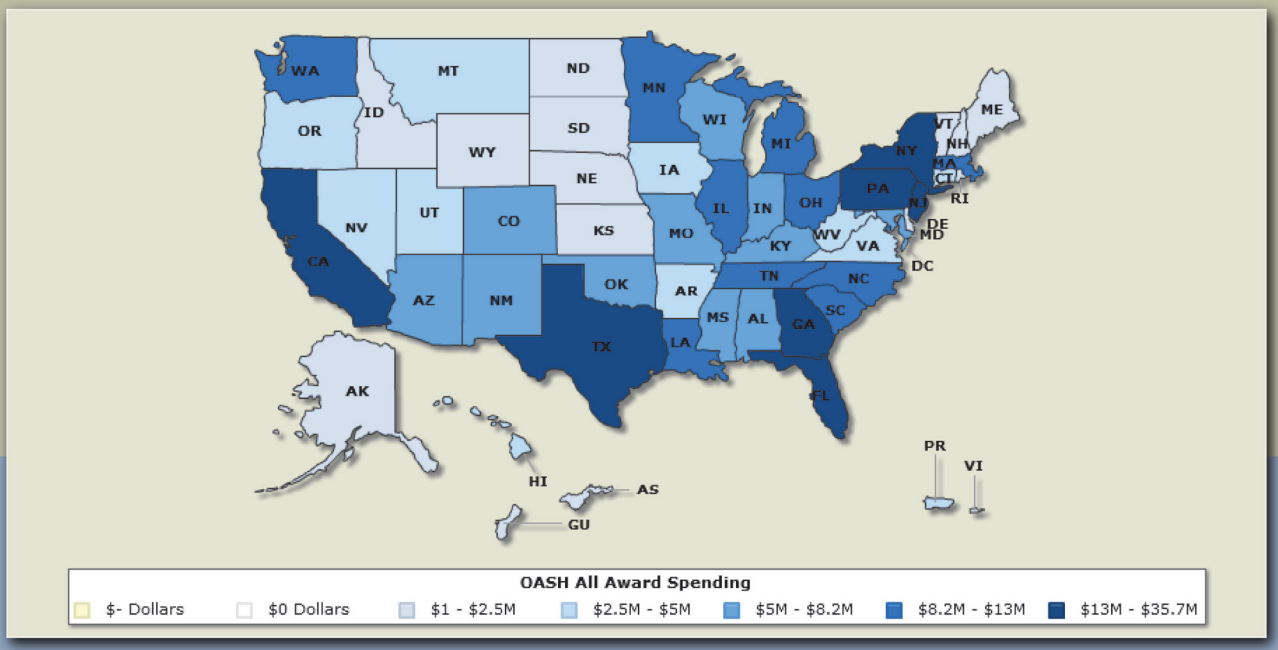






Awards by U.S. Location

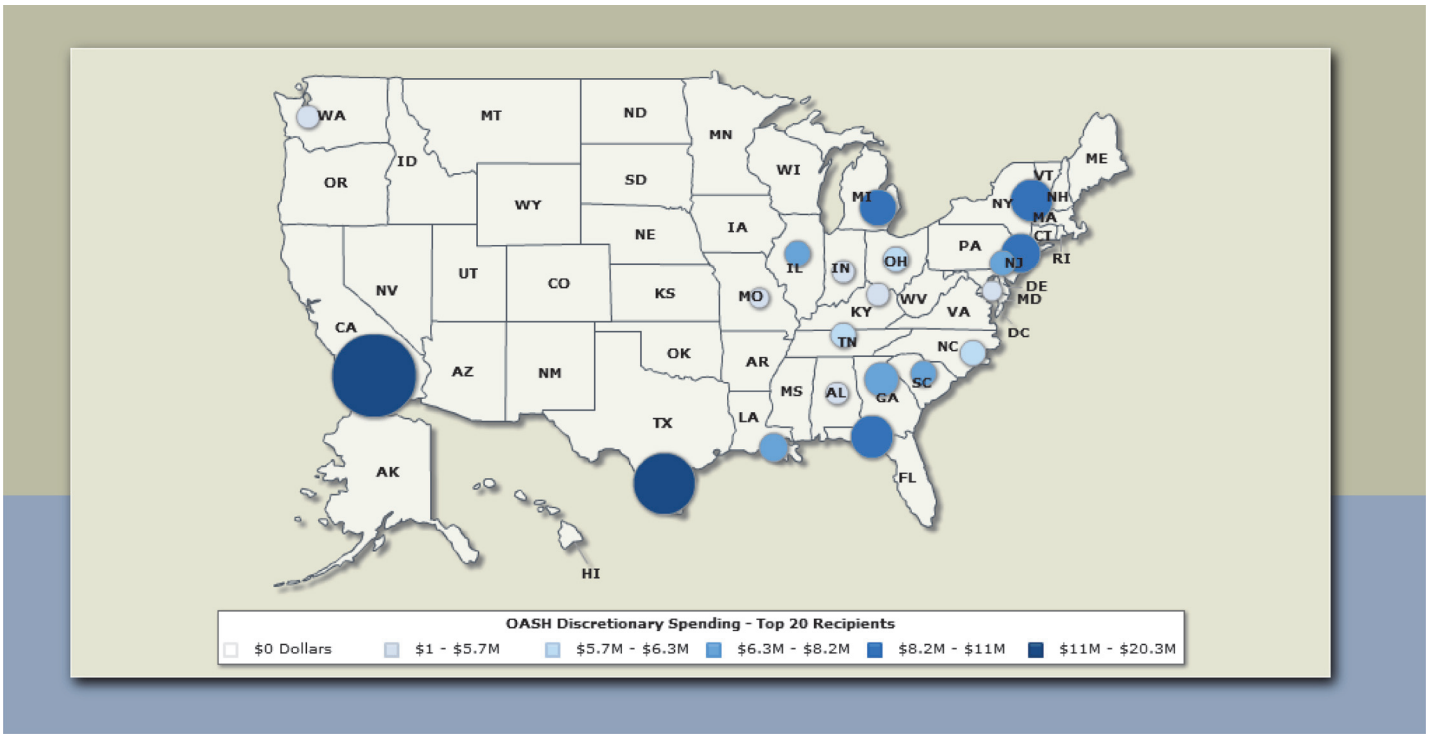
The map below shows OASH's total awards and award dollars granted by state for FY 2013.[1]



[1]Four of the eight territories that received grants from HHS agencies are shown in the above map. The additional territories will be added in the near future. See Appendix A for detailed award data for all eight territories.

Top 20 Discretionary Award Recipients

The map below shows the top recipients of OASH awards ranked by dollar amount. The Annual Report's PDF (Appendix A) contains a table of this agency's top recipients.



globalhealth★gov Office of Global Affairs

Dr. Nils Daulaire, M.D., M.P.H.
Assistant Secretary for Global Affairs

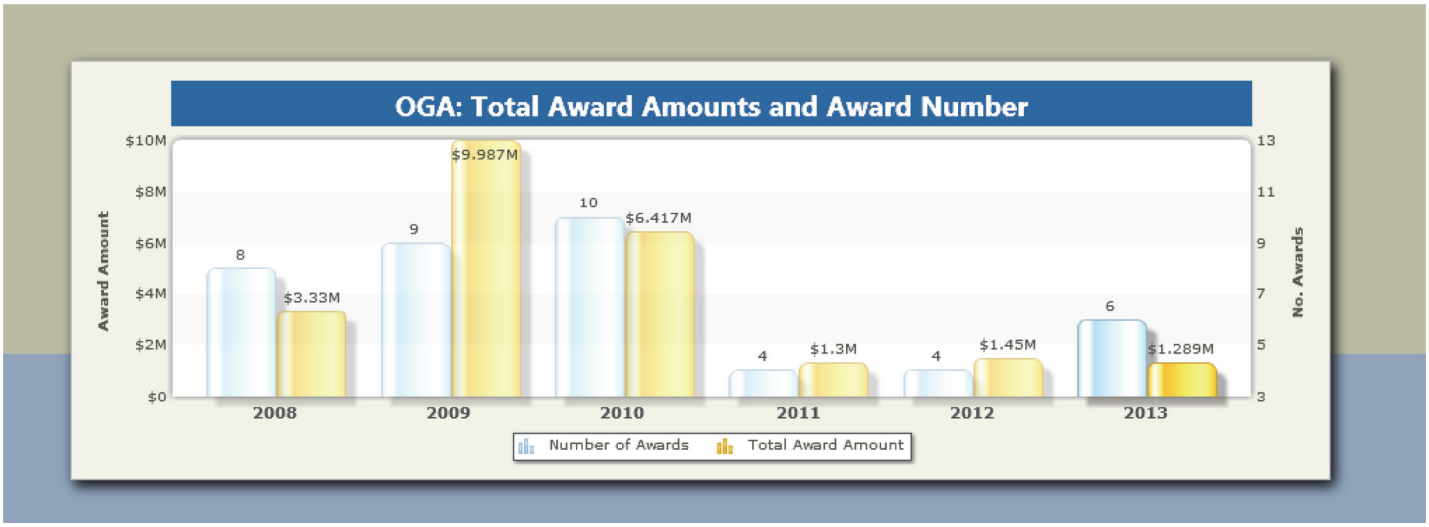
Mission

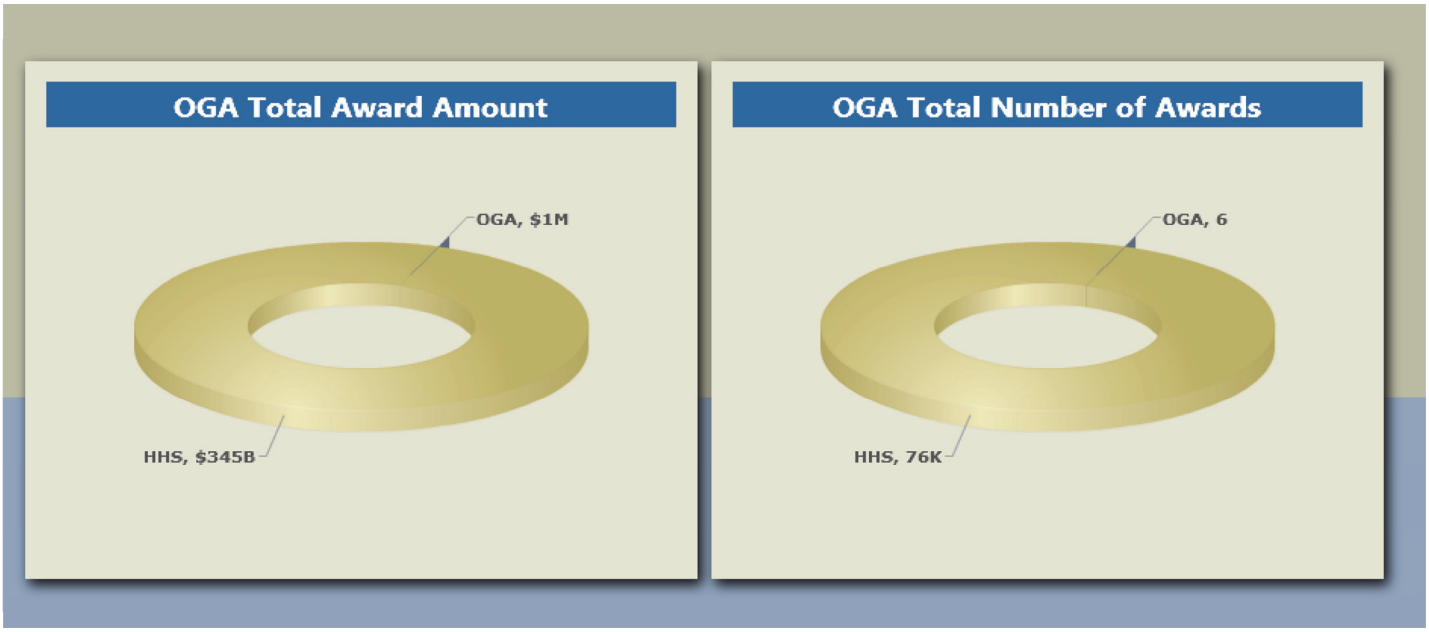
To promote the health of people of the world by advancing the Department of Health and Human Services' global strategies and partnerships, thus serving the health and well-being of the people of the United States.

Organization

OGA, within the Office of the Secretary, represents the Department to other governments, other federal departments and agencies, international organizations, and the private sector on international and refugee health issues.

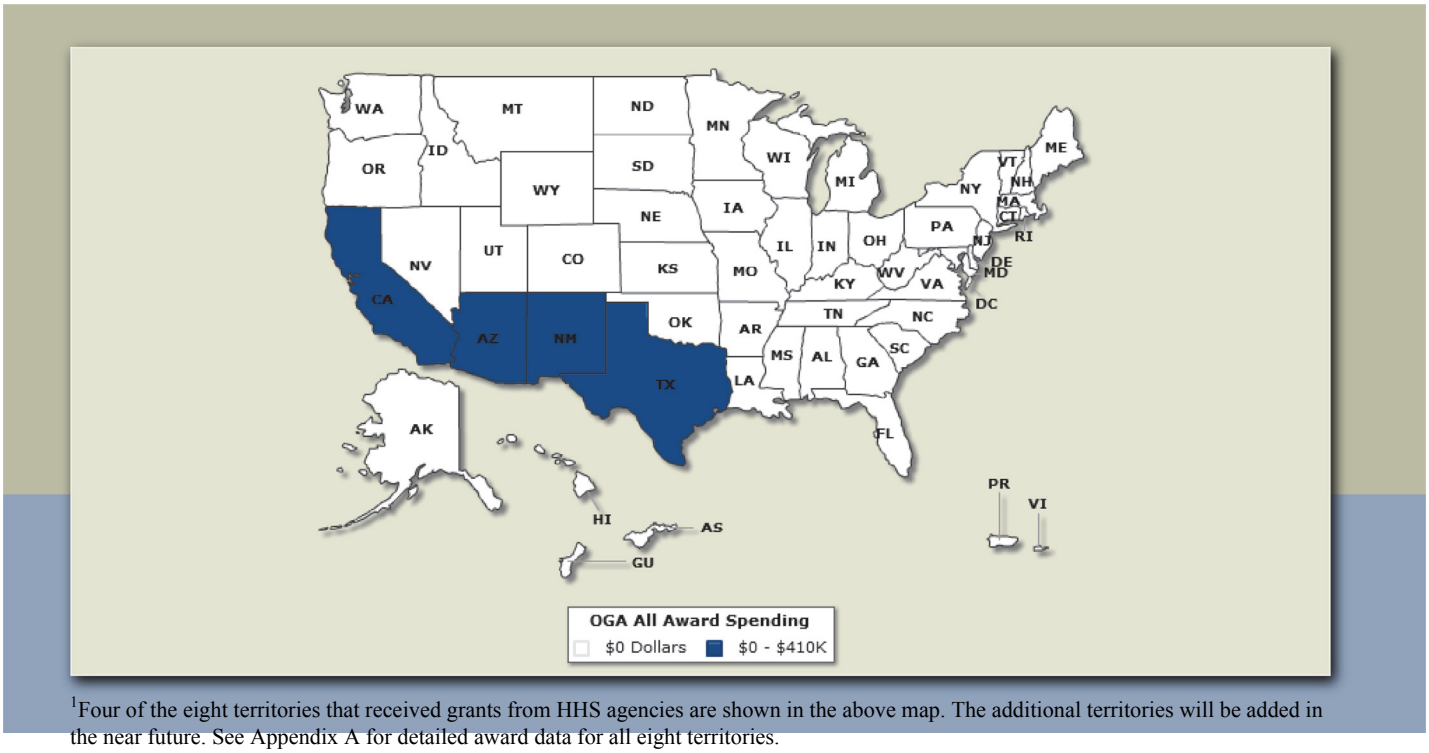
Photo courtesy of the OGA.





Awards by U.S. Location

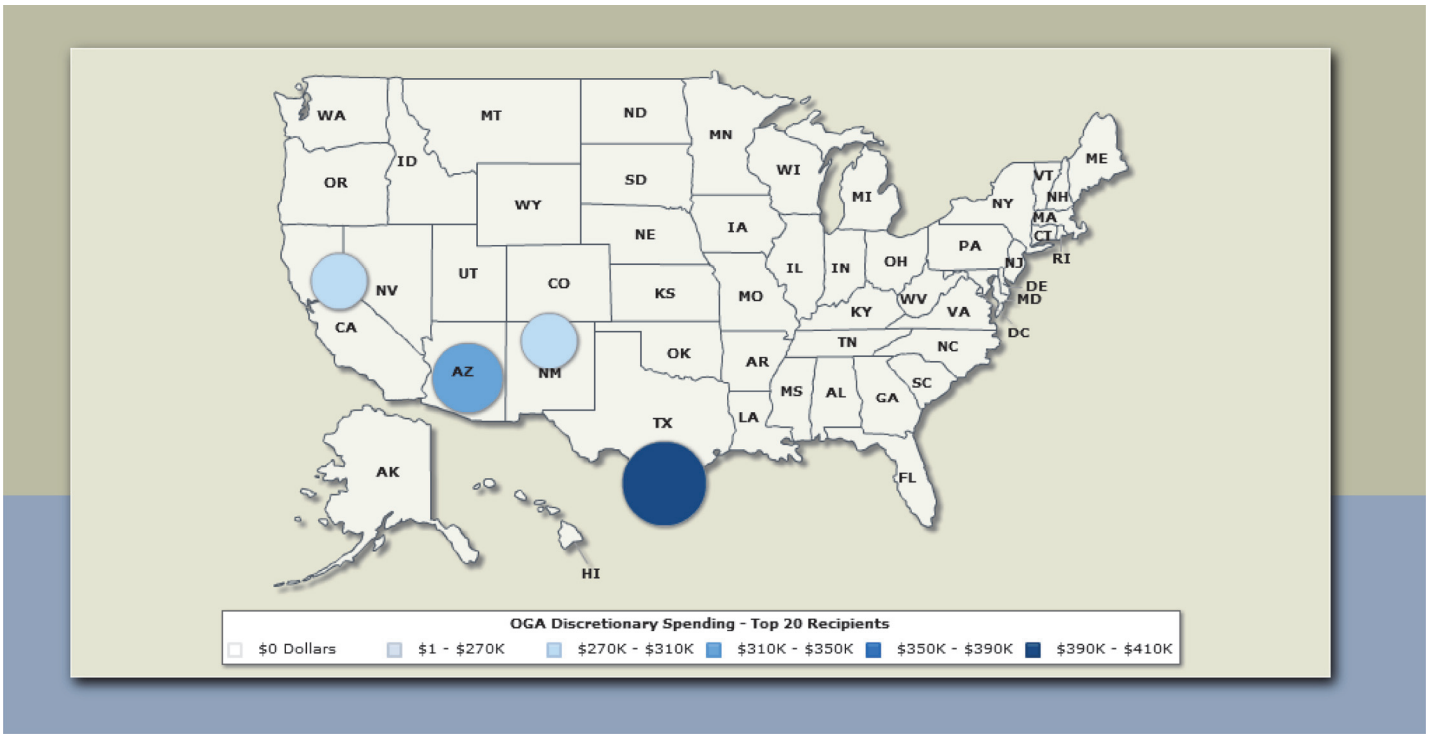
The map below shows OGA's total awards and award dollars granted by state for FY 2013.[1]



[1]Four of the eight territories that received grants from HHS agencies are shown in the above map. The additional territories will be added in the near future. See Appendix A for detailed award data for all eight territories.

Top 20 Discretionary Award Recipients

The map below shows the top recipients of OGA awards ranked by dollar amount. The Annual Report's PDF (Appendix A) contains a table of this agency's top recipients.



ONC Office of the National Coordinator for Health Information Technology

Mission

ONC is the principal Federal entity charged with coordination of nationwide efforts to implement and use the most advanced health information technology and the electronic exchange of health information. The position of National Coordinator was created in 2004, through an Executive Order, and legislatively mandated in the Health Information Technology for Economic and Clinical Health Act (HITECH Act) of 2009.

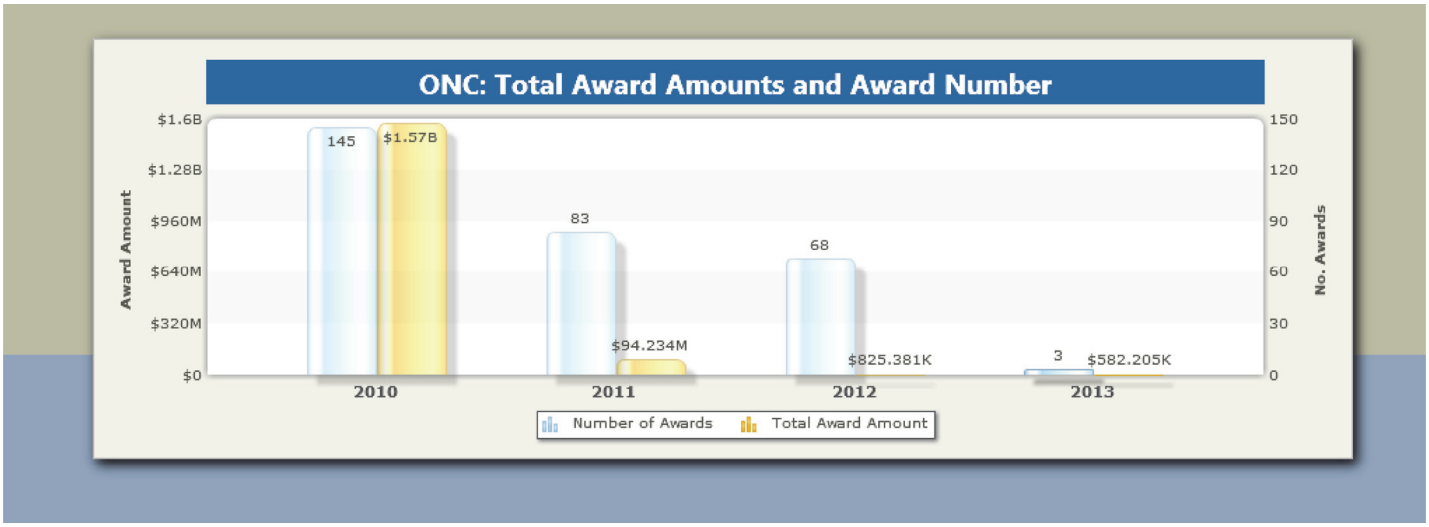
Photo courtesy of the ONC.

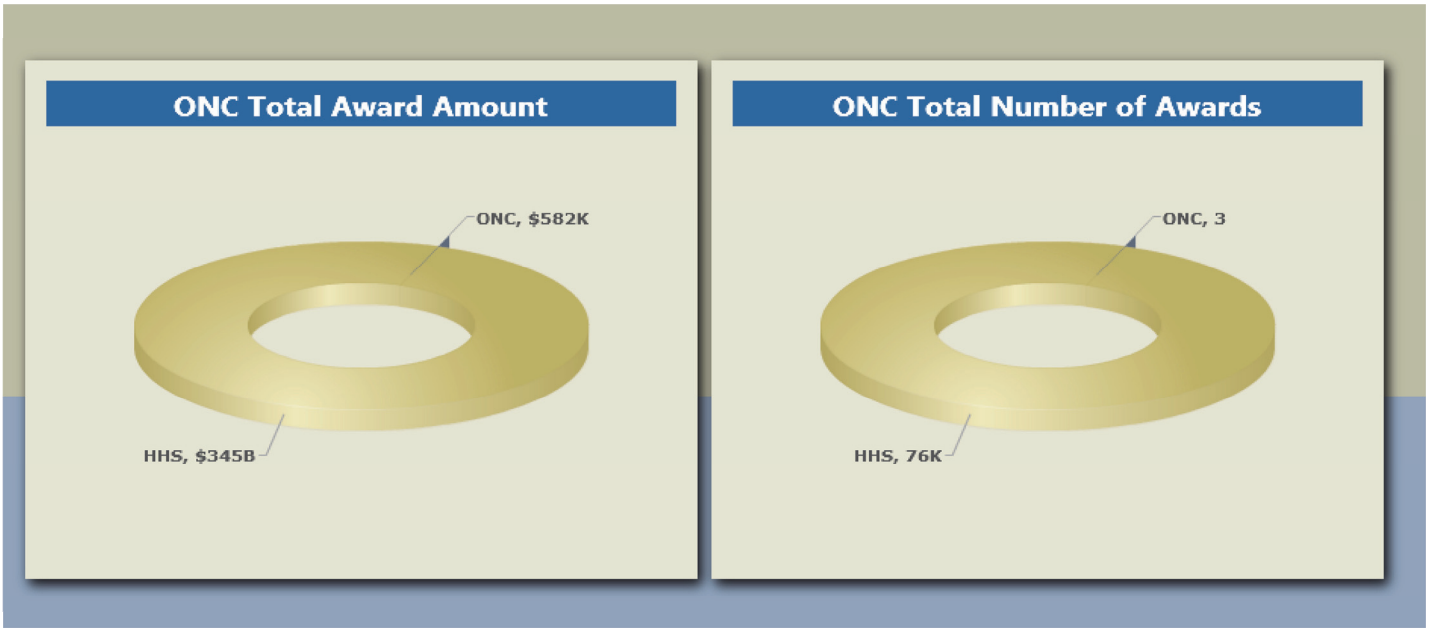
Organization

The Office of the National Coordinator for Health Information Technology (ONC) is at the forefront of the administration's health IT efforts and is a resource to the entire health system to support the adoption of health information technology and the promotion of nationwide health information exchange to improve health care. ONC is organizationally located within the Office of the Secretary for the U.S. Department of Health and Human Services (HHS).

- **Information Exchange through Meaningful Use of Health IT | Achieve Adoption and Information Exchange through Meaningful Use of Health IT** | How meaningful use and exchange of health IT will anchor the government's health IT strategy
- **Improve Care, Improve Population Health, and Reduce Health Care Costs through the Use of Health IT** | How health IT supports the implementation of the Affordable Care Act
- **Inspire Confidence and Trust in Health IT** | How government updates its approach to privacy, security, and patient safety
- **Empower Individuals with Health IT to Improve their Health and the Health Care System** | How health IT empowers individuals to become full partners in their health care and manage their health history
- **Achieve Rapid Learning and Technological Advancement** | How innovation will support improvements in health IT and health care overall

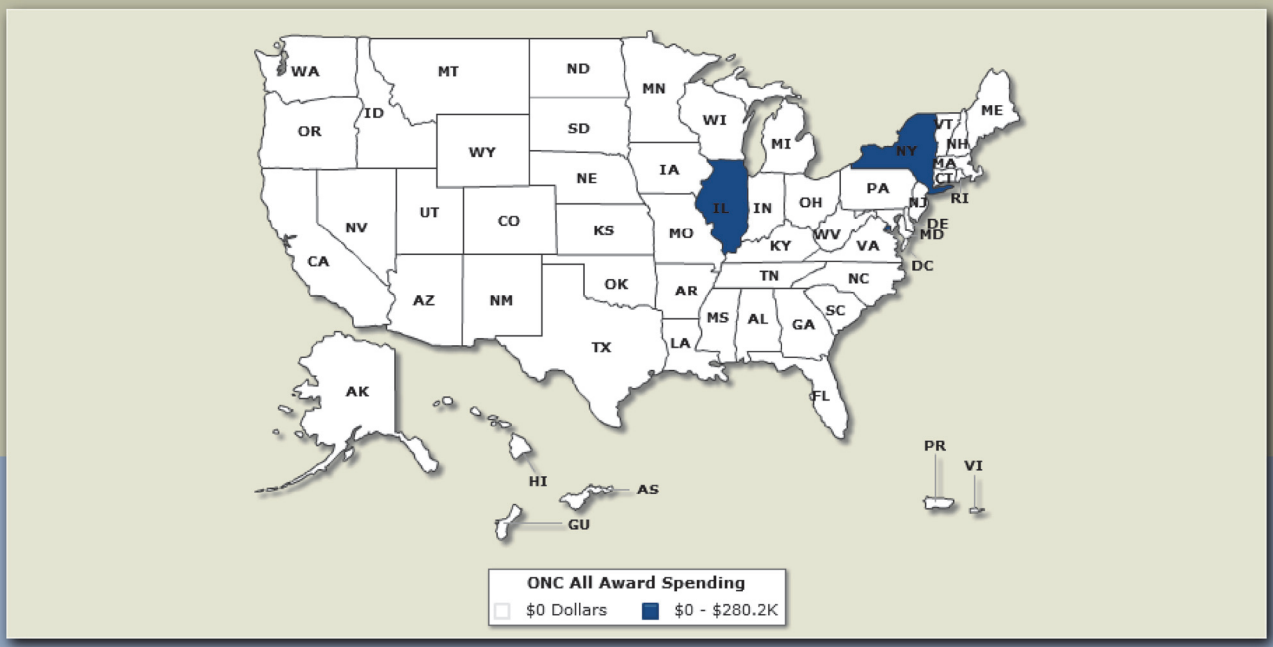
The majority of ONC's awards were issued in 2009 and 2010, with the number of awards and total award dollar amounts decreasing over time.





Awards by U.S. Location

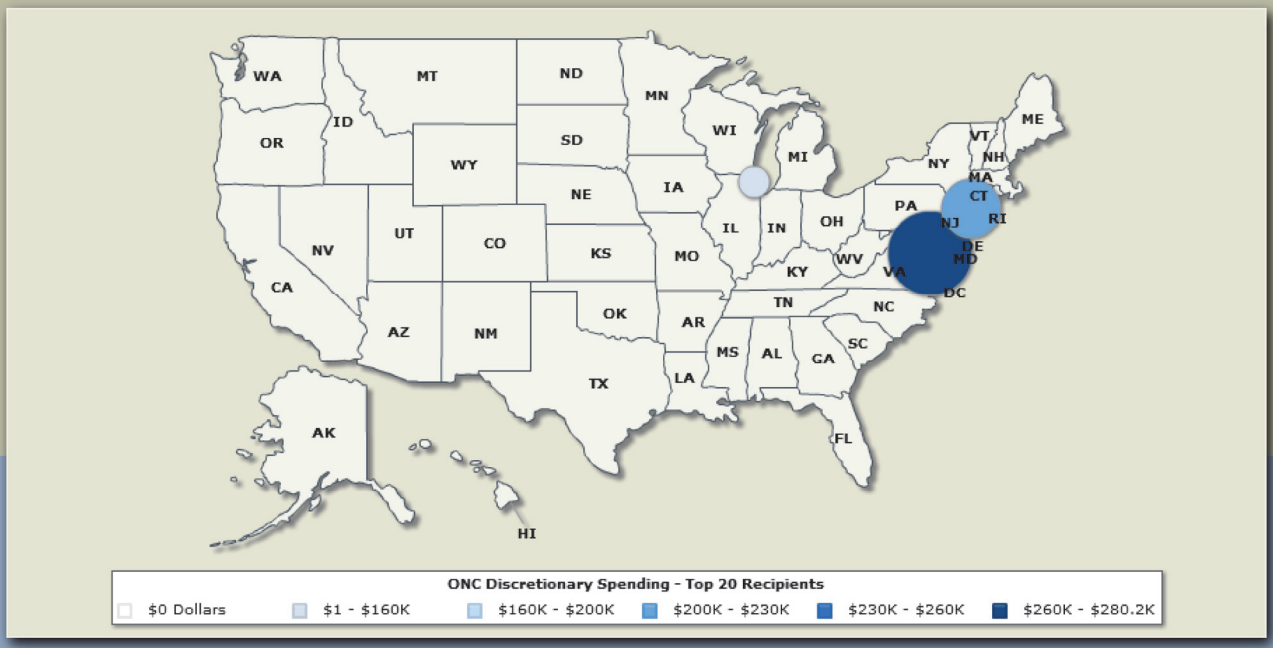
The map below shows ONC's total awards and award dollars granted by state for FY 2013.[1]



[1]Four of the eight territories that received grants from HHS agencies are shown in the above map. The additional territories will be added in the near future. See Appendix A for detailed award data for all eight territories.

Top 20 Award Recipients

The map below shows the top recipients of ONC awards ranked by dollar amount. The Annual Report's PDF (Appendix A) contains a table of this agency's top recipients.



Substance Abuse & Mental Health Services Administration

Pamela S. Hyde, J.D.
Administrator

Mission

It is SAMHSA's mission to reduce the impact of substance abuse and mental illness on America's communities

Photo courtesy of SAMHSA.

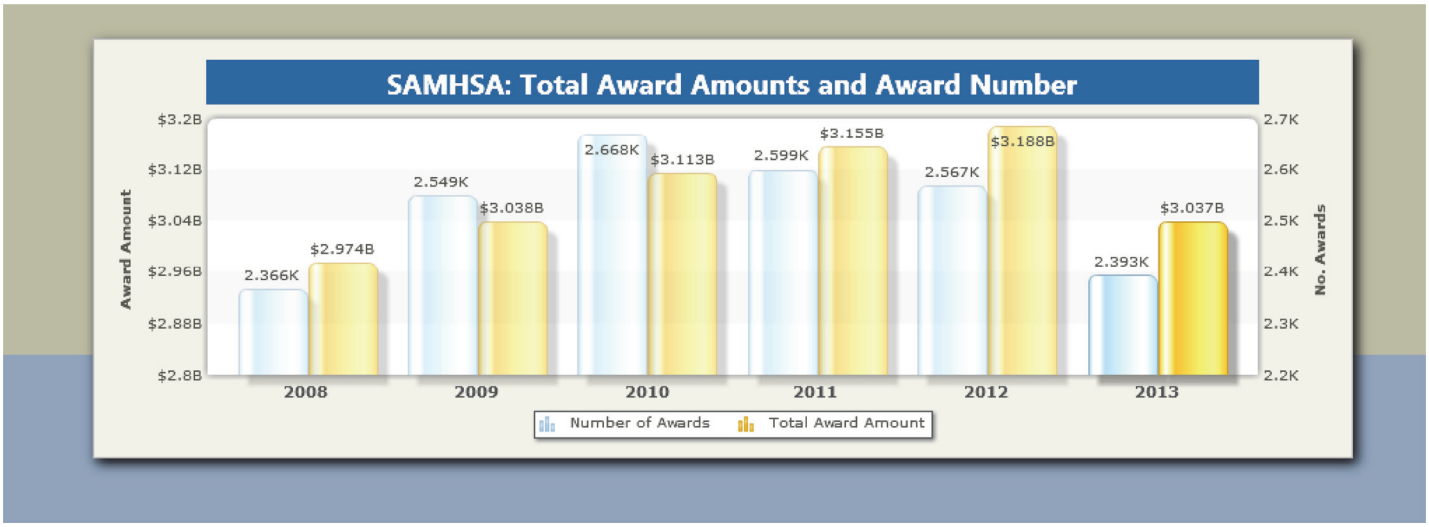
Organization

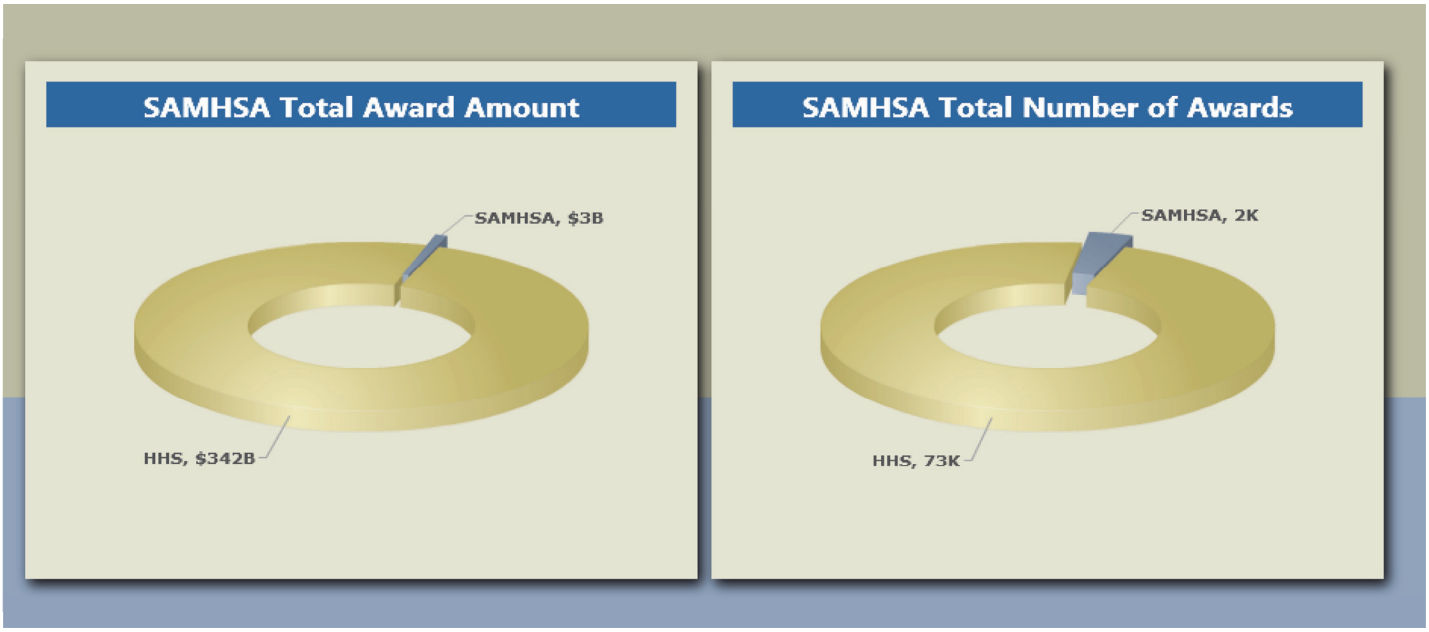
The Substance Abuse and Mental Health Services Administration (SAMHSA) is the agency within the U.S. Department of Health and Human Services that leads public health efforts to advance the behavioral health of the nation. SAMHSA's mission is to reduce the impact of substance abuse and mental illness on America's communities.

SAMHSA provides leadership and devotes its resources, including programs, policies, information and data, contracts and grants, to help the United States act on the knowledge that:

- Behavioral Health is essential for overall wellbeing
- Prevention works
- Treatment is effective
- People recover from mental and substance use disorders

SAMHSA supports programs, policy, and knowledge development about substance abuse prevention, addiction treatment, and mental health services. SAMHSA programs translate research to practice – bringing new science-based knowledge to community-based services for people with or at risk for mental and substance abuse disorders. SAMHSA will be at the forefront to promote a life in the community for everyone with or at risk for mental and substance abuse disorders and an opportunity for a fulfilling life that includes a job, a home, and meaningful relationships with family and friends.





Awards by U.S. Location

The map below shows SAMHSA's total awards and award dollars granted by state for FY 2013.[1]
