## Welcome to TAGGS

The mission of the U.S. Department of Health and Human Services (HHS) is to enhance the health and well-being of Americans by providing for effective health and human services and by fostering sound, sustained advances in the sciences underlying medicine, public health, and social services. In support of its mission, HHS manages hundreds of programs which awards approximately over 76,000 grants annually. Tracking and accounting for HHS grant spending and providing high quality data to the public and external stakeholders is critical to fulfilling HHS's mission and strategic goals.

## The Annual Report

This annual report reflects a summary of grants HHS awarded during Fiscal Year 2015 (October 1, 2014, through September 30, 2015). Grants are a legal instrument reflecting the relationship between the United States Government and a State, local government, or other entity when “the principal purpose of the relationship is to transfer a thing of value to the State or local government or other recipient to carry out a public purpose of support or stimulation authorized by a law of the United States instead of acquiring (by purchase, lease, or barter) property or services for the direct benefit or use of the United States Government” (31 U.S.C. §6304).

This report does not include information related to technical assistance, which provides services instead of money; other assistance in the form of loans, loan guarantees, interest subsidies, or insurance premiums; direct payments of any kind to individuals; or contracts, which are required to be entered into and administered under procurement laws and regulations.

## Executive Summary

### OUR YEAR

Improving the quality of the agency's financial assistance data, increasing transparency within federal programs, and data standardization remained high priorities for the HHS grants community in 2015. Internal work groups put forth significant effort throughout the year towards improving the timeliness, completeness and accuracy of financial assistance data reported to both TAGGS and USASpending.gov. The grants community has contributed greatly to the standardization of data elements and definitions for the Federal grants lifecycle and has participated in cross-governmental workgroups in support of Digital Accountability and Transparency Act (DATA Act) implementation. The grants community is fully engaged in HHS's Department-wide efforts to design a cohesive and coordinated strategy which leverages intellectual and financial resources and reduces the risk of duplicative efforts, and to ensure engagement and support of Operating Division (OPDIV) and Staff Division (STAFFDIV) stakeholders.

Now in its fourth year of production, the interactive Annual Report provides an open and transparent view of how HHS tracks and accounts for grant spending through the use of interactive maps and graphs. The online format allows greater accessibility of data to the public and provides tools to customize and display information, and download graphs and data digitally.

### TRACKING ACCOUNTABILITY IN GOVERNMENT GRANTS SYSTEM (TAGGS)

The Tracking Accountability in Government Grants System (TAGGS) is a robust reporting tool developed by the Office of Grants and Acquisition Policy and Accountability (OGAPA) in 1995. The TAGGS database is a central repository for grants awarded by the HHS OPDIVs, and STAFFDIVs. In addition to award data that is submitted twice a week by the OPDIVs, TAGGS also receives recipients' demographic information, and the grant program description information from the Catalog of Federal Domestic Assistance (CFDA) website.

HHS remains committed to increasing transparency of federal funds and to show where and how the money is spent. Through the TAGGS public website ([taggs.hhs.gov](http://taggs.hhs.gov)) potential and current grant recipients, other executive agencies, congressional offices, HHS staff, and other interested parties can access the site for a variety of informational purposes. Commonly searched data fields include: Congressional District, program name, recipient name, recipient location, awarding OPDIV, transaction amount and fiscal year.

The annual report data reflects award transactions made during FY 2015, and may not exactly correspond to the HHS FY 2015 budget and accounting records based on the following assumptions:

1. Award data may include de-obligations of prior years in addition to current year funds;
2. Costs of personnel in lieu of cash are recorded as personnel costs in accounting records; and
3. Joint agency programs are only recorded if they originated at HHS.

The dollar amounts and percentages reflected in this report may also differ from the totals shown in each OPDIV's Budget Request due to rounding and other minor adjustments.

## FY 2015 GRANT AWARDS AND AWARD DOLLARS

Total Grant Awards by HHS Agencies

OPDIV	Awards	% Awards	Dollars (Millions)	% Dollars
ACF	7,557	9.88	\$50,039.00	12.19
ACL	3,059	4.00	\$2,016.00	0.49
AHRQ	518	0.68	\$211.97	0.05
CDC	3,557	4.65	\$5,629.00	1.37
CMS/CCIIO	1,371	1.79	\$315,584.00	76.87
FDA	545	0.71	\$152.11	0.04
HRSA	6,237	8.16	\$8,775.00	2.14
IHS	910	1.19	\$2,330.00	0.57
NIH	49,496	64.73	\$21,966.00	5.35
SAMHSA	2,509	3.28	\$3,229.00	0.79
OS/ASPE	3	0.00	\$2.73	0.00
OS/ASPR	113	0.15	\$218.53	0.05
OS/OASH	524	0.69	\$409.82	0.10
OS/OGA	6	0.01	\$1.26	0.00
OS/ONC	59	0.08	\$-36.54	-0.01
<b>Total</b>	<b>76,464</b>	<b>100.00</b>	<b>\$410,527.88</b>	<b>100.00</b>

*Note: ATSDR awards do not appear separately in the above table; they are grouped under CDC. HHS OPDIVs and STAFFDIVs that do not issue grants are omitted from the table.*

## GRANT HIGHLIGHTS FOR FY 2015

- HHS awarded approximately 76,474 grants.
- 88% of HHS’s grant funds were allocated to entitlement (block, closed-ended and open-ended) grants.
- Universities and colleges represented 38 of the top 50 HHS discretionary grant recipients.
- The six states receiving the most HHS grant funds were California, New York, Texas, Pennsylvania, Ohio and Florida.
- The Centers for Medicare and Medicaid (CMS) awarded nearly 77% of all HHS grant dollars.
- The National Institutes of Health (NIH) awarded nearly 65% of all HHS grants.

## FUNDING HIGHLIGHTS FOR 2015

**HHS awards \$2.2 billion in grants for HIV/AIDS care and medications** – The U.S. Department of Health and Human Services announced more than \$2.2 billion in Ryan White HIV/AIDS Program grants was awarded in fiscal year (FY) 2015 to cities, states and local community-based organizations. This funding supports a coordinated and comprehensive system of care to ensure that more than half a million people living with and affected by HIV in the United States continue to have access to critical HIV health care, support services, and essential medications. The Health Resources and Services Administration (HRSA), an agency within HHS, oversees the Ryan White HIV/AIDS Program, which provides a dynamic array of care and treatment services that facilitate and maximize positive health outcomes as part of a public health-oriented response to HIV in the United States. Grant awards in FY 2015 also support cities, states, and communities to achieve the goals of the **National HIV/AIDS Strategy: Updated to 2020**, which was released in summer 2015. These include efforts to reduce new HIV infections, increase access to HIV care and improve health outcomes for people living with HIV infection, and reduce HIV-related disparities and health inequities. In addition, the updated Strategy cites the Ryan White HIV/AIDS Program as a critical source of lifesaving care and treatment for those living with HIV.

**HHS awards up to \$22.9 million in Planning Grants for Certified Community Behavioral Health Clinics** - The Substance Abuse and Mental Health Services Administration (SAMHSA), in conjunction with the Centers for Medicare & Medicaid Services (CMS) and the Assistant Secretary of Planning and Evaluation (ASPE), awarded a total of \$22.9 million to support states throughout the nation in their efforts to improve behavioral health of their citizens by providing community-based mental and substance use disorder treatment. Authorized under Section 223 of the Protecting Access to Medicare Act of 2014, the planning grants are part of a comprehensive effort to integrate behavioral health with physical health care, utilize evidence based practices on a more consistent basis, and improve access to high quality care. The planning grants will be used to support states to certify community behavioral health clinics, solicit input from stakeholders, establish prospective payment systems for demonstration reimbursable services, and prepare an application to participate in the demonstration program.

**ACF and IHS award \$21 million to support Tribal family violence victims and organizations** - The U.S. Department of Health and Human Services Administration for Children and Families (ACF) and Indian Health Service (IHS) announced the award of nearly \$21 million to support tribal domestic violence victims and organizations in American Indian and Alaska Native communities across the nation. ACF funding announced today is being awarded under the Family Violence Prevention and Services Act (FVPSA), which is the primary federal funding source dedicated to providing immediate shelter and supportive services for victims of family violence, domestic violence, or dating violence and their dependents. Grants will be awarded to 136 tribes and tribal organizations serving 274 tribes. These funds will help to strengthen tribal responses to domestic violence and emphasize public awareness, advocacy, and policy, training, and technical assistance. IHS funding will be awarded to 56 projects to increase access to health services and build the capacity of American Indian and Alaska Native communities to provide prevention, intervention, and treatment services to American Indians and Alaska Natives who have experienced domestic or sexual violence. Funding will go to tribes, tribal organizations, urban Indian organizations, and IHS federal government programs.

**Grants aim to reduce opioid overdoses in rural communities** – The U.S. Department of Health and Human Services announced \$1.8 million to support rural communities in reducing morbidity and mortality related to opioid overdoses. The Rural Opioid Overdose Reversal (ROOR) Grant Program supports the purchase and placement of naloxone (a drug that reverses symptoms of a drug overdose), and training for its use by licensed healthcare professionals and emergency responders in rural areas. According to the Centers for Disease Control and Prevention (CDC), the effects of prescription opioid abuse are more prominent in rural communities. In 2013, drug overdose rates for deaths involving prescription opioids were higher in rural counties compared to urban counties. The pilot program, developed by HHS' Federal Office of Rural Health Policy at the Health Resources and Services Administration (HRSA), will support partnerships formed at the local level to coordinate care. As a primary requirement of the grant, each awardee must be part of a rural partnership comprising two or more organizations representing local emergency responders, health facilities, academic organizations, fire departments, law enforcement, and other non-profit or for-profit entities involved in the prevention and treatment of opioid overdoses. The partnerships will collaborate to increase the availability and use of naloxone in rural communities with emphasis on the importance of referring those with an opioid use disorder to an appropriate substance use disorder treatment center. Each of the 18 recipients, representing 13 states, will be awarded \$100,000 over one year.

**HHS awards Teen Pregnancy Prevention Program grants** – The U.S. Department of Health and Human Services Office of Adolescent Health (OAH) announced more than \$86 million in teen pregnancy prevention grants to non-profit organizations, school districts, universities, and others. The 81 new grants are expected to serve more than 291,000 youth each year in communities where teen birth rates remain high. The OAH grants support replication of evidence-based teen pregnancy prevention programs in communities with the greatest need; increase capacity in communities to serve vulnerable youth, including homeless youth, parenting youth and those in juvenile detention and foster care; fill gaps in the knowledge of what works to prevent teen pregnancy; and test new, innovative approaches to combating teen pregnancy. These awards provide the first year of funding for a five-year grant period.

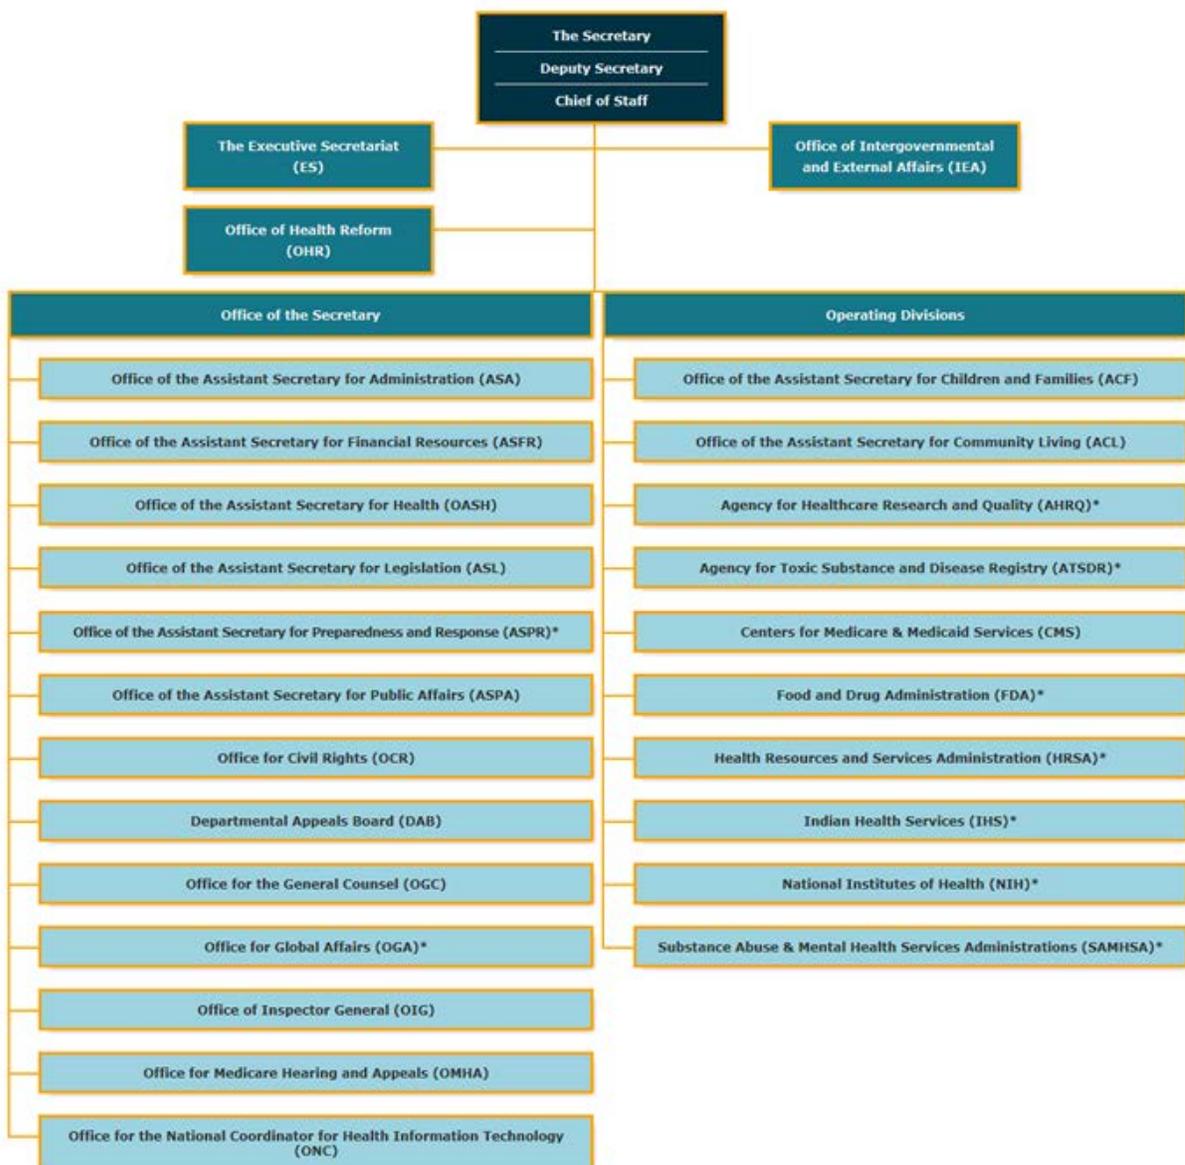

**HHS awards \$386 million to support families through the home visiting program** – The U.S. Department of Health and Human Services announced \$386 million in grant awards to states, territories, and nonprofit organizations to support the Maternal, Infant, and Early Childhood Home Visiting Program (Home Visiting Program). These funds will allow states to continue to expand voluntary, evidence-based home visiting services to women during pregnancy and to parents with young children. The Home Visiting Program currently serves approximately one-third of the counties in the country with high rates of the following indicators: low birth weight, teen birth rate, living in poverty and infant mortality rates. More than 1.4 million home visits have been conducted through the national Home Visiting Program, serving parents and children in 721 counties in all 50 states, the District of Columbia, and five territories. In 2014, the Home Visiting Program served 115,000 parents and children. Nearly 80 percent of families participating in the program had household incomes at or below the 100 percent of the Federal Poverty Level. Administered by HRSA, in close partnership with the Administration for Children and Families, the Home Visiting Program is one part of President Obama’s Early Learning Initiative that focuses on both high-quality infant and toddler care through Early Head Start-Child Care Partnerships and universal Pre-K to improve the essential foundations in early childhood for future healthy development and well-being.

## HHS 2015 Organization

HHS is comprised of OPDIVs and STAFFDIVs, each with its own unique mission. The organization chart below presents the overall structure of HHS during FY 2015. The OPDIVs/STAFFDIVs are responsible for administering and managing approximately 522 grant programs which are described in the Catalog of Federal Domestic Assistance (CFDA).

Note that in this report, Agency for Toxic Substances and Disease Registry awards are included in the Centers for Disease Control and Prevention grant funding data.

### HHS 2015 Organization

\*Components of the Public Health Service

#Administratively-supported by the Office of the Assistant Secretary for Health

## HHS Awards Overview

### FORMULA/BLOCK & ENTITLEMENT, DISCRETIONARY GRANTS AND COOPERATIVE AGREEMENTS

In FY 2015, the Department of Health and Human Services administered more grant dollars than all other federal agencies combined. HHS awards formula/block, entitlement, discretionary grant awards and cooperative agreements. HHS awarded approximately \$411 billion in grants for FY 2015. This included \$50 billion in discretionary awards and \$361 billion in formula/block and entitlement awards.

CMS, which administers the Medicare and Medicaid Programs, awarded 77%, or \$316 billion of the total HHS grants fund; however, these awards are less than 2% of the total number of grants awarded by HHS.

ACF had the second highest percentage of total HHS grant funds awarded at over 12%, or \$50 billion. This represented about 10% of the total number of grants awarded. NIH, which awarded about 5%, or \$22 billion, of the total HHS grant funds, accounted for 65% of the total number of HHS grants.

### HHS AWARD HISTORY

The Total Award Amounts and Award Number chart shows the number of awards in thousands and the amount of award dollars in billions that HHS granted during the last 5 fiscal years. The number of awards is shown in the blue bars. The award dollars are represented as gold bars. Data for the current fiscal year, at the far right of the chart, are depicted in brighter colors.

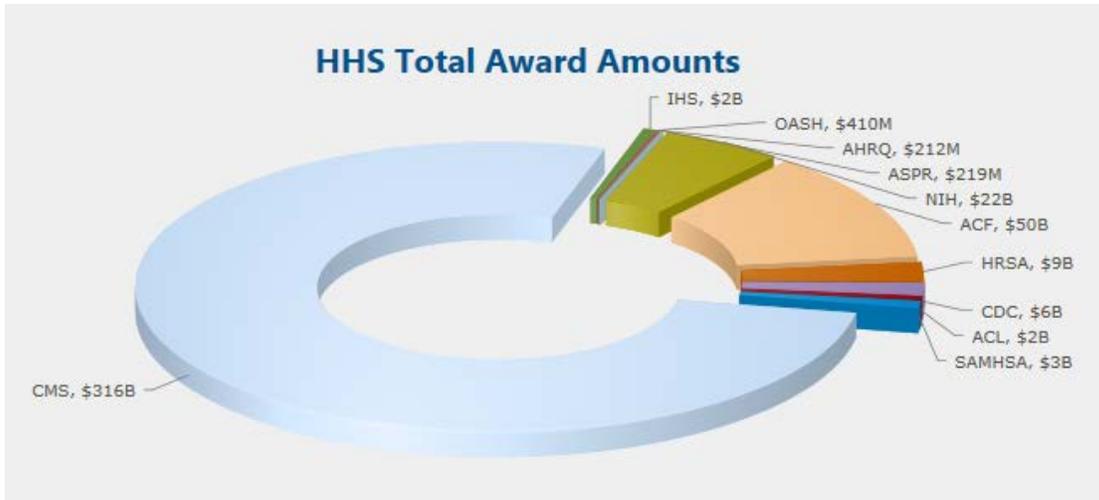

### HHS TOTAL AWARDS

The two pie charts on the next page contrast OPDIVs that spent the largest amount of FY 2015 grant funds against those OPDIVs awarding the largest number of FY 2015 grant awards.

As illustrated in the Total Award Amounts pie chart, CMS far exceeded all other OPDIVs in terms of grant dollars spent. In contrast, the Total Number of Awards pie chart indicates that NIH had the lion's share of the number of grants awarded in FY 2015, followed by ACF and HRSA.

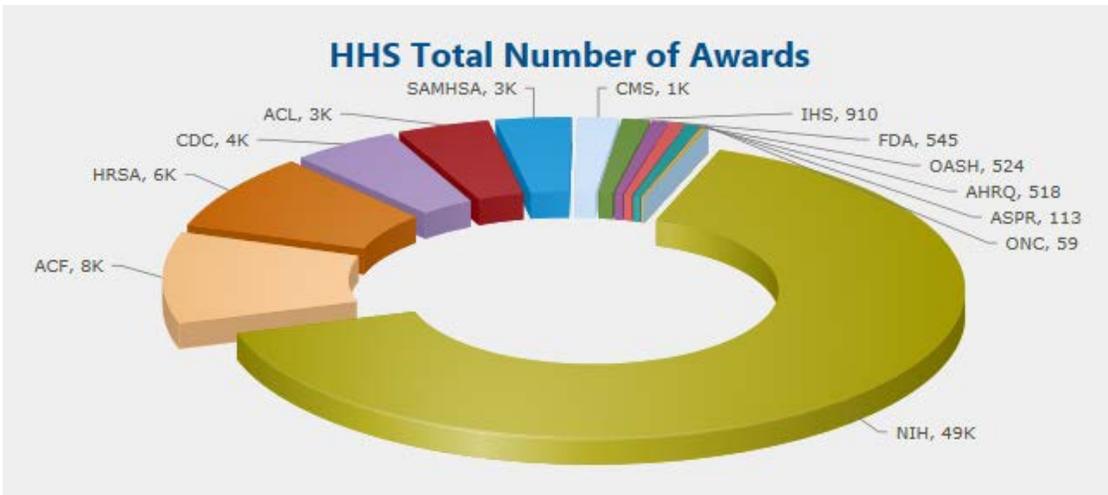

**Total Award Amounts**

The Total Award Amounts pie chart compares the award dollars that each awarding agency made during FY 2015.

**Total Number of Awards**

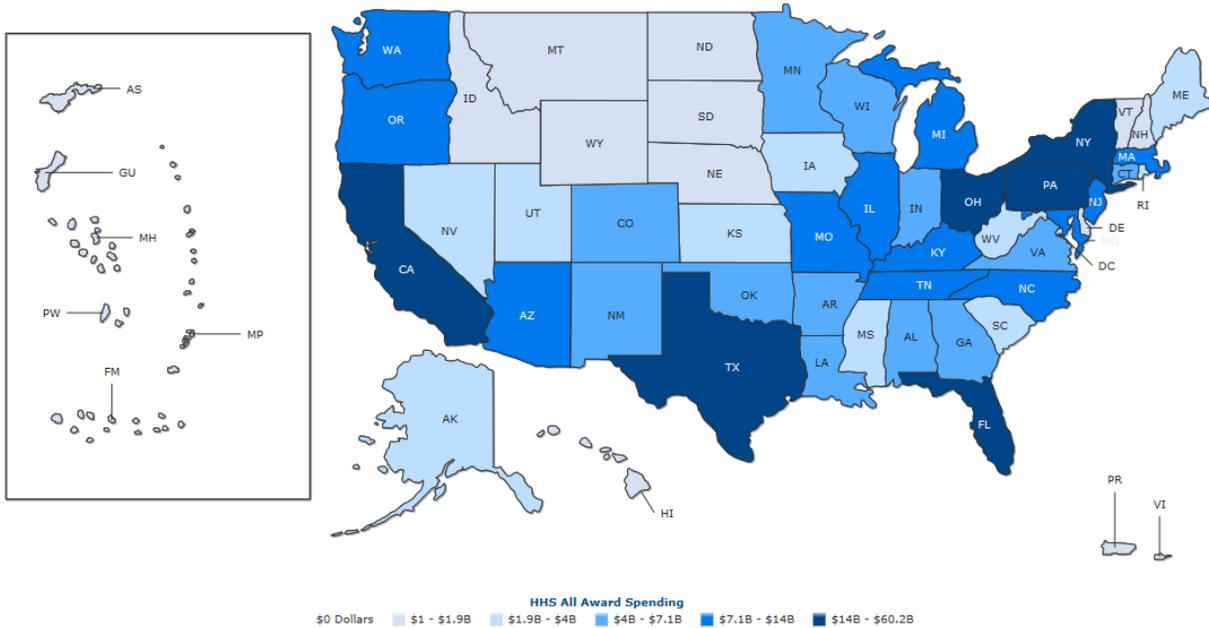

The Total Number of Awards pie chart compares the number of awards that each awarding agency made during FY 2015.

**AWARDS BY U.S. LOCATION**

The U.S. map below shows the total award dollars that HHS granted by state for FY 2015, including U.S. Territories. Darker colors indicate higher dollar amounts (see legend).

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

## HHS Discretionary Awards

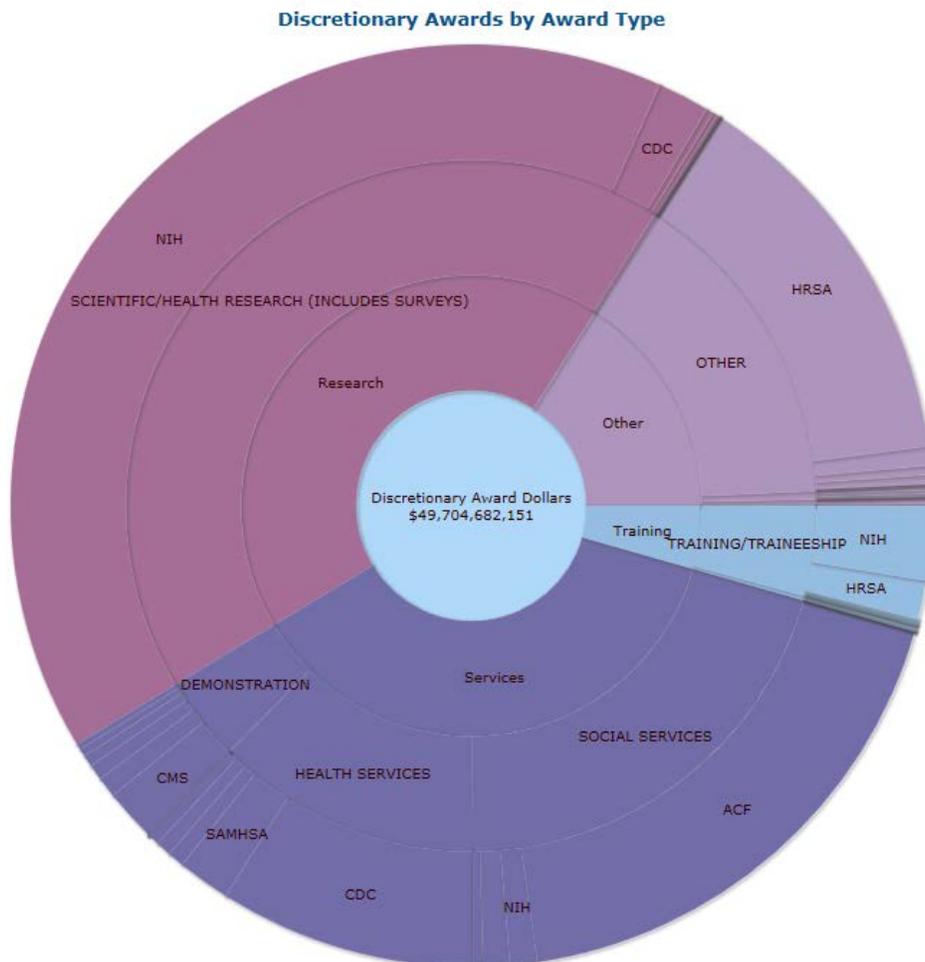

### DISCRETIONARY AWARD TYPES

Discretionary grants are those that permit the Federal Government, according to specific authorizing legislation, to exercise judgment, or “discretion” in selecting the applicant/recipient organization, through a competitive grant process.

Discretionary grants commonly support activities such as demonstration, research, training, service, and construction projects or programs. Discretionary grants are sometimes referred to by the CFDA term “Project Grants.”

Based on the HHS mission, grant program descriptions, and the CFDA guidelines, the TAGGS system uses 16 activity types to characterize the nature of the grant being funded. For the purpose of this report, these 16 have been grouped into four major activity types (Research, Services, Training, and Other). HHS OPDIVs self-select the activity type for awards based on the primary purpose of the grant.

The chart below shows the number of awards and award dollars that HHS agencies granted, organized by the four Major Activity Types – Research, Services, Training, and Other. The chart contains rings, with summary data shown at the center.

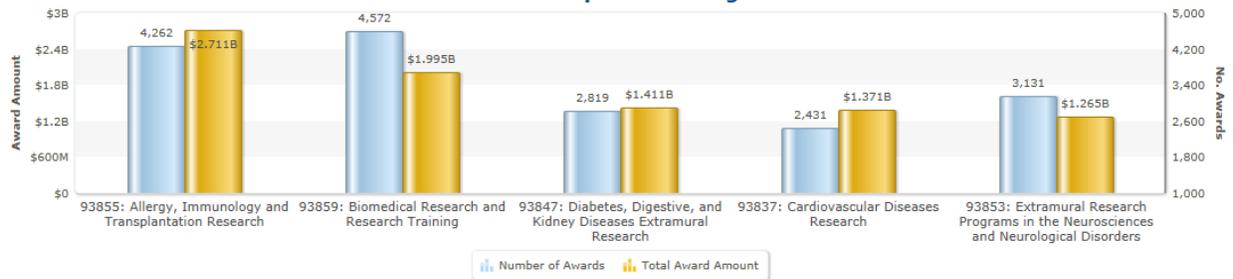

## Top 5 Discretionary Grant Programs for Research, Services, Training, and Other Activities

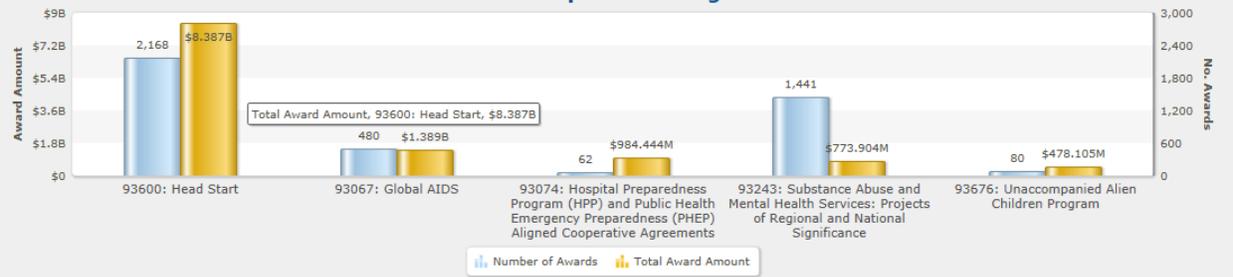

Grant awards are classified by a 5-digit CFDA program number and program name. These CFDA awards are organized into major activity types: Research, Services, Training, and Other<sup>1</sup> Activities.

The bar charts below show the Top 5 CFDA awards for each major activity type. The number of awards in thousands is shown in the blue bars. The award dollars in billions are represented as gold bars, with the largest shown at the left of the chart. The CFDA number and program name are shown at the bottom of each set of bars.

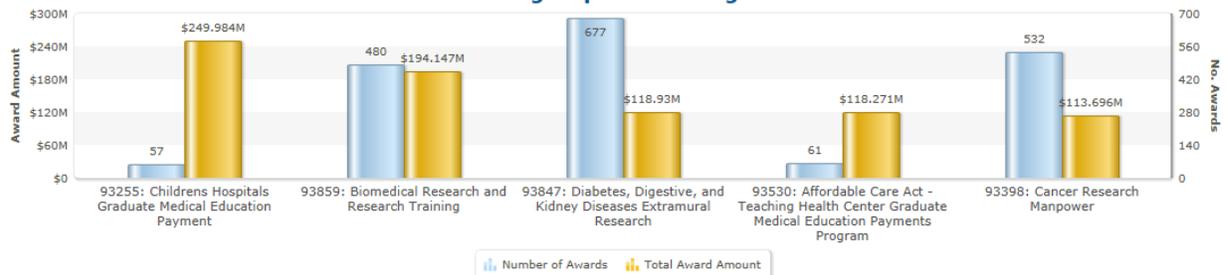

**Research: Top 5 CFDA Programs**

**Service: Top 5 CFDA Programs**

**Training: Top 5 CFDA Programs**

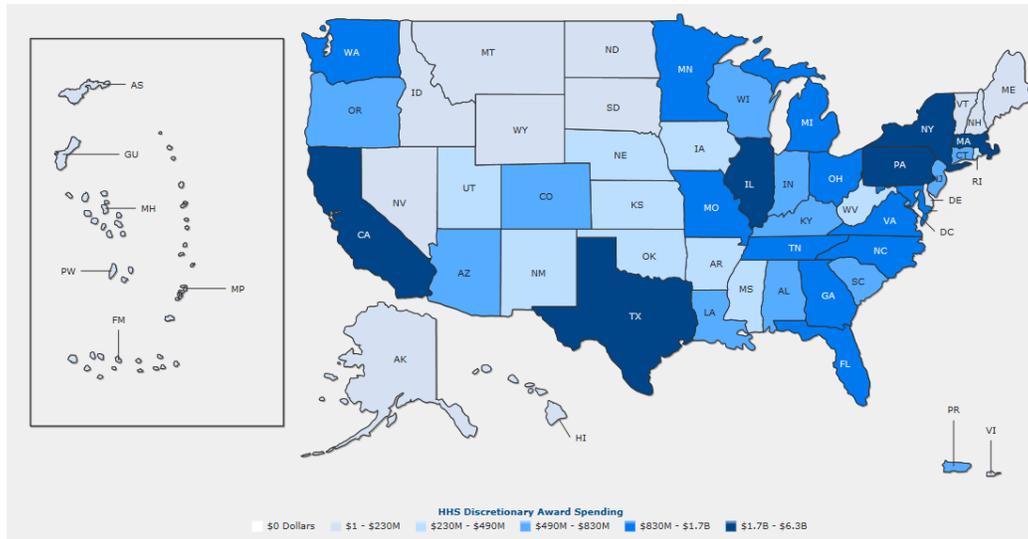

<sup>1</sup>“Other” programs include construction projects; grants for the planning and development of health programs and health resources; evaluations; and health infrastructure awards.

## Discretionary Awards By U.S. Location

The U.S. map below shows the total discretionary award dollars that HHS granted by state for FY 2015, including U.S. Territories. Darker colors indicate higher dollar amounts (see legend).

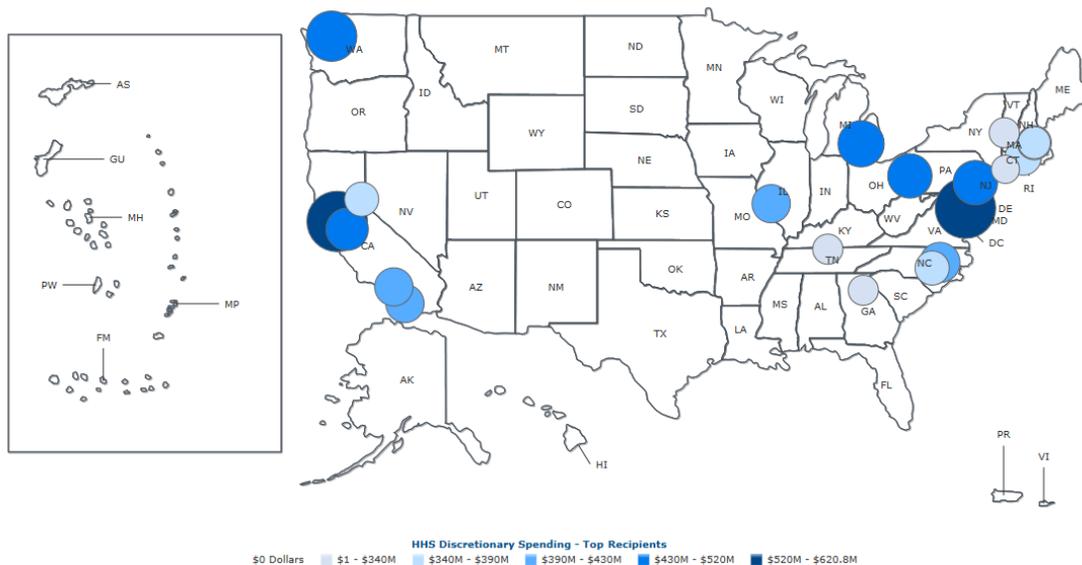

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

## TOP DISCRETIONARY AWARD RECIPIENTS<sup>1</sup>

The map below uses a range of blue circles to show the top national recipients of HHS discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend). States without a circle did not have a recipient in the list.

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

<sup>1</sup>Within this report, the recipient's location is determined by their legal business address, which does not necessarily reflect the location where the performance occurred.

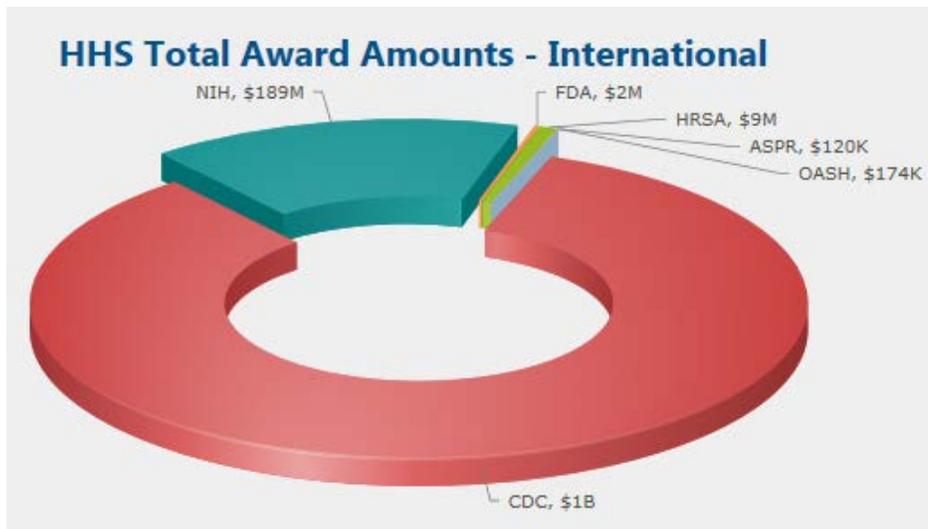

**TOTAL REGIONAL AND INTERNATIONAL AWARD AMOUNTS**

HHS agencies have a long history of granting awards to international recipients, in support of a wide variety of healthcare and humanitarian efforts. These include genetic and immunological research, disease prevention, human development, and bolstering public health.

The two pie charts on this page contrast OPDIVs that spent the largest amount of FY 2015 international grant funds against those OPDIVs awarding the largest number of FY 2015 international grant awards.

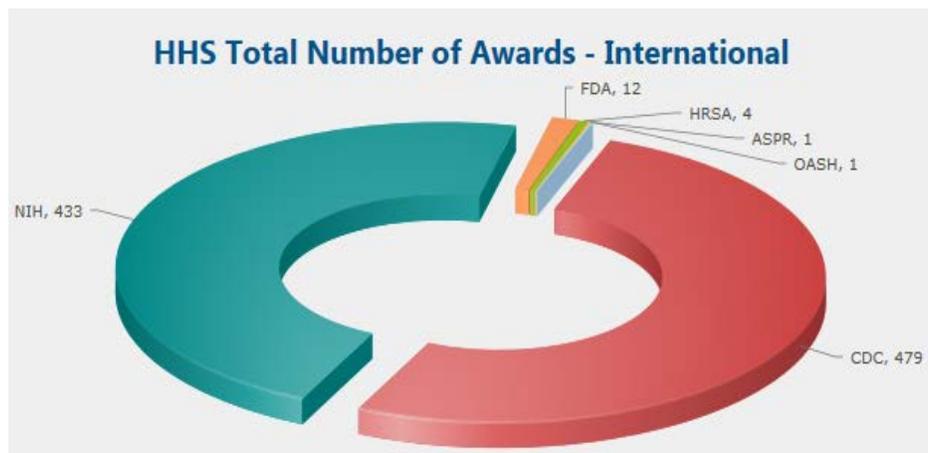

**Total Award International Amounts**

The Total Award Amounts pie chart compares the award dollars that each awarding agency made to international recipients during FY 2015.

**Total Number of International Awards**

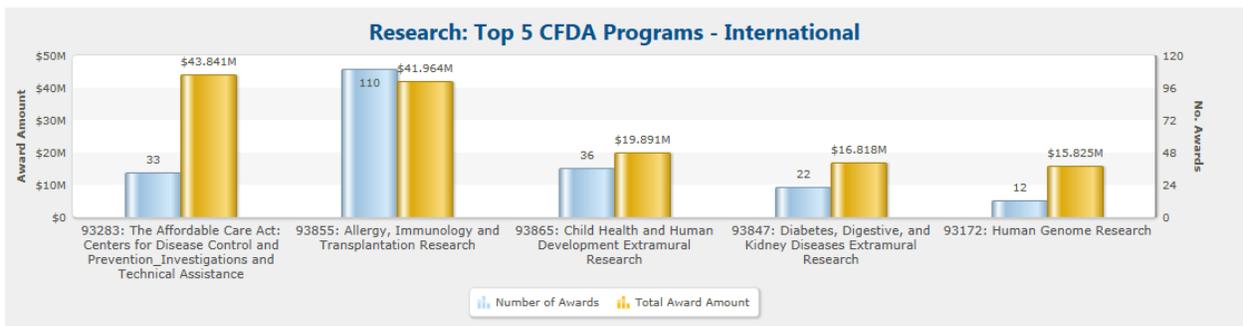

The Total Number of Awards interactive pie chart compares the number of awards that each awarding agency made to international recipients during FY 2015.

## Top 5 International Discretionary Grant Programs for Research, Services, Training, and Other Activities

Grant awards are classified by a 5-digit CFDA program number and program name. These CFDA awards are organized into major activity types: Research, Services, Training, and Other<sup>1</sup> Activities.

The bar charts below show the Top 5 CFDA awards for each major activity type. The number of awards in thousands is shown in the blue bars. The award dollars in billions are represented as gold bars, with the largest shown at the left of the chart. The CFDA number and program name are shown at the bottom of each set of bars.

### Other: Top 5 CFDA Programs - International

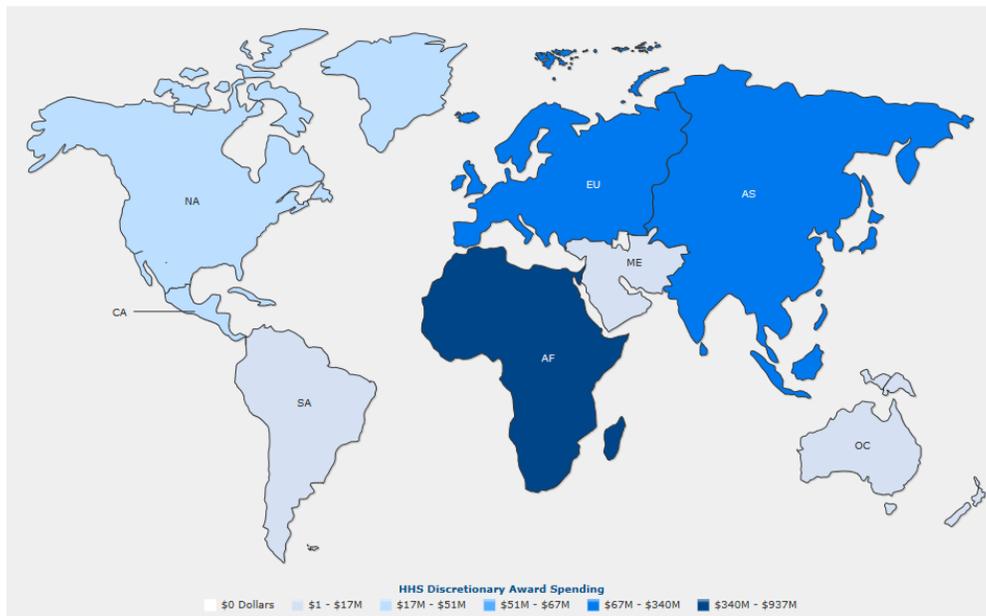

<sup>1</sup>“Other” programs include construction projects; grants for the planning and development of health programs and health resources; evaluations; and health infrastructure awards.

## HHS Discretionary Awards Regional and International Recipients

In FY 2015 HHS made discretionary awards to regional<sup>1</sup> and international recipients. Data for the Regional and International Award Recipients are presented in Appendix B to this report.

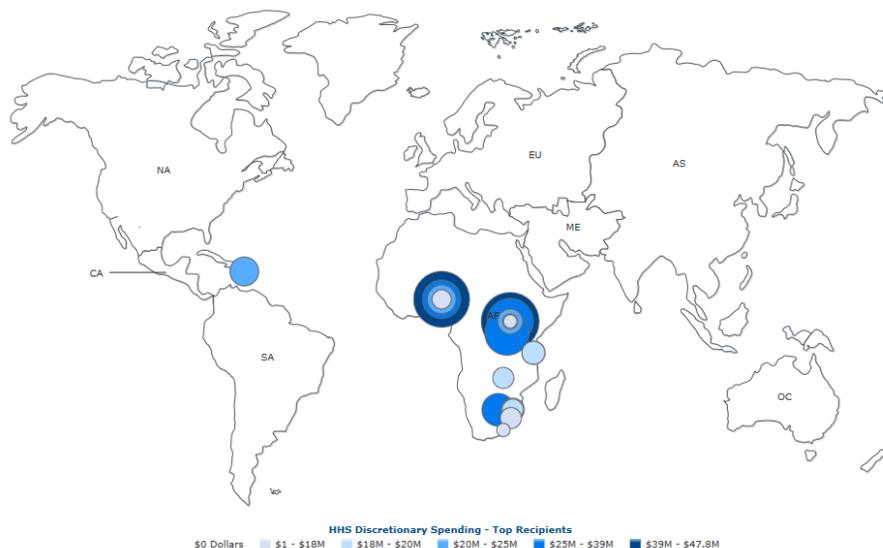

The world map below uses a range of blue colors to show HHS discretionary award spending by continent. Darker colors indicate higher dollar amounts (see legend).

<sup>1</sup>Regional is defined as an external piece of land or area in a subordinate location, that is governed by a country but that is not a state or province.

## HHS TOP INTERNATIONAL DISCRETIONARY AWARD RECIPIENTS

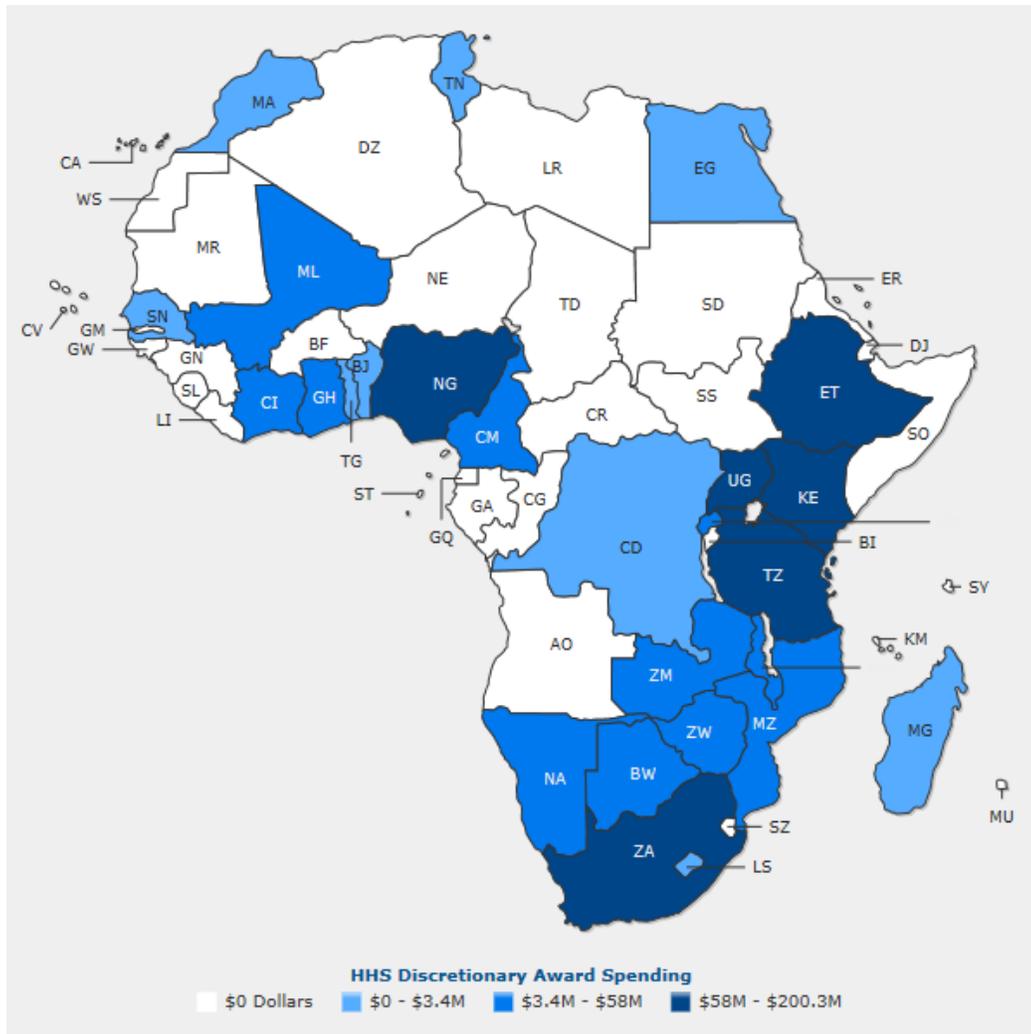

The world map below uses a range of blue-colored circles to show the top international recipients of HHS discretionary awards are ranked by dollar amount<sup>1</sup>. Larger, darker circles indicate higher rank and amount (see legend).

<sup>1</sup>U.S. award dollars have been excluded from North America's region.

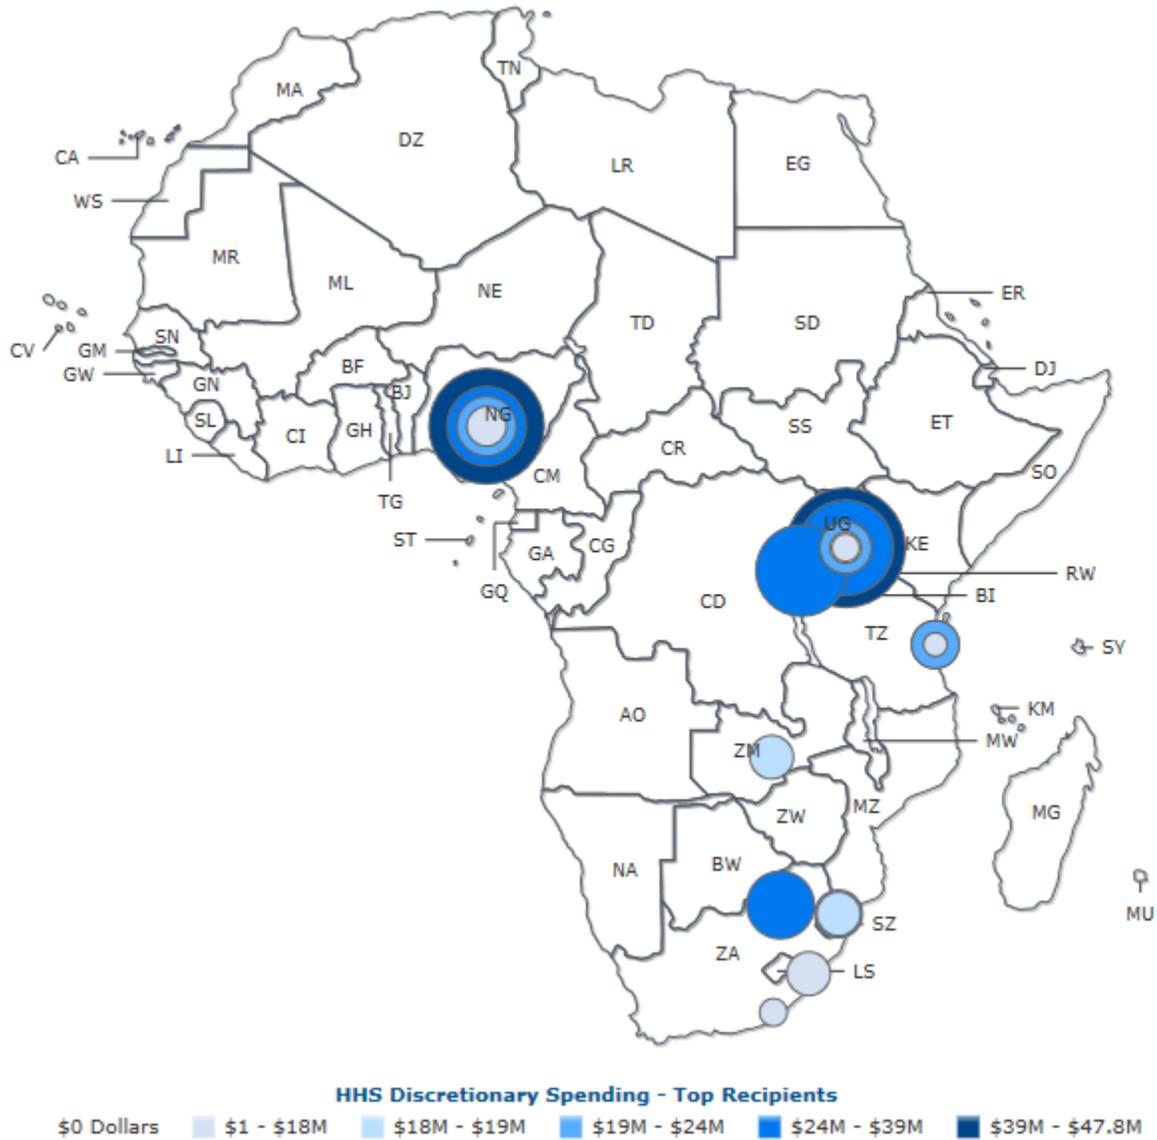

**DISCRETIONARY AWARDS TO AFRICAN COUNTRIES**

The map below uses a range of blue colors to show the total discretionary award dollars HHS granted to African nations in FY 2015. Darker colors indicate higher dollar amounts (see legend).

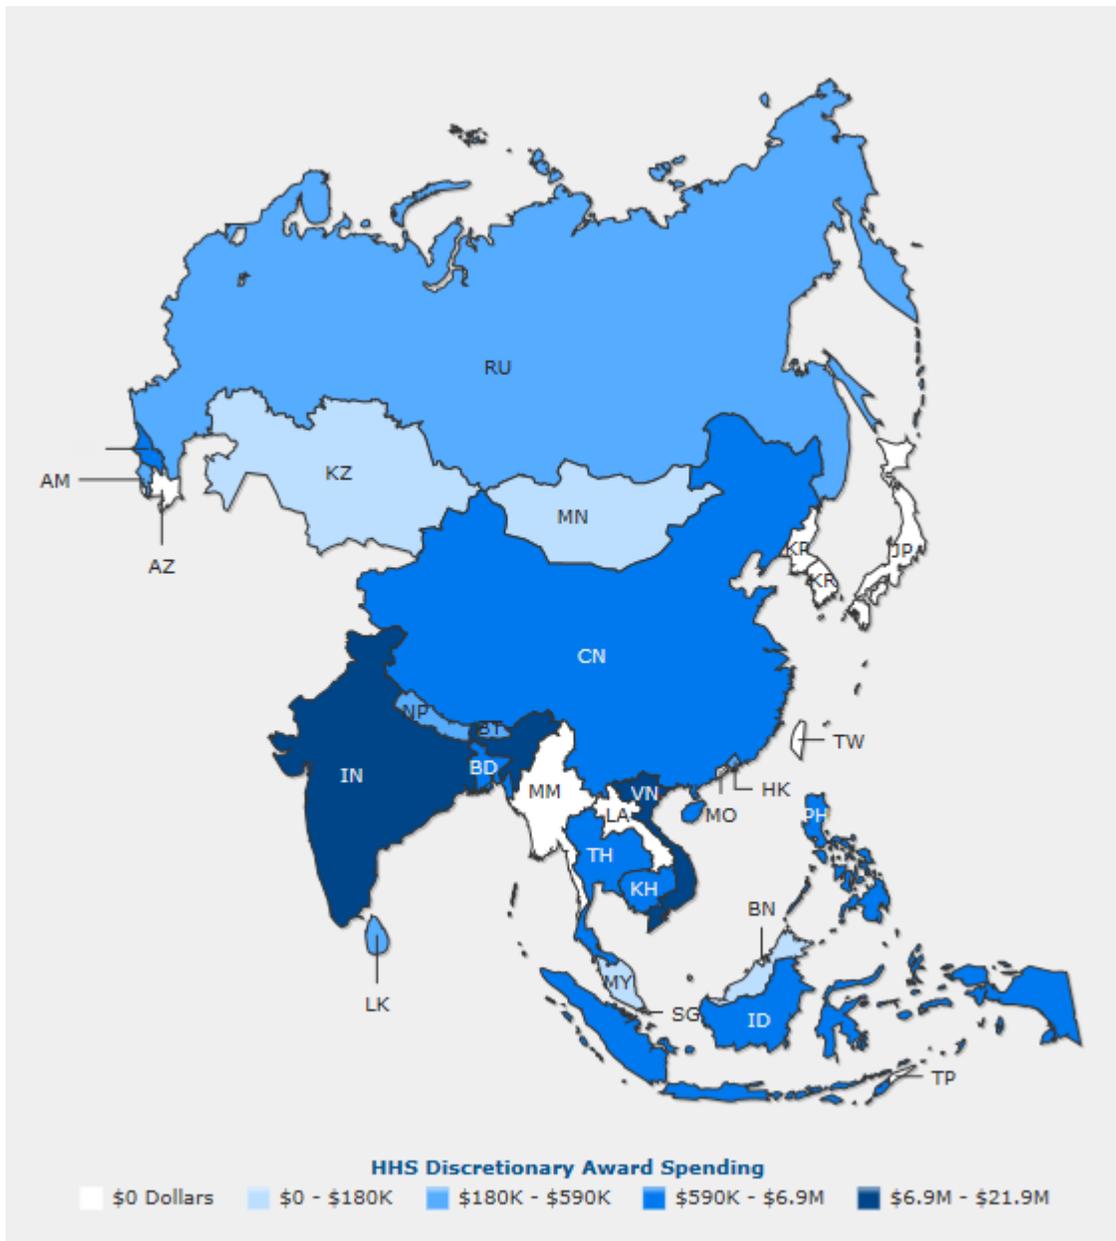

**TOP DISCRETIONARY AWARDS TO AFRICAN COUNTRIES**

The map below uses a range of blue-colored circles to show the top discretionary award recipients HHS granted to African nations in FY 2015. Discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend).

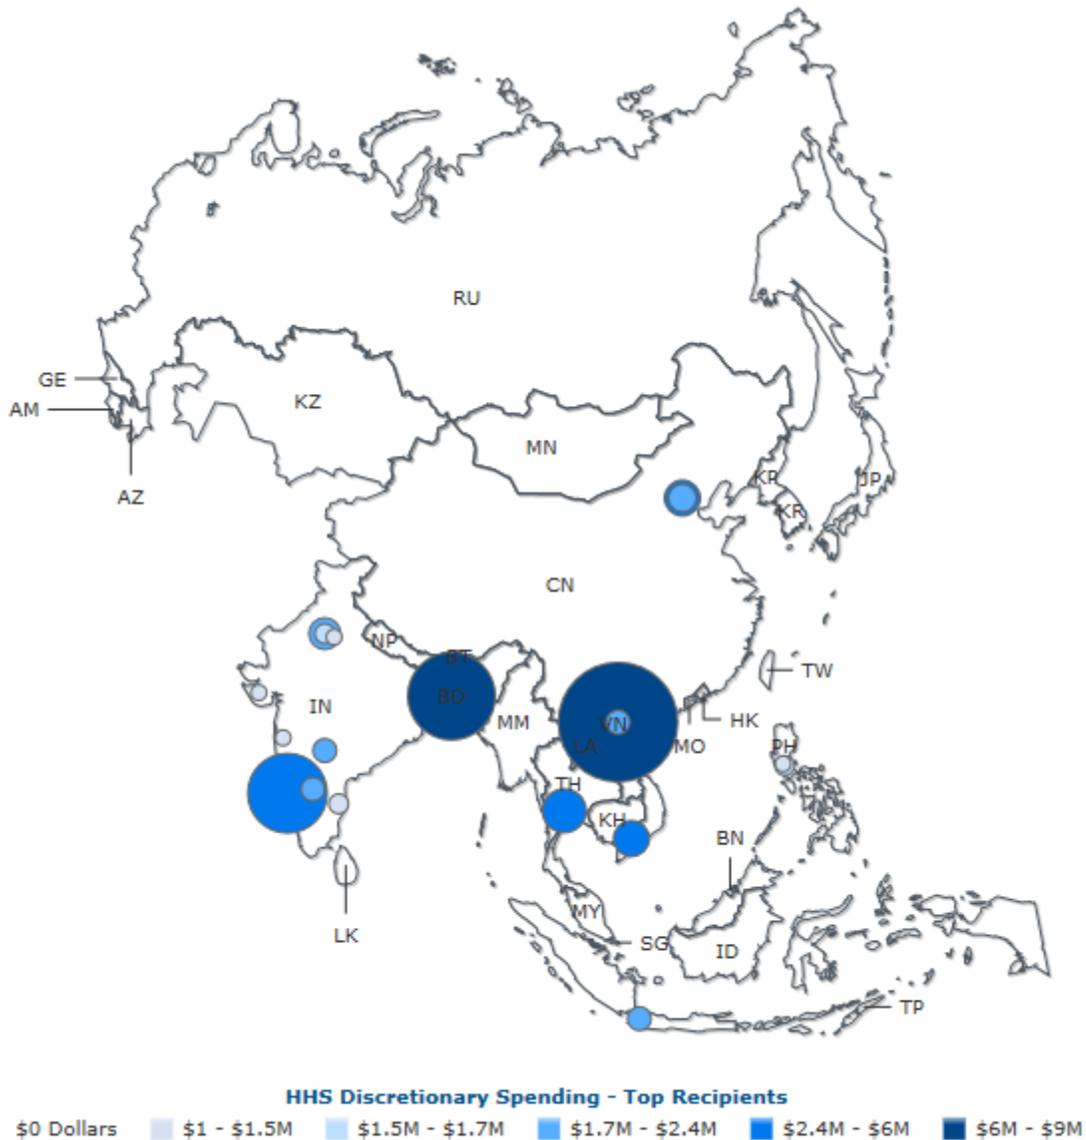

**DISCRETIONARY AWARDS TO ASIAN COUNTRIES**

The map below uses a range of blue colors to show the total discretionary award dollars HHS granted to Asian nations in FY 2015. Darker colors indicate higher dollar amounts (see legend).

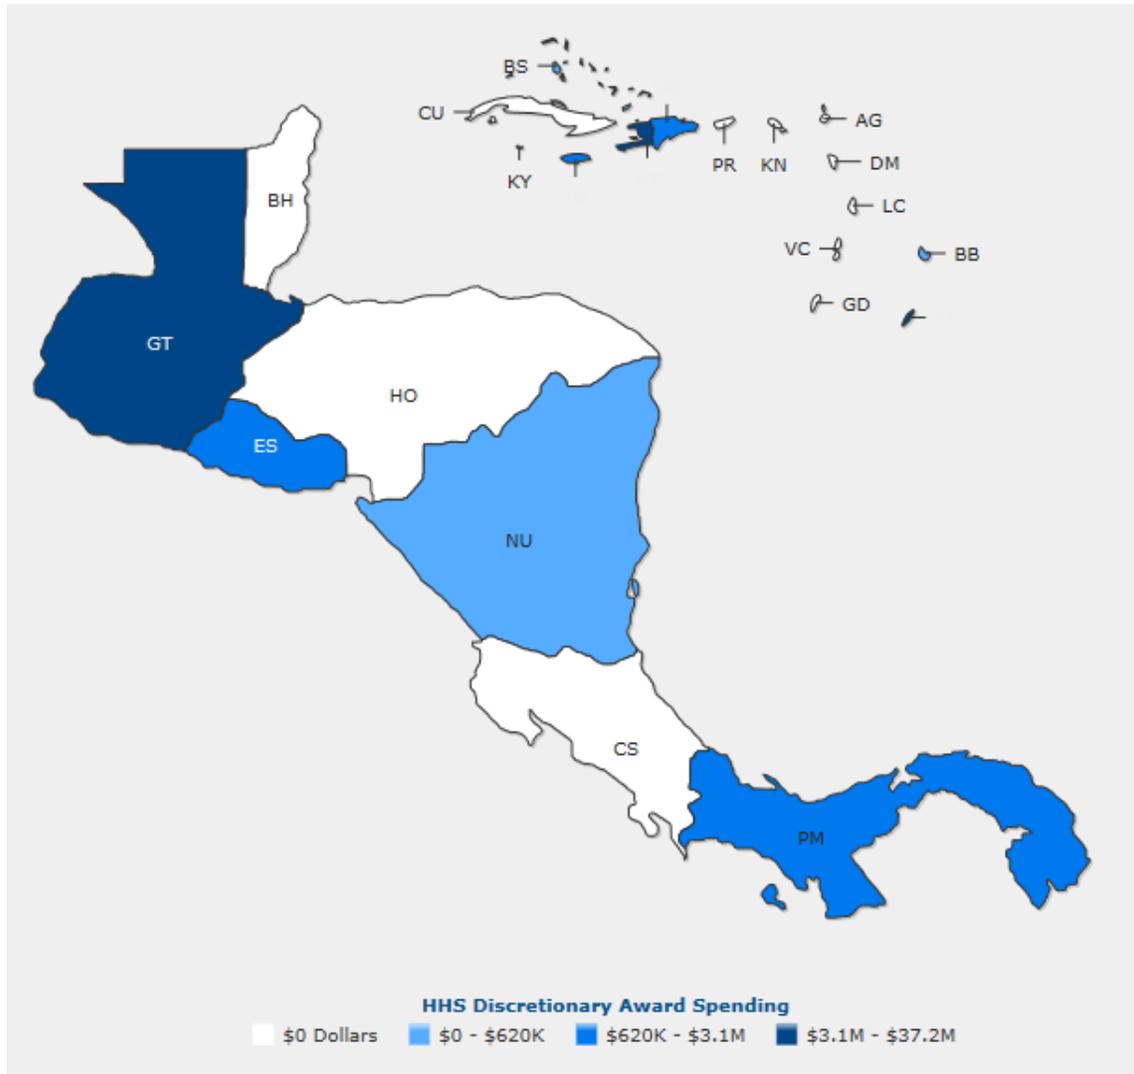

**TOP DISCRETIONARY AWARDS TO ASIAN COUNTRIES**

The map below uses a range of blue-colored circles to show the top discretionary award recipients HHS granted to Asian nations in FY 2015. Discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend).

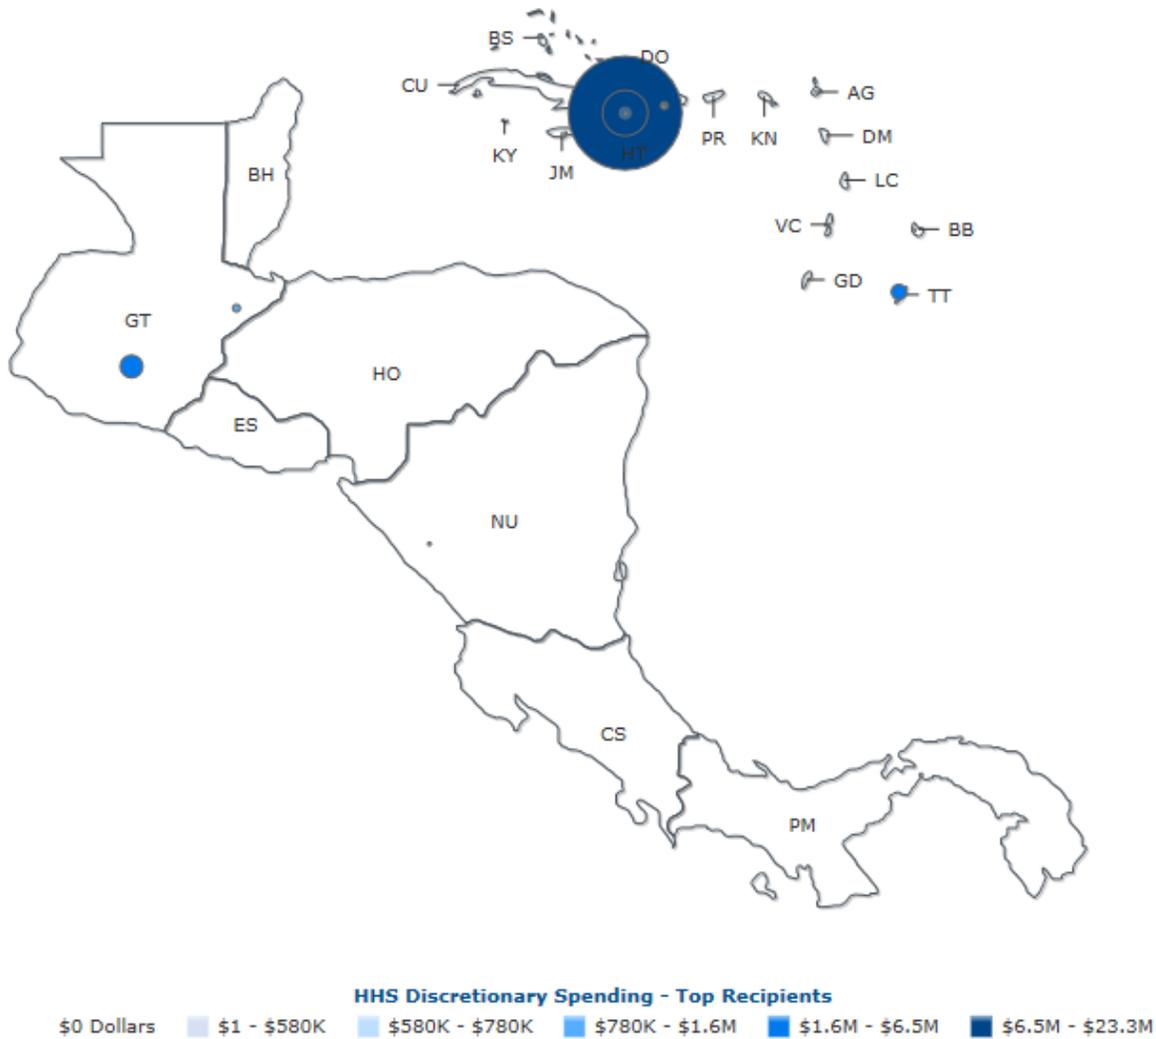

**DISCRETIONARY AWARDS TO CENTRAL AMERICAN AND CARIBBEAN COUNTRIES**

The map below uses a range of blue colors to show the total discretionary award dollars HHS granted to Central American and Caribbean nations in FY 2015. Darker colors indicate higher dollar amounts (see legend).

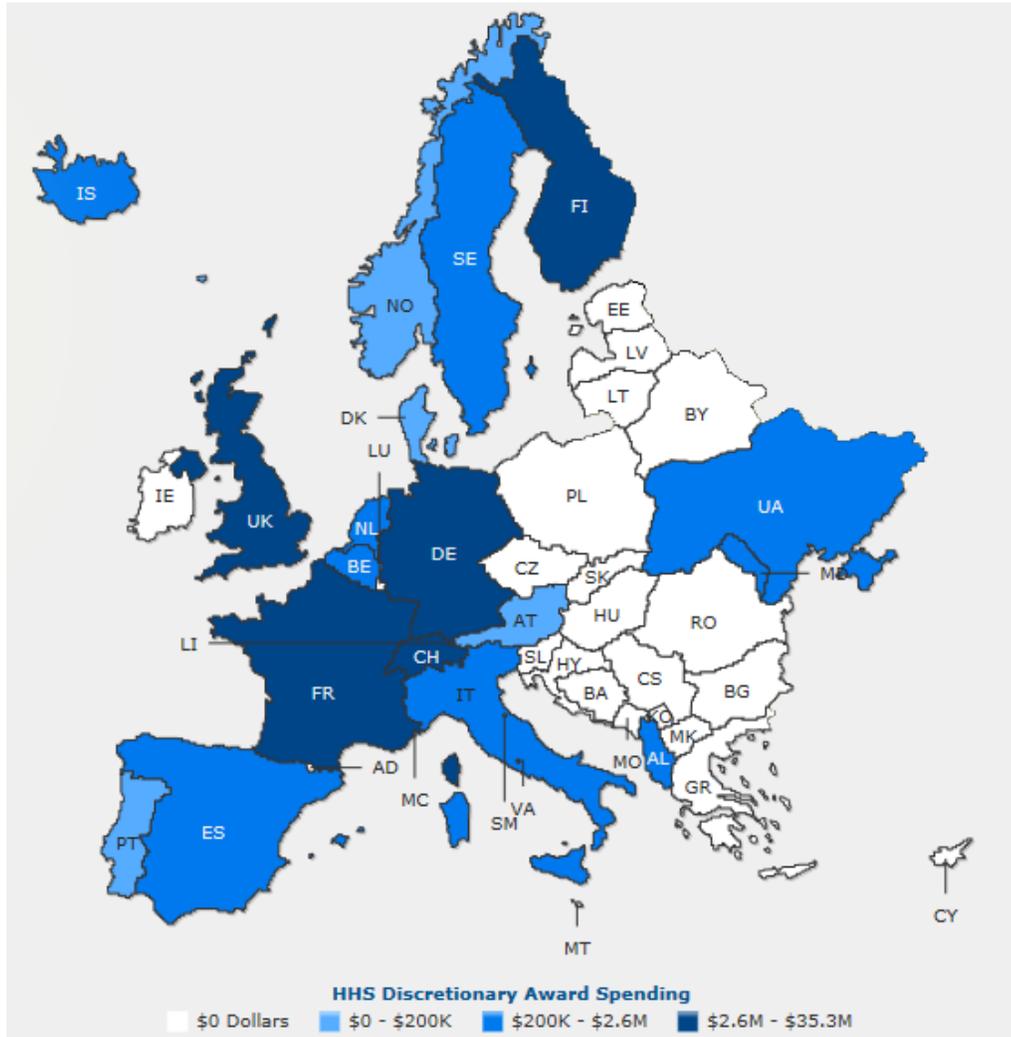

**TOP DISCRETIONARY AWARDS TO CENTRAL AMERICAN AND CARIBBEAN COUNTRIES**

The map below uses a range of blue-colored circles to show the 20 discretionary award recipients HHS granted to Central American and Caribbean nations in FY 2015. Discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend).

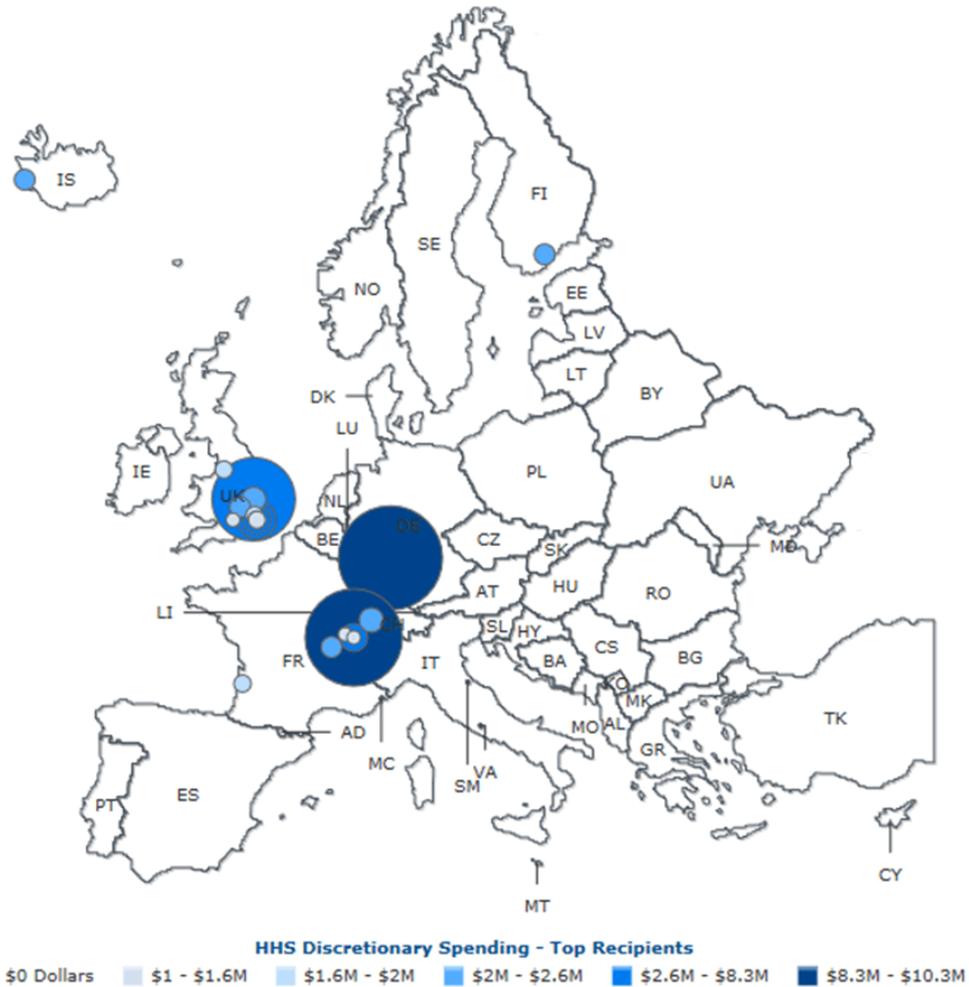

**DISCRETIONARY AWARDS TO EUROPEAN COUNTRIES**

The map below uses a range of blue colors to show the total discretionary award dollars HHS granted to European nations in FY 2015. Darker colors indicate higher dollar amounts (see legend).

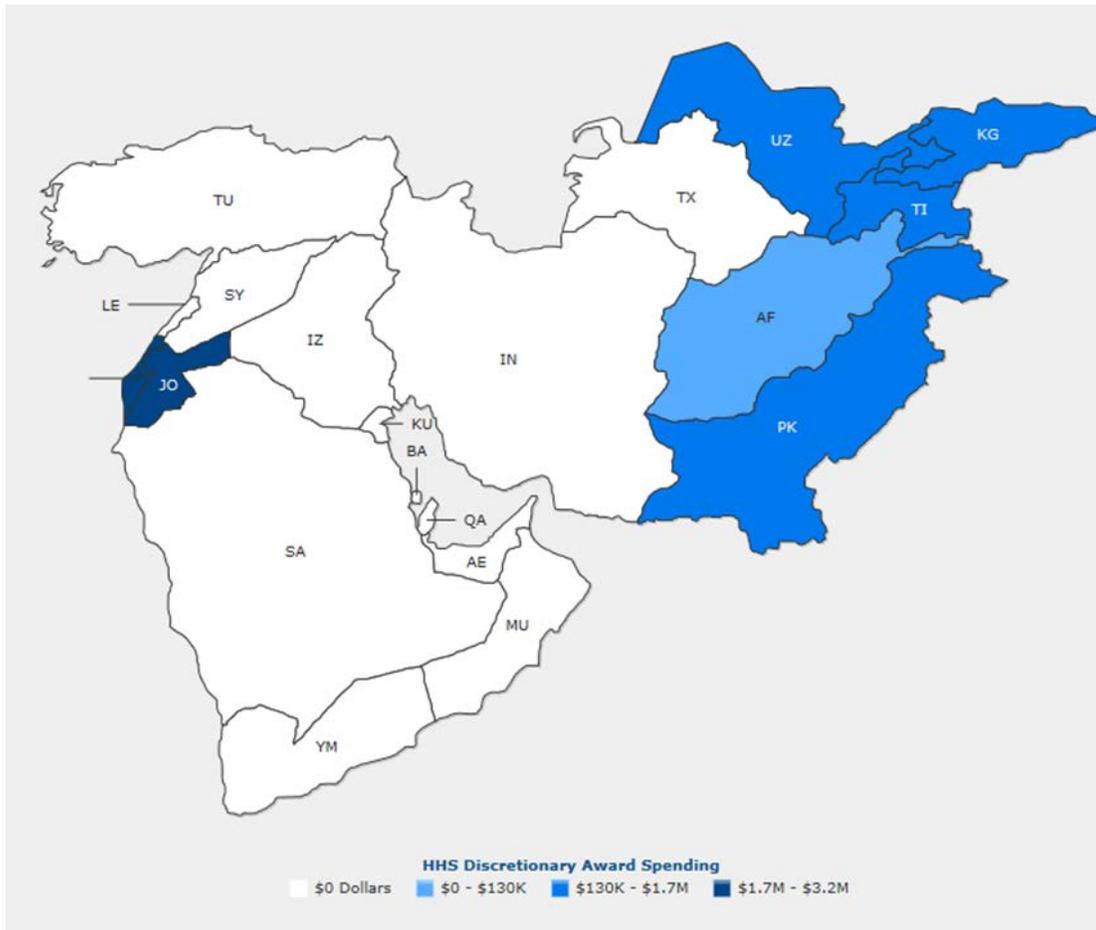

**TOP DISCRETIONARY AWARDS TO EUROPEAN COUNTRIES**

The map below uses a range of blue-colored circles to show the top discretionary award recipients HHS granted to European nations in FY 2015. Discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend).

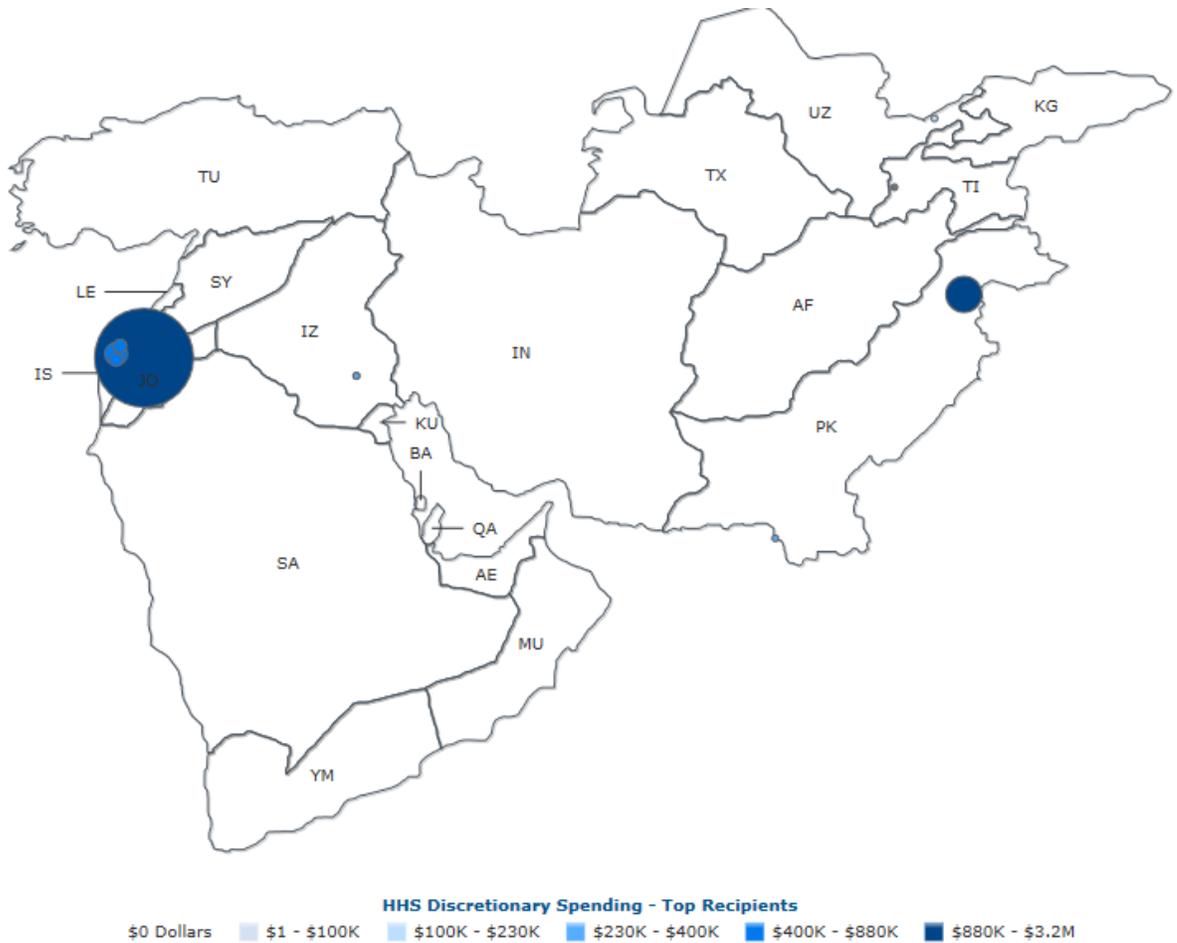

**DISCRETIONARY AWARDS TO MIDDLE EASTERN COUNTRIES**

The map below uses a range of blue colors to show the total discretionary award dollars HHS granted to Middle Eastern nations in FY 2015. Darker colors indicate higher dollar amounts (see legend).

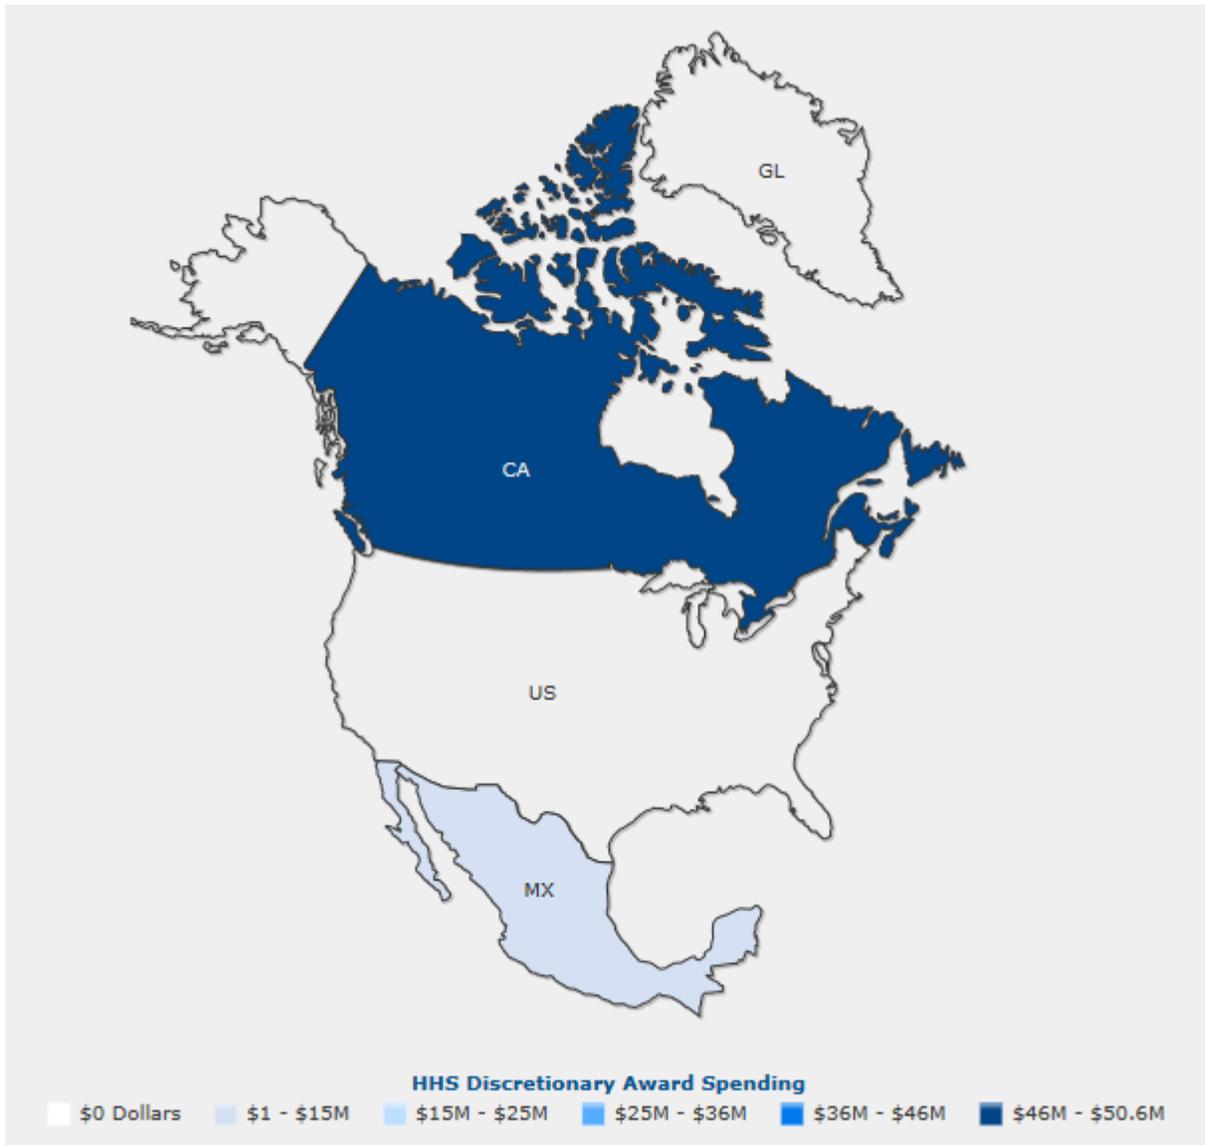

**TOP DISCRETIONARY AWARDS TO MIDDLE EASTERN COUNTRIES**

The map below uses a range of blue-colored circles to show the top discretionary award recipients HHS granted to Middle Eastern nations in FY 2015. Discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend).

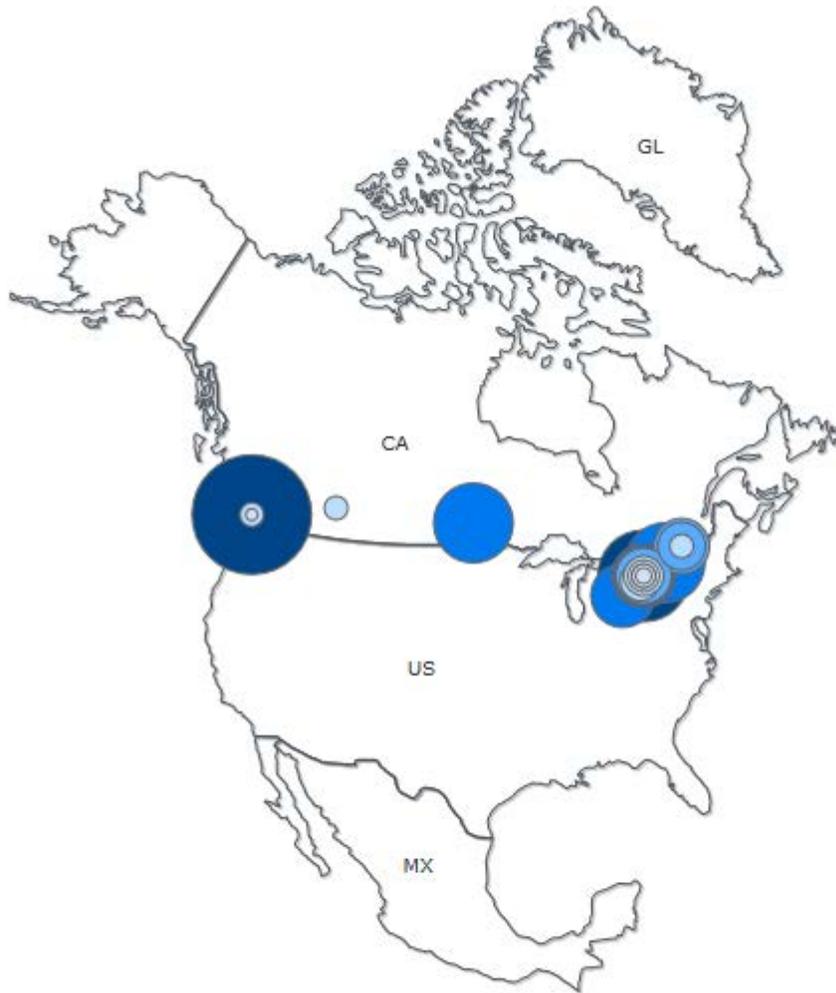

**DISCRETIONARY AWARDS TO NORTH AMERICAN COUNTRIES**

The map below uses a range of blue colors to show the total discretionary award dollars HHS granted to North American nations in FY 2015. Darker colors indicate higher dollar amounts (see legend).

**TOP DISCRETIONARY AWARDS TO NORTH AMERICAN COUNTRIES**

The map below uses a range of blue-colored circles to show the top discretionary award recipients HHS granted to North American nations in FY 2015. Discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend).

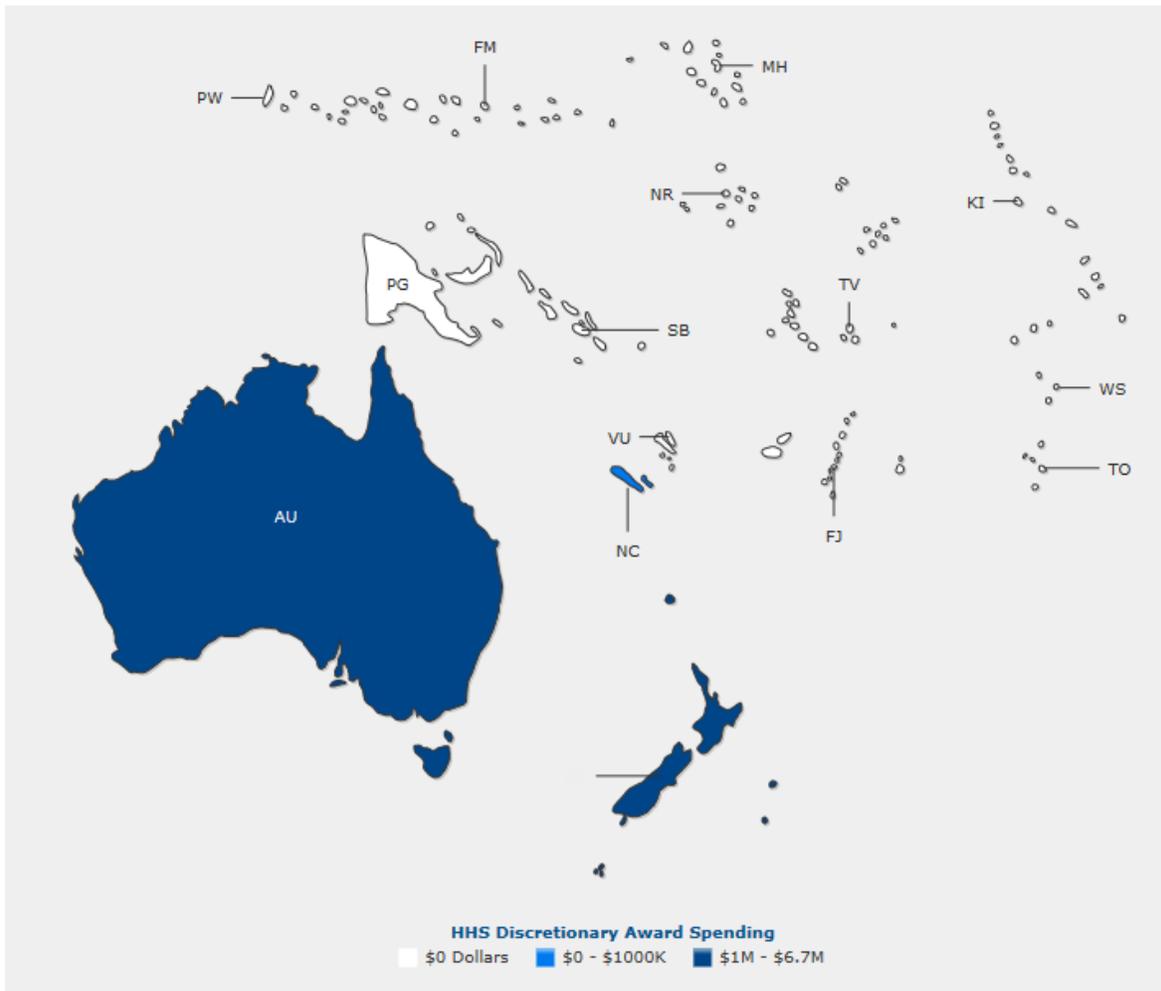

**HHS Discretionary Spending - Top Recipients**

-------------	----------------	-------------------	-----------------	---------------	-----------------

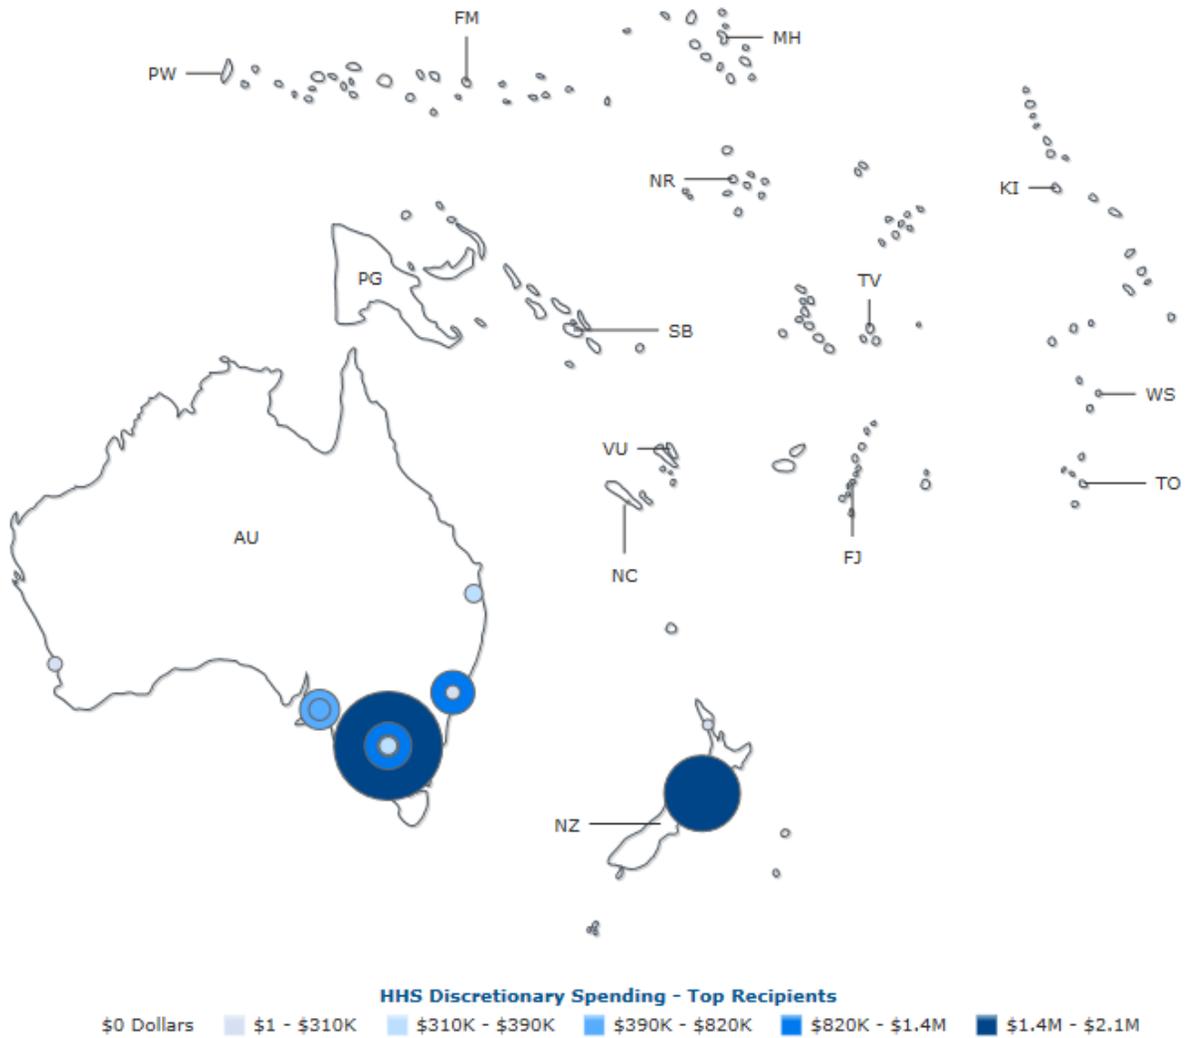

**DISCRETIONARY AWARDS TO OCEANIA COUNTRIES**

The map below uses a range of blue colors to show the total discretionary award dollars HHS granted to Oceania nations in FY 2015. Darker colors indicate higher dollar amounts (see legend).

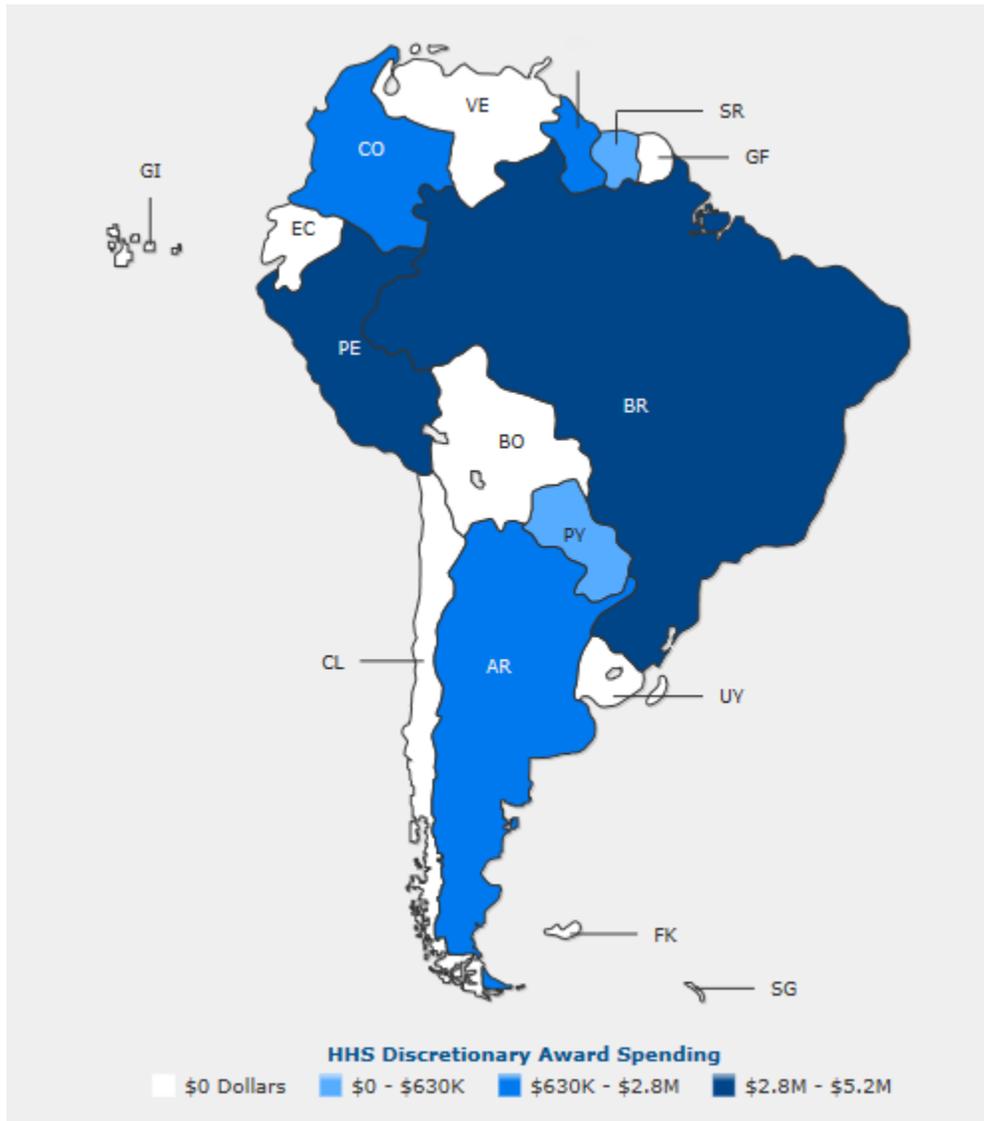

**TOP DISCRETIONARY AWARDS TO OCEANIA COUNTRIES**

The map below uses a range of blue-colored circles to show the top discretionary award recipients HHS granted to Oceania nations in FY 2015. Discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend).

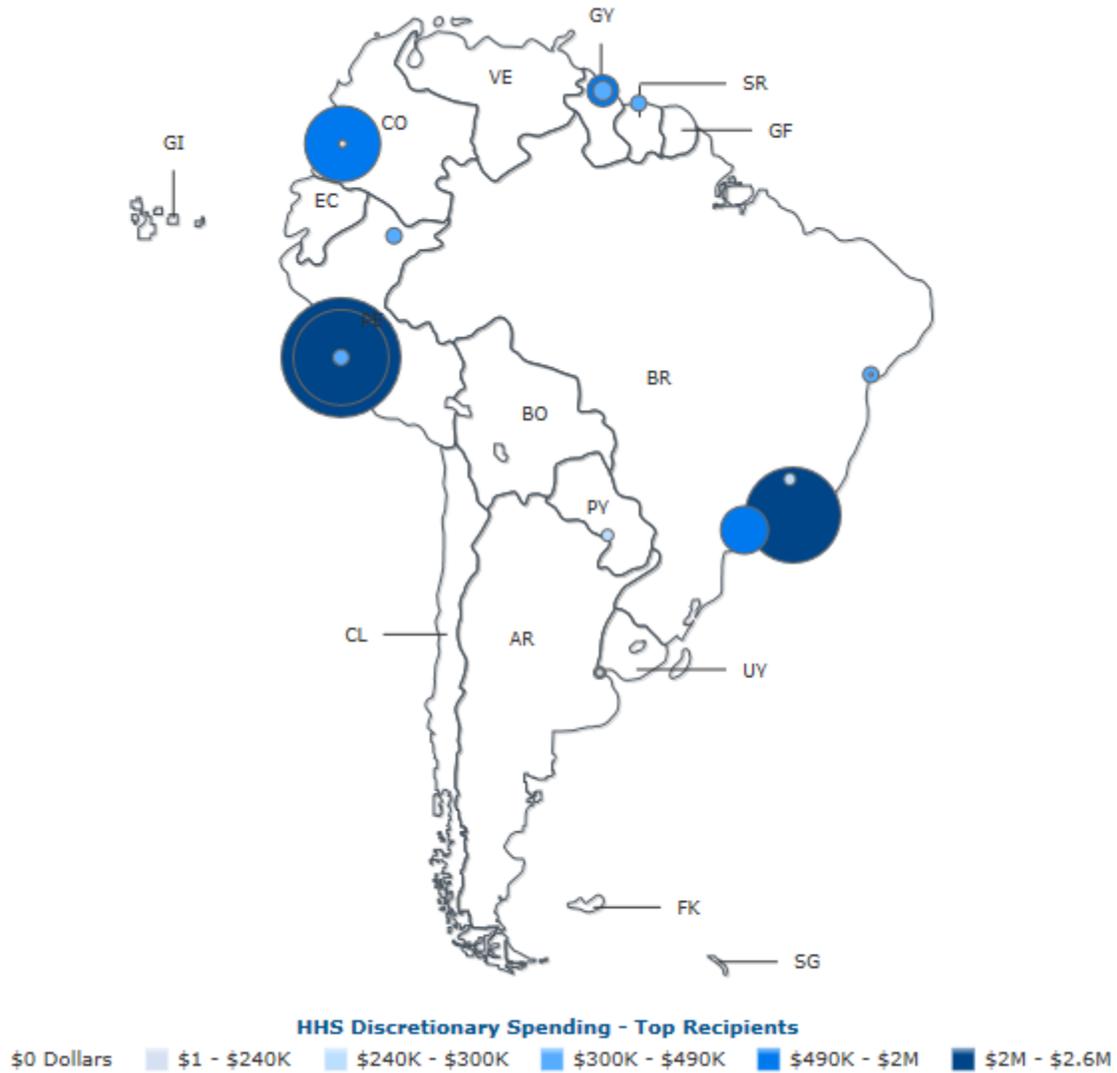

**DISCRETIONARY AWARDS TO SOUTH AMERICAN COUNTRIES**

The map below uses a range of blue colors to show the total discretionary award dollars HHS granted to South American nations in FY 2015. Darker colors indicate higher dollar amounts (see legend).

**TOP DISCRETIONARY AWARDS TO SOUTH AMERICAN COUNTRIES**

The map below uses a range of blue-colored circles to show the top discretionary award recipients HHS granted to South American nations in FY 2015. Discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend).

## HHS Agency Portfolios

HHS is comprised of OPDIVs and STAFFDIVs, each with its own unique mission. Each granting agency has a portfolio section in this report that contains its mission statement and its current fiscal year grant information.

## Administration for Children and Families (ACF) Portfolio

**Mark Greenberg**  
Acting Assistant  
Secretary

### MISSION

To foster health and well-being by providing federal leadership, partnership and resources for the compassionate and effective delivery of human services.

### ORGANIZATION

ACF is guided by the vision of “children, youth, families, individuals, and communities who are resilient, safe, healthy, and economically secure.” We seek to advance that vision by providing federal leadership, partnership, and resources for the compassionate and effective delivery of human services.

We are responsible for federal stewardship of a set of programs that provide essential services and supports for millions of Americans. And through our grants administration, research, technical assistance, and policy guidance, we seek to support national, state, territorial, tribal, and local efforts to strengthen families and communities and promote opportunity and economic mobility.

ACF programs aim to:

- Empower families and individuals to increase their economic independence and productivity
- Encourage strong, healthy, supportive communities that have a positive impact on quality of life and the development of children
- Create partnerships with front-line service providers, states, localities and tribal communities to identify and implement solutions that transcend traditional program boundaries
- Improve access to services through planning, reform and integration
- Address the needs, strengths and abilities of vulnerable populations including refugees and migrants and people with developmental disabilities

*Photo courtesy of the ACF.*

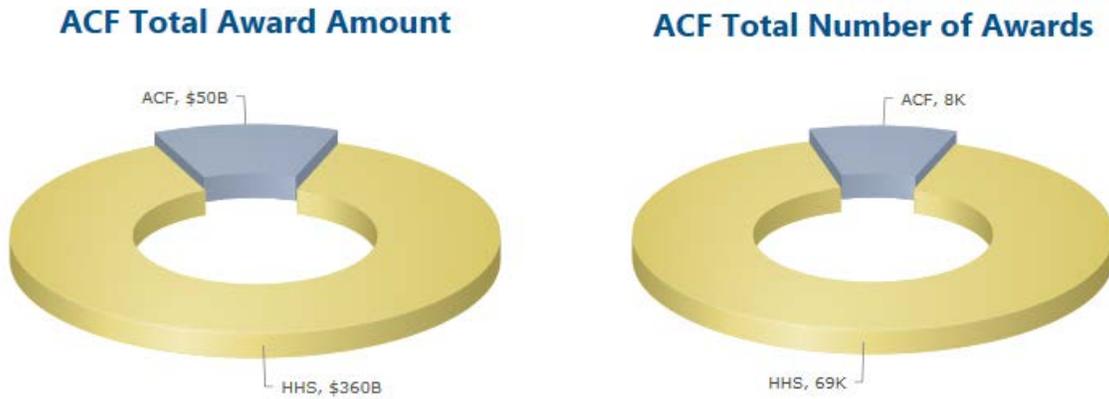

### ACF AWARD HISTORY

The Total Award Amounts and Award Number chart shows the number of awards in thousands and the amount of award dollars in billions that ACF granted during the last 5 fiscal years. The number of awards is shown in the blue bars. The award dollars are represented as gold bars. Data for the current fiscal year, at the far right of the chart, are depicted in brighter colors.

## ACF TOTAL AWARDS

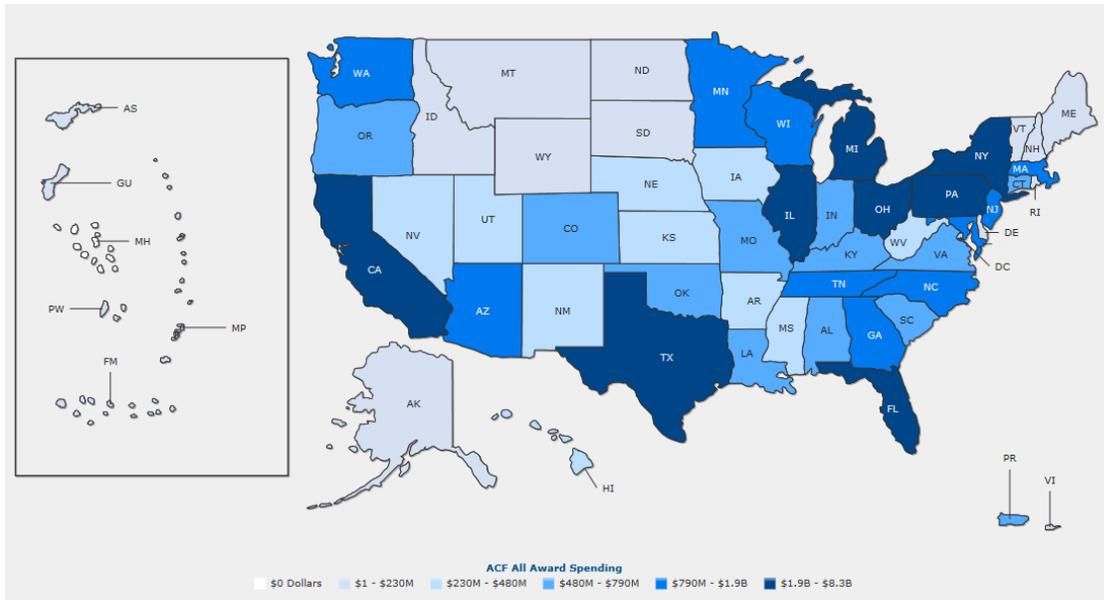

The pie charts compare ACF total award dollars in billions, and ACF total number of awards in thousands, with the award dollars and number of awards of all other HHS granting agencies.

## AWARDS BY U.S. LOCATION

The U.S. map below shows the total awards, including discretionary awards, and award dollars that ACF granted by state for FY 2015, including U.S. Territories. Darker colors indicate higher dollar amounts (see legend).

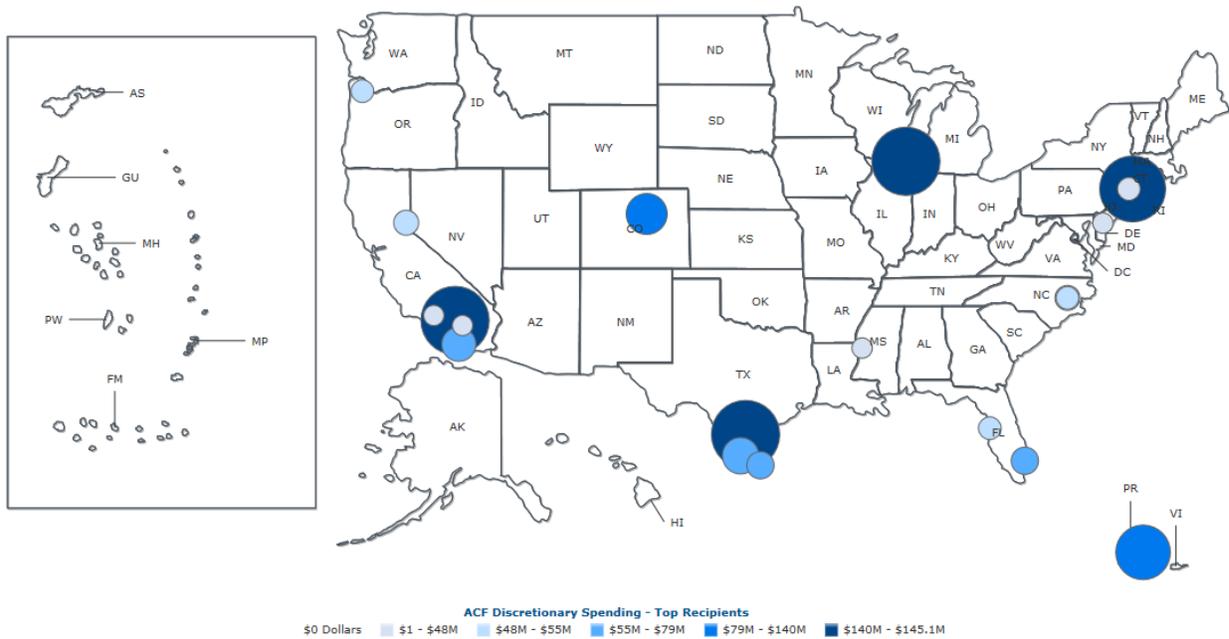

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

**TOP DISCRETIONARY AWARD RECIPIENTS**

The map below uses a range of blue circles to show the top national recipients of ACF discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend). States without a circle did not have a recipient in the list.

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

## Administration for Community Living (ACL) Portfolio

**Kathy Greenlee**  
*Administrator*  
*Assistant Secretary for*  
*Aging*

### MISSION

Maximize the independence, well-being, and health of older adults, people with disabilities across the lifespan, and their families and caregivers.

### ORGANIZATION

ACL works with states, tribes, community providers, universities, nonprofit organizations, businesses and families to help older adults and people with disabilities live in their homes and fully participate in their communities.

ACL's programs work collaboratively to enhance access to health care and long-term services and supports, while also promoting inclusive community living policies, such as livable communities and competitive integrated employment for people with disabilities.

ACL was created in 2012, bringing together the Administration on Aging and the Administration on Intellectual and Developmental Disabilities. The agency is currently working on implementation of the 2015 Workforce Innovation and Opportunity Act, which transferred the Assistive Technology Act programs, Independent Living programs, and the National Institute on Disability, Independent Living and Rehabilitation Research and from the Department of Education to ACL.

ACL's goals are as follows:

- Advocate to ensure the interests of people with disabilities, older adults, and their families are reflected in the design and implementation of public policies and programs.
- Protect and enhance the rights; and prevent the abuse, neglect, and exploitation of older adults and people with disabilities.
- Work with older adults and people with disabilities as they fully engage and participate in their communities, make informed decisions, and exercise self-determination and control about their independence, well-being, and health.
- Implement management and workforce practices that support the integrity and efficient operations of programs serving people with disabilities and older adults.
- Enable people with disabilities and older adults to live in the community through the availability of and access to high-quality long-term services and supports, including supports for families and caregivers.

**ACL AWARD HISTORY**

The Total Award Amounts and Award Number chart shows the number of awards in thousands and the amount of award dollars in billions that ACL granted during the last 5 fiscal years. The number of awards is shown in the blue bars. The award dollars are represented as gold bars. Data for the current fiscal year, at the far right of the chart, are depicted in brighter colors.

**ACL TOTAL AWARDS**

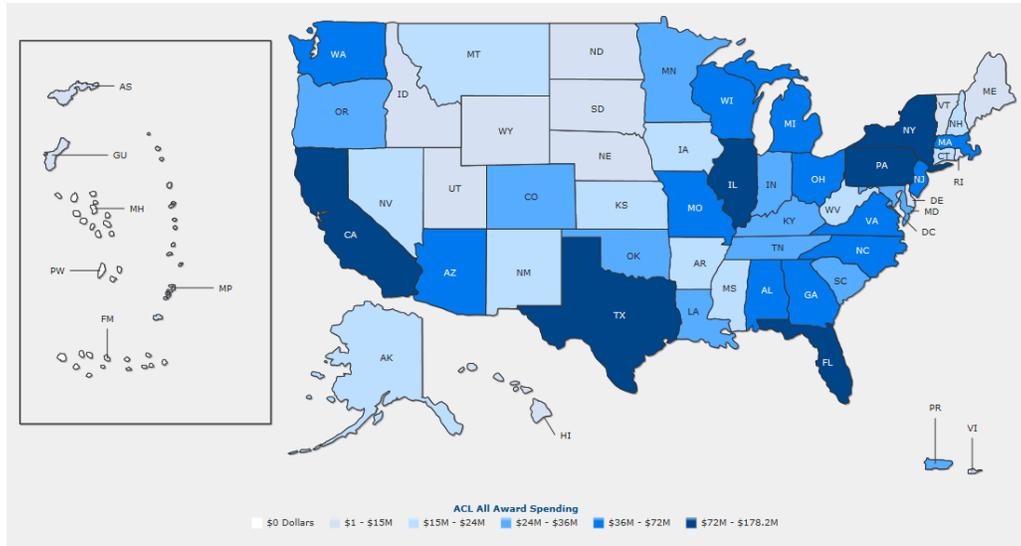

The pie charts compare ACL total award dollars in billions, and ACL total number of awards in thousands, with the award dollars and number of awards of all other HHS granting agencies.

## AWARDS BY U.S. LOCATION

The U.S. map below shows the total awards, including discretionary awards, and award dollars that ACL granted by state for FY 2015, including U.S. Territories. Darker colors indicate higher dollar amounts (see legend).

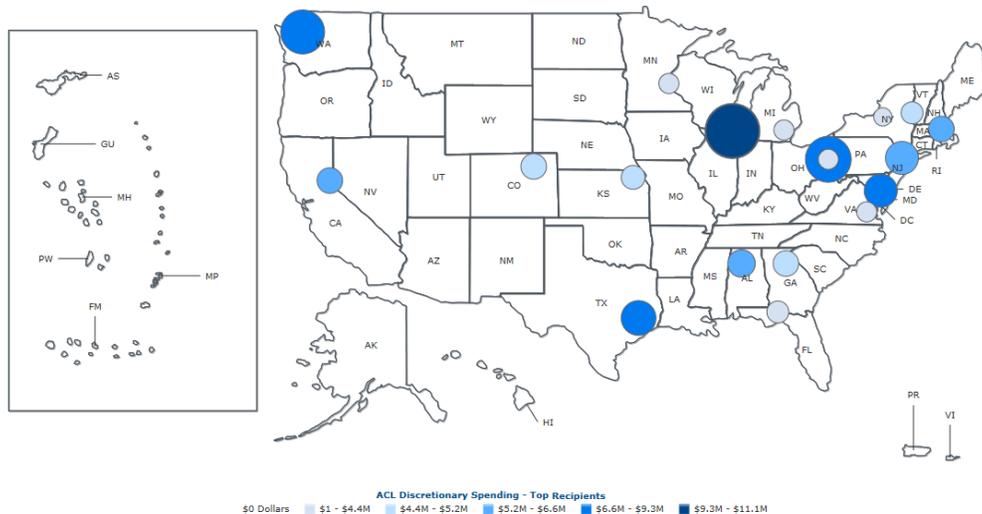

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

## TOP DISCRETIONARY AWARD RECIPIENTS

The map below uses a range of blue circles to show the top national recipients of ACL discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend). States without a circle did not have a recipient in the list.

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

## Agency for Healthcare Research and Quality (AHRQ) Portfolio

**Richard Kronick, Ph.D.**  
*Director*

### MISSION

The Agency for Healthcare Research and Quality's (AHRQ) mission is to produce evidence to make health care safer, higher quality, more accessible, equitable, and affordable, and to work within the U.S. Department of Health and Human Services and with other partners to make sure that the evidence is understood and used.

### ORGANIZATION

AHRQ's Areas of Focus:

- AHRQ invests in research and evidence to understand how to make health care safer and improve quality
- AHRQ creates materials to teach and train health care systems and professionals to catalyze improvements in care
- AHRQ generates measures and data used to track and improve performance and evaluate progress of the U.S. health system

AHRQ awards discretionary grants, cooperative agreements, and contracts to carry out research projects, demonstrations, evaluations, and dissemination activities. AHRQ's research projects examine the availability, quality, and costs of healthcare services; ways to improve the effectiveness and appropriateness of clinical practice, including the prevention of disease; and other areas of health services research. The information helps health care decisionmakers, patients and clinicians, health system leaders, and policymakers make more informed decisions and improve the quality of health care services.

*Photo courtesy of the AHRQ.*

AHRQ also supports small grants, conference grants, and training through dissertation grants, National Research Service Awards, and career development awards.

### AHRQ AWARD HISTORY

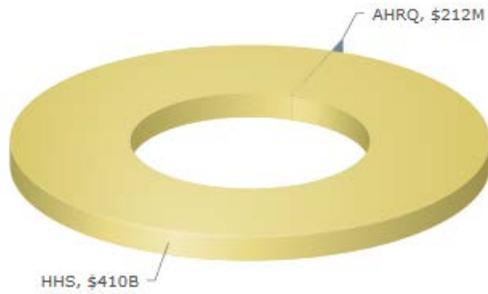

The Total Award Amounts and Award Number chart shows the number of awards in thousands and the amount of award dollars in billions that AHRQ granted during the last 5 fiscal years. The number of awards is shown in the blue bars. The award dollars are represented as gold bars. Data for the current fiscal year, at the far right of the chart, are depicted in brighter colors.

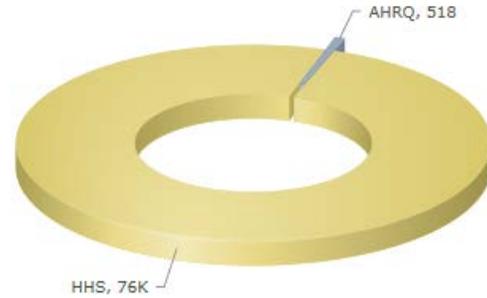

**AHRQ TOTAL AWARDS**

The pie charts compare AHRQ total award dollars in billions, and AHRQ total number of awards in thousands, with the award dollars and number of awards of all other HHS granting agencies.

**AHRQ Total Award Amount**

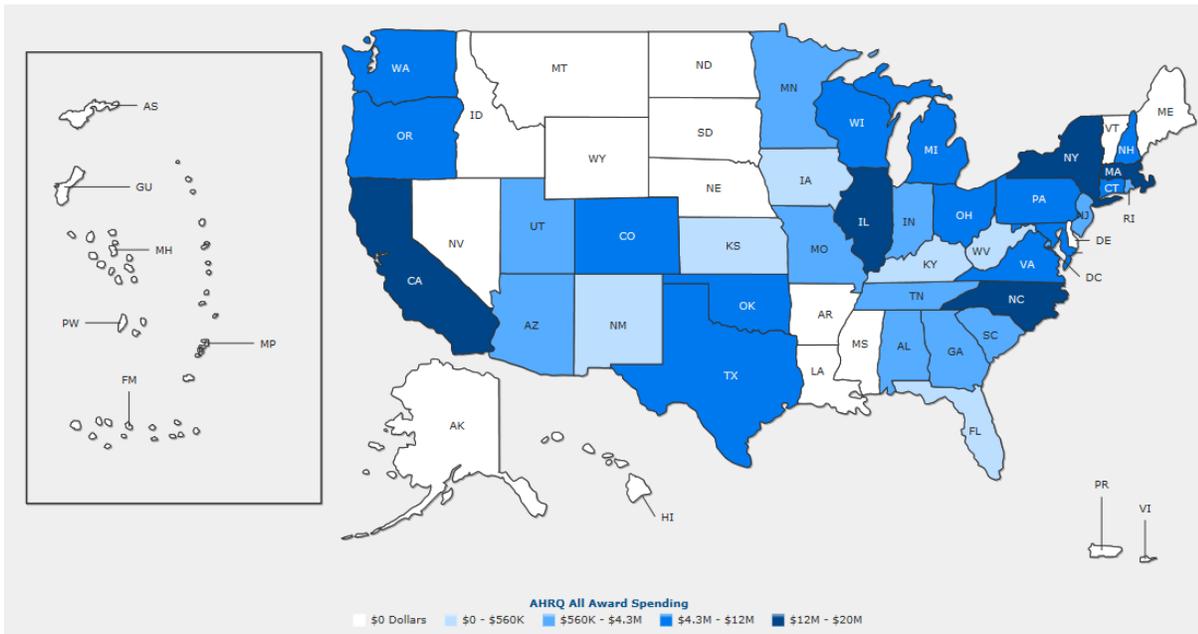

**AHRQ Total Number of Awards**

**AWARDS BY U.S. LOCATION**

The U.S. map below shows the total awards, including discretionary awards, and award dollars that AHRQ granted by state for FY 2015, including U.S. Territories. Darker colors indicate higher dollar amounts (see legend).

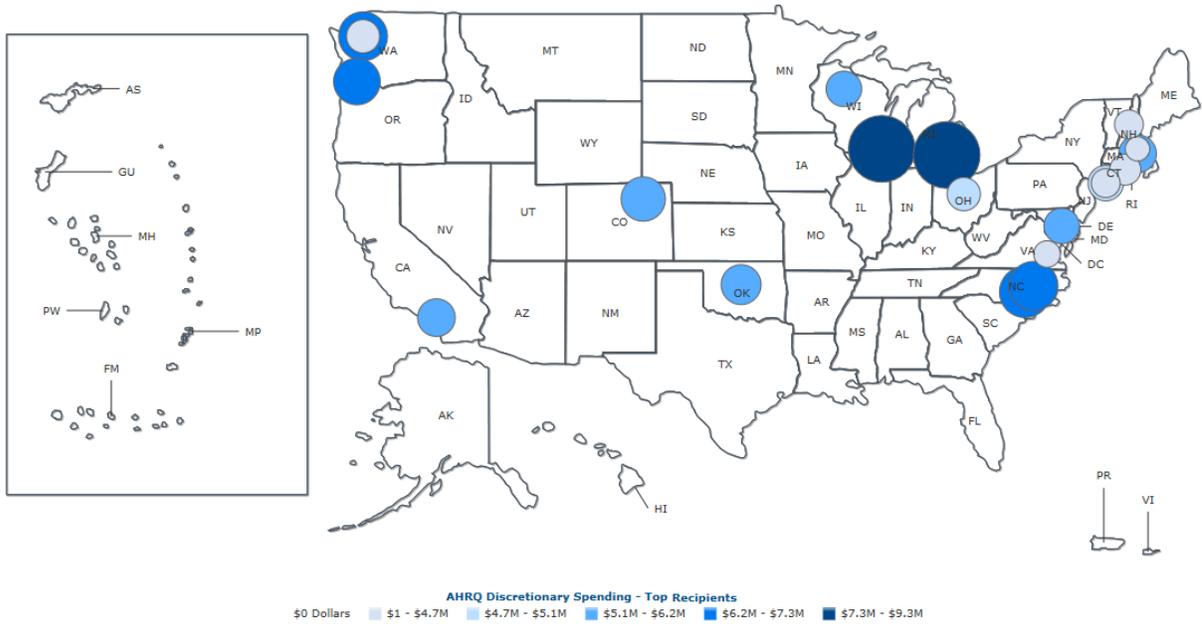

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

**TOP DISCRETIONARY AWARD RECIPIENTS**

The map below uses a range of blue circles to show the top national recipients of AHRQ discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend). States without a circle did not have a recipient in the list.

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

**ASPE**

**Assistant Secretary for Planning and Evaluation (ASPE) Portfolio**

**Richard Frank, Ph.D.**  
*Assistant Secretary,  
Planning and Evaluation*

**MISSION**

The Assistant Secretary for Planning and Evaluation (ASPE) advises the Secretary of the Department of Health and Human Services on policy development in health, disability, human services, data, and science, and provides advice and analysis on economic policy. ASPE leads special initiatives, coordinates the Department's evaluation, research and demonstration activities, and manages cross-Department planning activities such as strategic planning, legislative planning, and review of regulations. Integral to this role, ASPE conducts research and evaluation studies, develops policy analyses, and estimates the cost and benefits of policy alternatives under consideration by the Department or Congress.

**ORGANIZATION**

ASPE, within the Office of the Secretary, is organized into five principal offices and several smaller ones. Each of the major offices is headed by a Deputy Assistant Secretary.

**ASPE AWARD HISTORY**

The Total Award Amounts and Award Number chart shows the number of awards in thousands and the amount of award dollars in billions that ASPE granted during the last 5 fiscal years. The number of awards is shown in the blue bars. The award dollars are represented as gold bars. Data for the current fiscal year, at the far right of the chart, are depicted in brighter colors.

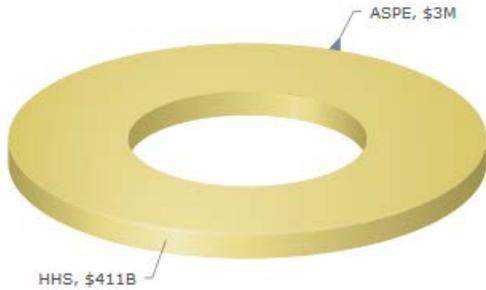

*Photo courtesy of the ASPE.*

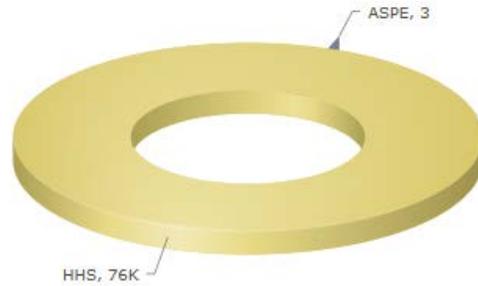

**ASPE TOTAL AWARDS**

The pie charts compare ASPE total award dollars in billions, and ASPE total number of awards in thousands, with the award dollars and number of awards of all other HHS granting agencies.

**ASPE Total Award Amount**

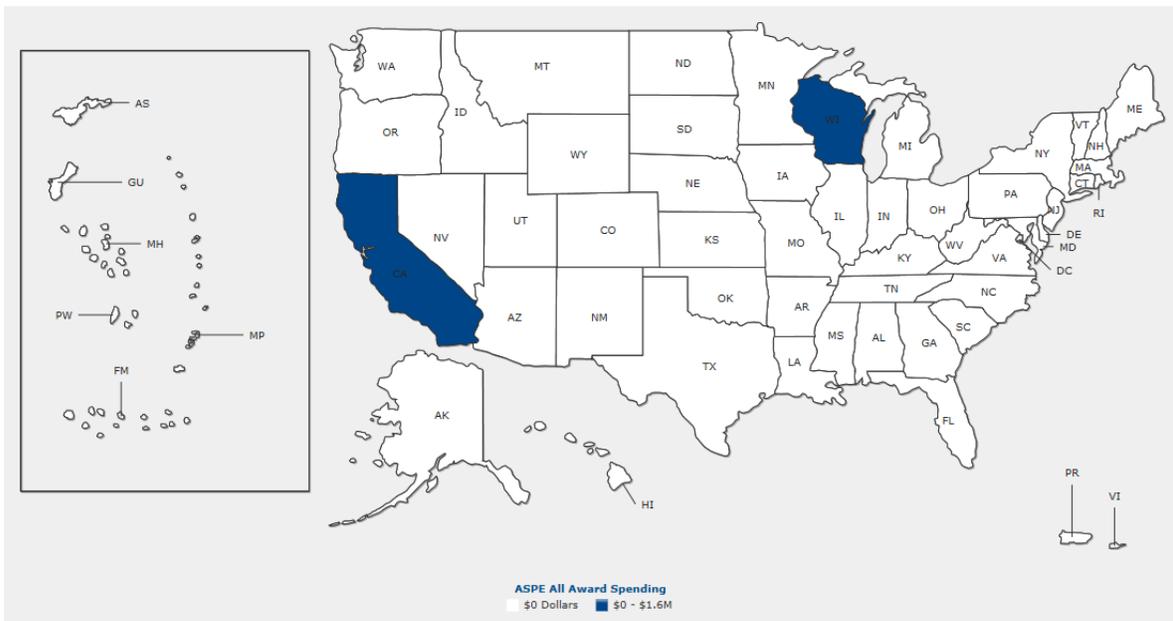

**ASPE Total Number of Awards**

**AWARDS BY U.S. LOCATION**

The U.S. map below shows the total awards, including discretionary awards, and award dollars that ASPE granted by state for FY 2015, including U.S. Territories. Darker colors indicate higher dollar amounts (see legend).

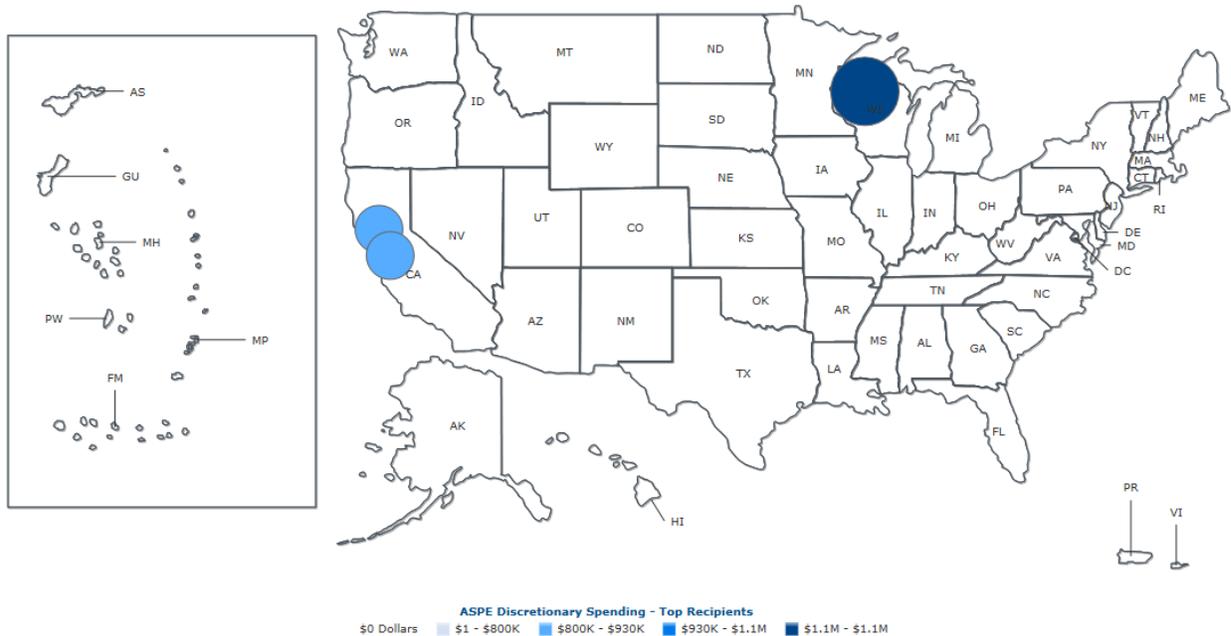

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

**TOP DISCRETIONARY AWARD RECIPIENTS**

The map below uses a range of blue circles to show the top national recipients of ASPE discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend). States without a circle did not have a recipient in the list.

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

**Assistant Secretary for Preparedness and Response (ASPR) Portfolio**

**Nichole Lurie, M.D.,  
M.S.P.H.**  
*Assistant Secretary*

**MISSION**

To lead the country in preparing for, responding to, and recovering from the adverse health effects of emergencies and disasters by supporting our communities' ability to withstand adversity, strengthening our health and response systems, and enhancing national health security.

**ORGANIZATION**

ASPR, as delegated by the Secretary, leads the federal public health and medical response to public health emergencies and incidents covered by the National Response and National Recovery Frameworks. ASPR serves as the principal advisor to the Secretary on all matters related to public health and medical emergency preparedness and response and leads a collaborative approach to the Department's preparedness, response and recovery portfolio. In addition to coordination of the federal public health and medical response to incidents, ASPR has operational responsibilities for the advanced research and development of medical countermeasures.

**ASPR AWARD HISTORY**

The Total Award Amounts and Award Number chart shows the number of awards in thousands and the amount of award dollars in billions that ASPR granted during the last 5 fiscal years. The number of awards is shown in the blue bars. The award dollars are represented as gold bars. Data for the current fiscal year, at the far right of the chart, are depicted in brighter colors.

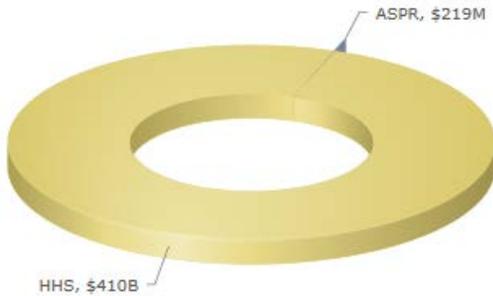

*Photo courtesy of the ASPR.*

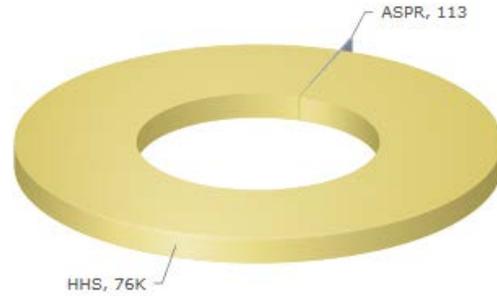

**ASPR TOTAL AWARDS**

The pie charts compare ASPR total award dollars in billions, and ASPR total number of awards in thousands, with the award dollars and number of awards of all other HHS granting agencies.

The world map below uses a range of blue-colored circles to show the top discretionary award dollars ASPR granted in FY 2015, ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend).

## Centers for Disease Control and Prevention (CDC) Portfolio

**Dr. Tom Frieden**  
*Director*

### MISSION

CDC works 24/7 keeping America safe from health, safety, and security threats, both foreign and domestic. Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease, and supports communities and citizens to do the same. CDC is the nation's health protection agency — saving lives, protecting people from health threats, and saving money through prevention.

### ORGANIZATION

CDC performs many of the administrative functions for the Agency for Toxic Substances and Disease Registry (ATSDR), a sister agency of CDC. ATSDR is charged with assessing health hazards at specific hazardous waste sites, helping to prevent or reduce exposure and the illnesses that result, and increasing knowledge and understanding of the health effects that may result from exposure to hazardous substances.

CDC is our nation's health protection agency, and our scientists and disease detectives work around the world to track diseases, research outbreaks, and respond to emergencies of all kinds. CDC works with partners around the country and world to:

- Prepare the US to respond to emergency health threats
- Investigate deadly disease outbreaks around the world
- Stop disease outbreaks before they spread
- Detect harmful germs rapidly in the US food supply
- Strengthen the quality, response and effectiveness of America's laboratories
- Provide critical data that saves lives and protects people
- Put proven prevention strategies to work
- Provide life-saving vaccines

## Centers for Medicare & Medicaid Services (CMS) Portfolio

**Andy Slavitt**  
*Acting Administrator*

### MISSION

To ensure effective, up-to-date healthcare coverage and to promote quality care for beneficiaries.

### ORGANIZATION

CMS covers 100 million people through Medicare, Medicaid, the Children's Health Insurance Program (CHIP), and the Health Insurance Marketplace. But coverage isn't our only goal. To achieve a high quality health care system, we also aim for better care at lower costs and improved health.

Medicare, the nation's largest health insurance program, is a direct payment program and its funding levels are not included in the CMS grant totals. Grant programs which support the administration of some Medicare services are included in CMS totals. Examples of key CMS grant programs include the Medicare State Survey and Certification Group; CMS Research, Demonstrations and Evaluations; Medicare Hospital Insurance; and Medicare Supplementary Medical Insurance.

*Photo courtesy of the CMS.*

Medicaid provides healthcare to millions of low-income families with children, elderly, blind or disabled persons. It is the Department's largest grant program in terms of funding levels. The CHIP allows states to initiate and/or expand health insurance to uninsured, low-income children.

In addition to these programs CMS administers a number of quality-focused activities that benefit all Americans. CMS program objectives include:

- Building and Maintaining a Skilled, Committed, and Highly Motivated Workforce
- Accurate and Predictable Payments
- High-Value Health Care
- Confident, Informed Consumers
- Collaborative Partnerships

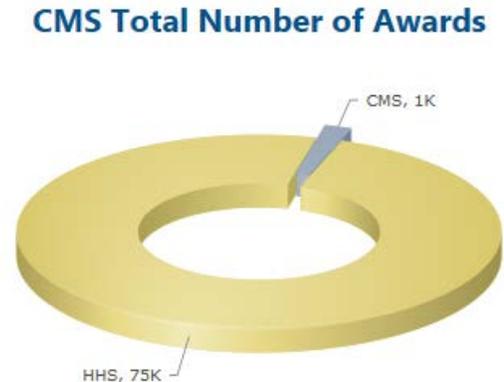

**CMS AWARD HISTORY**

The Total Award Amounts and Award Number chart shows the number of awards in thousands and the amount of award dollars in billions that CMS granted during the last 5 fiscal years. The number of awards is shown in the blue bars. The award dollars are represented as gold bars. Data for the current fiscal year, at the far right of the chart, are depicted in brighter colors.

**CMS TOTAL AWARDS**

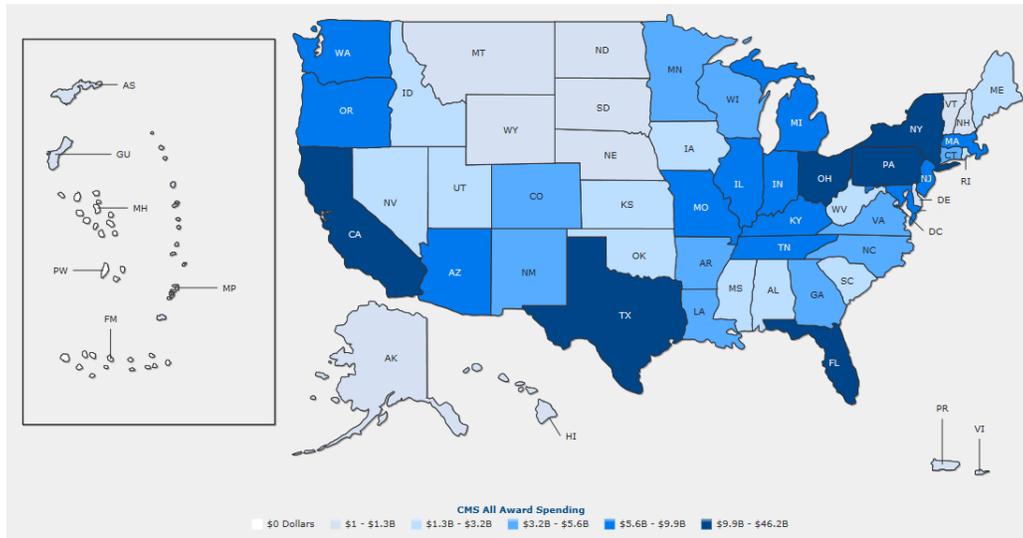

The pie charts compare CMS total award dollars in billions, and CMS total number of awards in thousands, with the award dollars and number of awards of all other HHS granting agencies.

## AWARDS BY U.S. LOCATION

The U.S. map below shows the total awards, including discretionary awards, and award dollars that CMS granted by state for FY 2015, including U.S. Territories. Darker colors indicate higher dollar amounts (see legend).

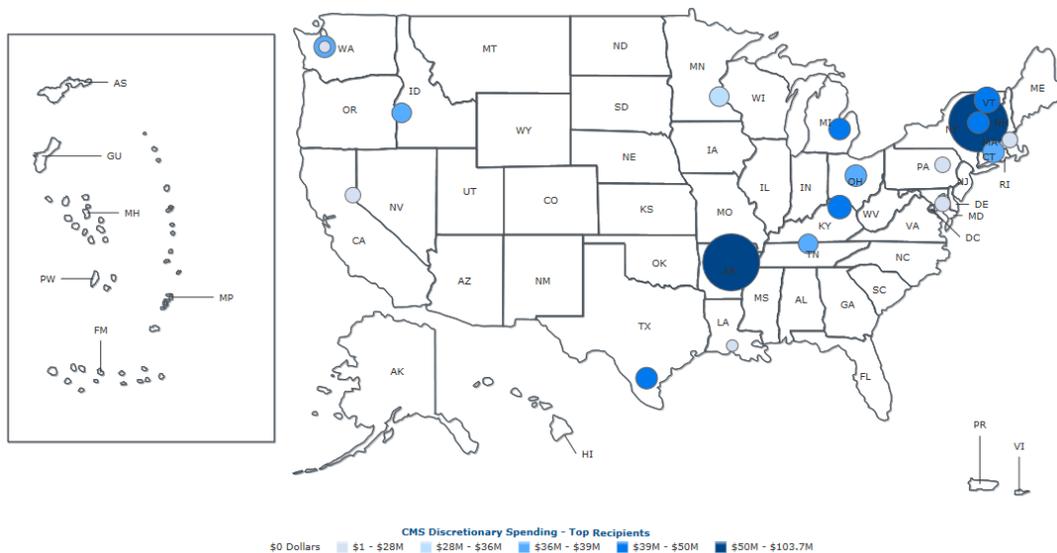

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

## TOP DISCRETIONARY AWARD RECIPIENTS

The map below uses a range of blue circles to show the top national recipients of CMS discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend). States without a circle did not have a recipient in the list.

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

## Food and Drug Administration (FDA) Portfolio

**Robert M. Califf, MD**  
Commissioner

### MISSION

To protect the public health by assuring the safety, effectiveness, and security of human and veterinary drugs, biological products, medical devices, our nation’s food supply, cosmetics, and products that give off radiation. The FDA is also responsible for advancing the public health by helping to speed innovations that make medicines and foods more effective, safer, and more affordable; and helping the public get accurate, science-based information they need to use medicines and foods to improve their health.

### ORGANIZATION

The Food and Drug Administration (FDA) is a scientific regulatory agency that is responsible for protecting and advancing the public health in the United States: FDA’s responsibilities cover a wide range of regulatory activities. FDA decisions affect every American on a daily basis. Annually, consumers spend nearly \$1.5 trillion, or more than 20 percent of all consumer expenditures, on FDA-regulated products.

## Health Resources and Services Administration (HRSA) Portfolio

**Jim Macrae, MA, MPP**  
*Acting Administrator*

### MISSION

To improve health and achieve health equity through access to quality services, a skilled health workforce and innovative programs.

### ORGANIZATION

**Tens of millions of Americans get affordable health care and other help through HRSA's 90-plus programs and more than 3,000 grantees.**

The Health Resources and Services Administration (HRSA), an agency of the U.S. Department of Health and Human Services, is the primary Federal agency for improving access to health care by strengthening the health care workforce, building healthy communities and achieving health equity. HRSA's programs provide health care to people who are geographically isolated, economically or medically vulnerable.

This includes people living with HIV/AIDS, pregnant women, mothers, and their families and those in need of high quality primary health care. HRSA also supports the training of health professionals, the distribution of providers to areas where they are needed most and improvements in health care delivery.

HRSA oversees organ, bone marrow and cord blood donation. It compensates individuals harmed by vaccination, and maintains databases that protect against health care malpractice, waste, fraud and abuse.

*Photo courtesy of the HRSA.*

Since 1943 the agencies that were HRSA precursors have worked to improve the health of needy people. HRSA was created in 1982, when the Health Resources Administration and the Health Services Administration were merged.

HRSA's strategic goals are to:

- Improve Access to Quality Health Care and Services
- Strengthen the Health Workforce
- Build Healthy Communities
- Improve Health Equity
- Strengthen HRSA Program Management and Operations

HRSA grantees provide health care to uninsured people, people living with HIV/AIDS, pregnant women, mothers, and children. They train health professionals and improve systems of care in rural communities.

### HRSA AWARD HISTORY

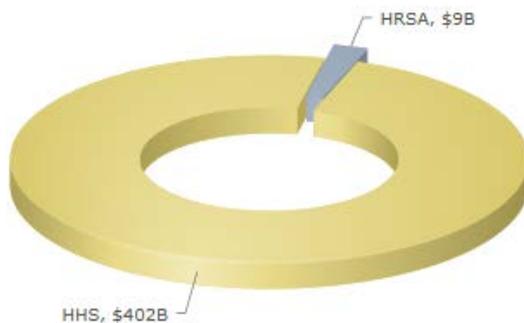

The Total Award Amounts and Award Number chart shows the number of awards in thousands and the amount of award dollars in billions that HRSA granted during the last 5 fiscal years. The number of awards is shown in the blue bars. The award dollars are represented as gold bars. Data for the current fiscal year, at the far right of the chart, are depicted in brighter colors.

## Indian Health Service (IHS) Portfolio

**Mr. Robert G. McSwain**  
*Principal Deputy Director*

### MISSION

To raise the physical, mental, social, and spiritual health of American Indians and Alaska Natives to the highest level.

### ORGANIZATION

The Indian Health Service (IHS) provides a comprehensive health services delivery system for American Indians and Alaska Natives with opportunity for maximum tribal involvement in developing and managing programs to meet their health needs. IHS serves a population of approximately 2.2 million American Indians and Alaska Natives.

The IHS goal is to ensure that comprehensive, culturally acceptable personal and public health services are available and accessible to American Indian and Alaska Native people. The foundation of IHS is to uphold the federal government's obligation to promote healthy American Indian and Alaska Native people, communities, and cultures and to honor and protect the inherent sovereign rights of Tribes.

The IHS manages Discretionary and "Compact" awards. Compacts are written agreements consistent with the federal government's trust responsibility, treaty obligations, and the government-to-government relationship between Indian Tribes and the United States and may only be amended by mutual agreement of the parties. Compacts are usually awarded with an "indefinite term" per the Indian Self-Determination and Education Assistance Act under Title V of the statute and therefore intended to be in place in perpetuity. Funding Agreements associated with Title V compacts identify the Programs, Functions, Services, and Activities (PFSAs) or portions thereof that will be assumed by a Tribe or tribal organization and the funding that is related to those PFSAs. Each Tribe has a sole right to its share of IHS PFSAs. Each Tribe chooses whether to receive the funding and each Tribe controls the timing of the funding agreement and the retention of the ongoing responsibility for so long as permitted by federal law or until terminated by mutual written agreement, retrocession, or resumption.

### IHS AWARD HISTORY

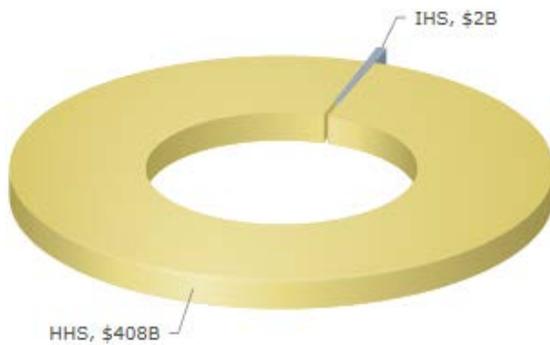

The Total Award Amounts and Award Number chart shows the number of awards in thousands and the amount of award dollars in billions that IHS granted during the last 5 fiscal years. The number of awards is shown in the blue bars. The award dollars are represented as gold bars. Data for the current fiscal year, at the far right of the chart, are depicted in brighter colors.

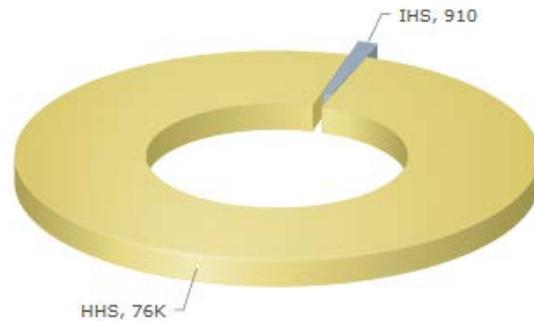

### IHS TOTAL AWARDS

The pie charts compare IHS total award dollars in billions, and IHS total number of awards in thousands, with the award dollars and number of awards of all other HHS granting agencies.

**IHS Total Award Amount**

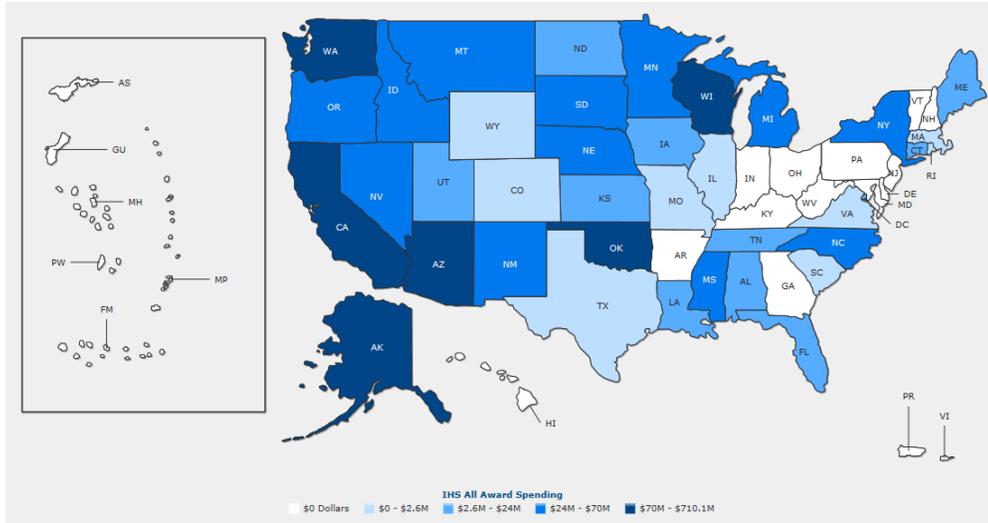

**IHS Total Number of Awards**

## AWARDS BY U.S. LOCATION

The U.S. map below shows the total awards, including discretionary awards, and award dollars that IHS granted by state for FY 2015, including U.S. Territories. Darker colors indicate higher dollar amounts (see legend).

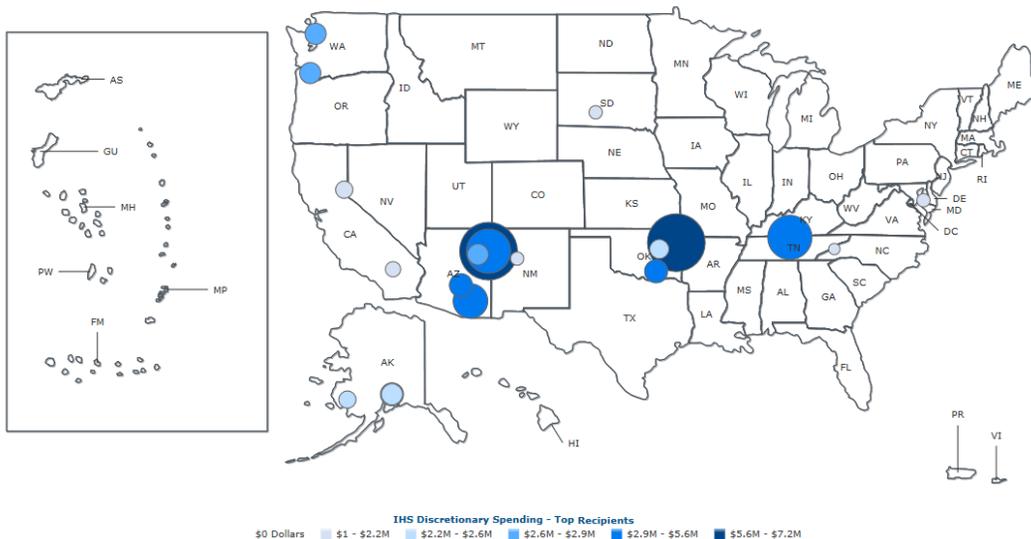

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

## TOP DISCRETIONARY AWARD RECIPIENTS

The map below uses a range of blue circles to show the top national recipients of IHS discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend). States without a circle did not have a recipient in the list.

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

## National Institutes of Health (NIH) Portfolio

**Francis S. Collins,**  
**M.D., Ph.D.**  
*Director*

### MISSION

To seek fundamental knowledge about the nature and behavior of living systems and the application of that knowledge to enhance health, lengthen life and reduce illness and disability.

### ORGANIZATION

National Institutes of Health (NIH) is the primary federal agency for conducting and supporting medical research. Helping to lead the way toward important medical discoveries that improve people's health and save lives, NIH investigates ways to prevent disease as well as the causes, treatments, and even cures for common and rare diseases. Comprised of 27 Institutes and Centers, NIH provides leadership and financial support to researchers in every state and throughout the world.

In realizing these goals, NIH provides leadership and direction to programs designed to improve health by conducting and supporting research in: the causes, diagnosis, prevention, and cure of human diseases; the processes of human growth and development; the biological effects of environmental contaminants; the understanding of mental, addictive and physical disorders; and by directing programs for the collection, dissemination, and exchange of information in medicine and health, including the development and support of medical libraries and the training of medical librarians and other health information specialists.

*Photo courtesy of the NIH.*

The goals of NIH are to:

- Foster fundamental creative discoveries, innovative research strategies, and their applications as a basis to significantly advance the Nation's capacity to protect and improve health
- Develop, maintain, and renew scientific human and physical resources that will assure the Nation's capability to prevent disease
- Expand the knowledge base in medical and associated sciences in order to enhance the Nation's economic well-being and ensure a continued high return on the public investment in research and
- Exemplify and promote the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science

**NIH AWARD HISTORY**

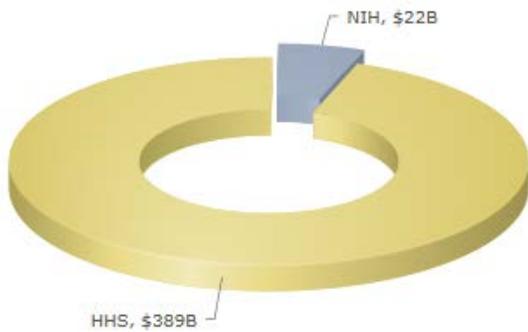

The Total Award Amounts and Award Number chart shows the number of awards in thousands and the amount of award dollars in billions that NIH granted during the last 5 fiscal years. The number of awards is shown in the blue bars. The award dollars are represented as gold bars. Data for the current fiscal year, at the far right of the chart, are depicted in brighter colors.

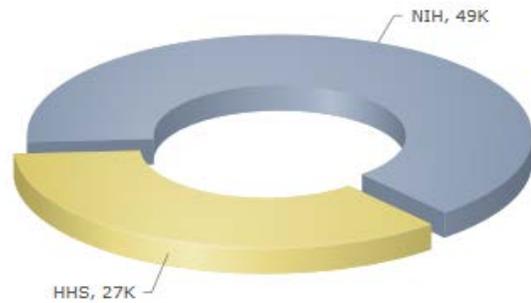

**NIH TOTAL AWARDS**

The pie charts compare NIH total award dollars in billions, and NIH total number of awards in thousands, with the award dollars and number of awards of all other HHS granting agencies.

**NIH Total Award Amount**

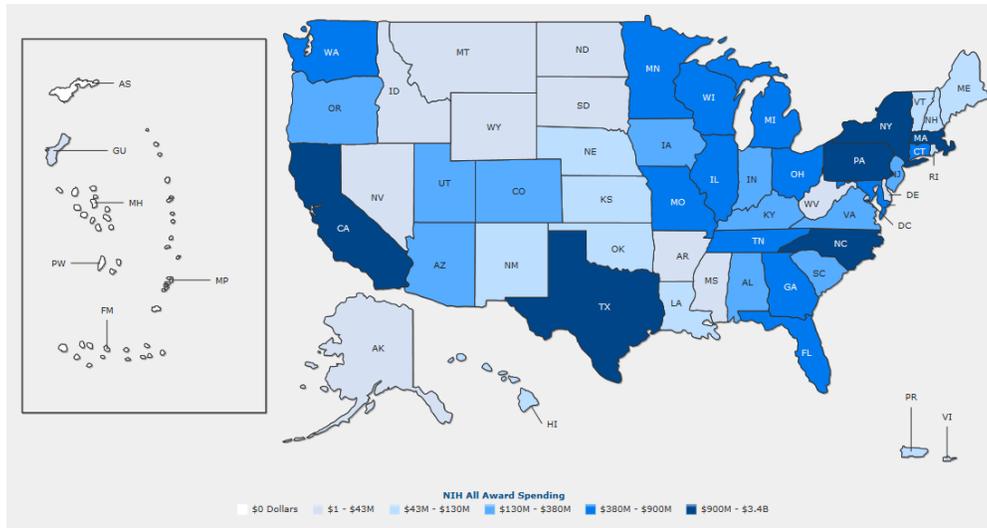

**NIH Total Number of Awards**

**AWARDS BY U.S. LOCATION**

The U.S. map below shows the total awards, including discretionary awards, and award dollars that NIH granted by state for FY 2015, including U.S. Territories. Darker colors indicate higher dollar amounts (see legend).

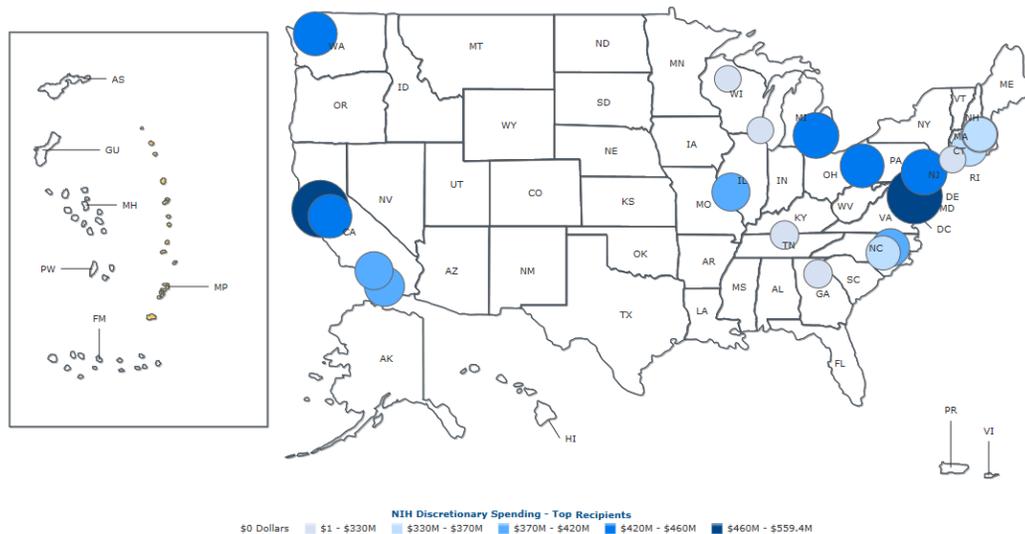

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

**TOP DISCRETIONARY AWARD RECIPIENTS**

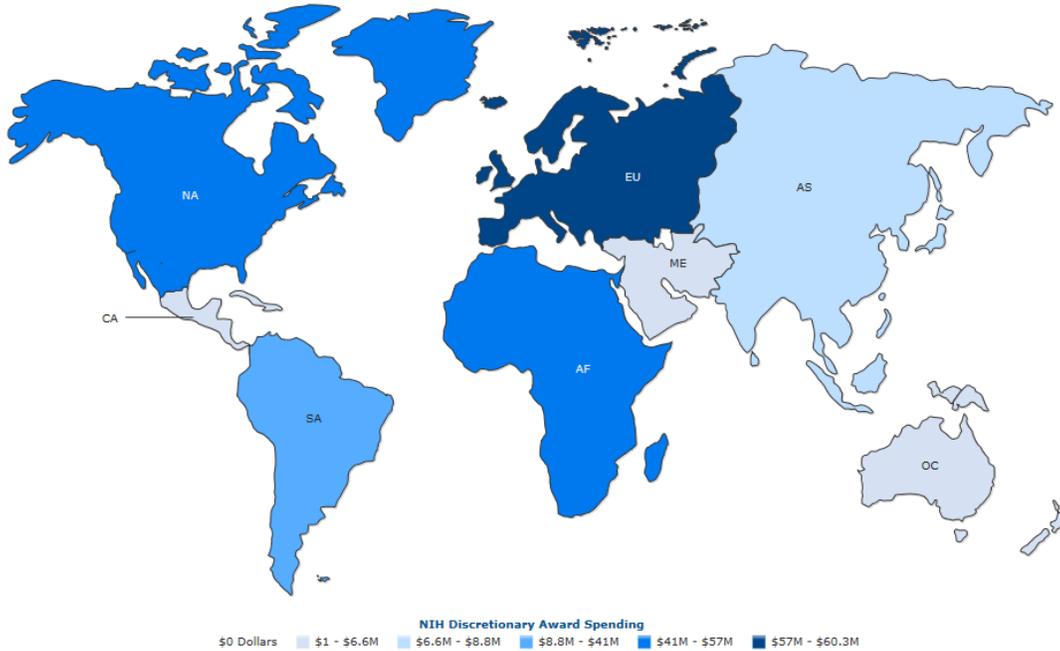

The map below uses a range of blue circles to show the top national recipients of NIH discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend). States without a circle did not have a recipient in the list.

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

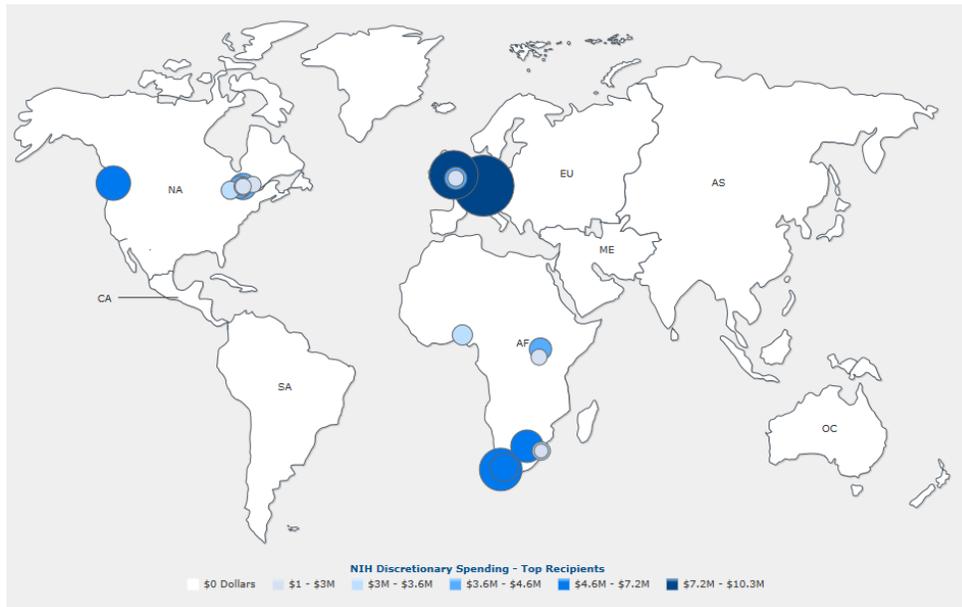

**NIH DISCRETIONARY AWARDS REGIONAL AND INTERNATIONAL**

The map below uses a range of blue colors to show discretionary award dollars NIH granted in FY 2015. Darker colors indicate higher dollar amounts (see legend). Data for International and Regional Award Recipients are presented in Appendix B to this report.

**TOP INTERNATIONAL DISCRETIONARY AWARD RECIPIENTS**

The world map below uses a range of blue-colored circles to show the top discretionary award dollars NIH granted in FY 2015, ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend).

## Office of the Assistant Secretary for Health (OASH) Portfolio

**Karen B. DeSalvo,**  
M.D., M.P.H., M.Sc.  
*Acting Assistant  
Secretary for Health*

### MISSION

Mobilizing leadership in science and prevention for a healthier nation.

### ORGANIZATION

OASH oversees 12 core public health offices — including the Office of the Surgeon General and the U.S. Public Health Service Corps — as well as 10 regional health offices across the nation and 10 Presidential and Secretarial advisory committees.

*Photo courtesy of the OASH.*

### OASH AWARD HISTORY

The Total Award Amounts and Award Number chart shows the number of awards in thousands and the amount of award dollars in billions that OASH granted during the last 5 fiscal years. The number of awards is shown in the blue bars. The award dollars are represented as gold bars. Data for the current fiscal year, at the far right of the chart, are depicted in brighter colors.

### OASH TOTAL AWARDS

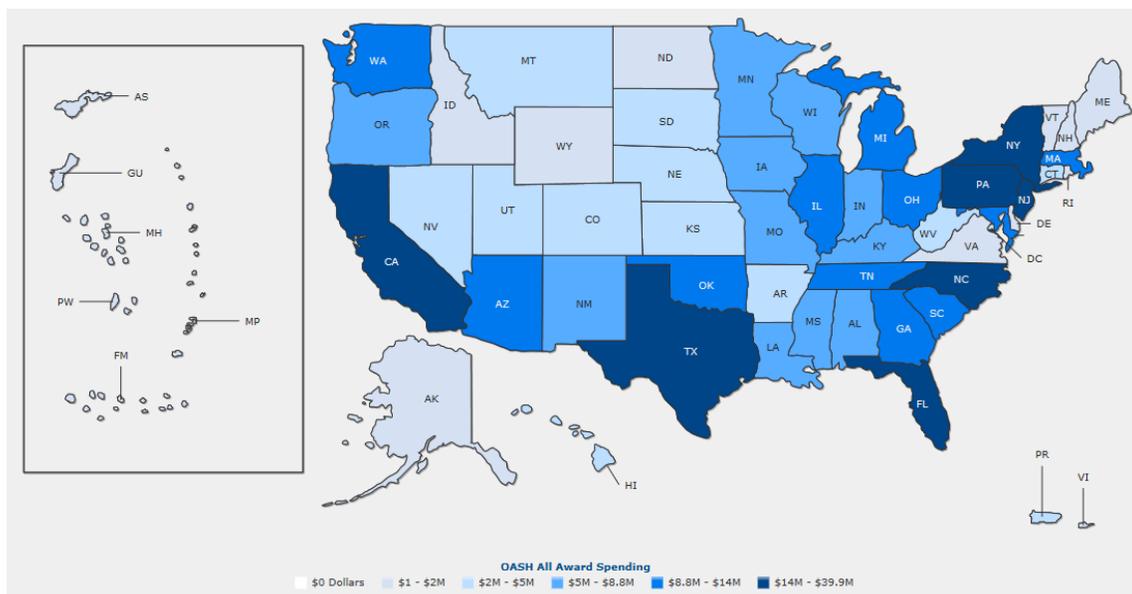

The pie charts compare OASH total award dollars in billions, and OASH total number of awards in thousands, with the award dollars and number of awards of all other HHS granting agencies.

### AWARDS BY U.S. LOCATION

The U.S. map below shows the total awards, including discretionary awards, and award dollars that OASH granted by state for FY 2015, including U.S. Territories. Darker colors indicate higher dollar amounts (see legend).

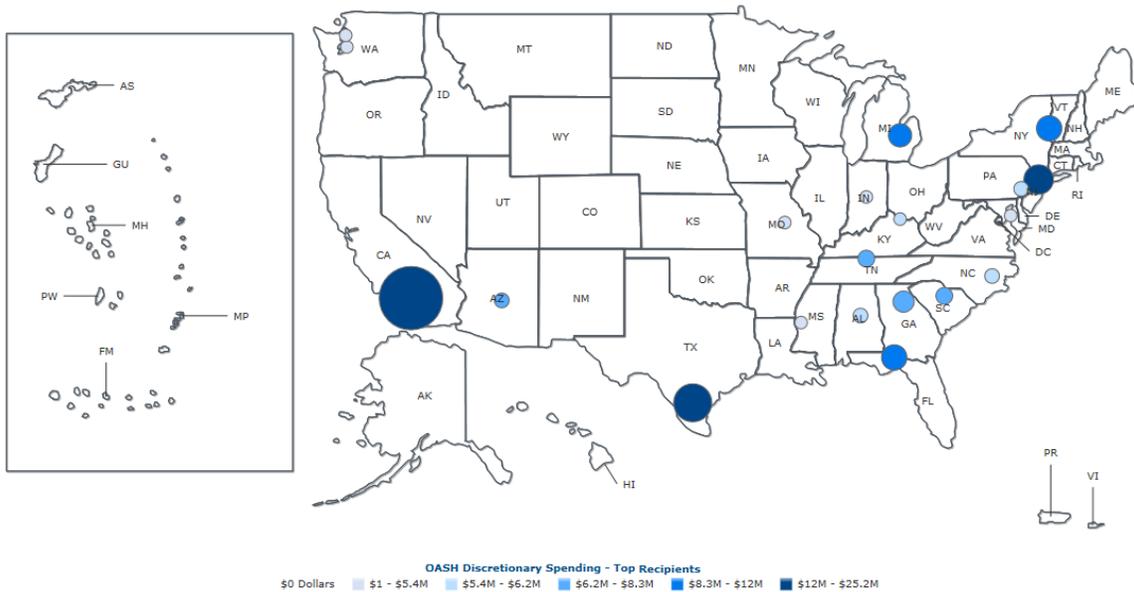

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

**TOP DISCRETIONARY AWARD RECIPIENTS**

The map below uses a range of blue circles to show the top national recipients of OASH discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend). States without a circle did not have a recipient in the list.

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

## Office of Global Affairs (OGA) Portfolio

**Jimmy Kolker**  
Assistant Secretary for  
Global Affairs

### MISSION

To promote the health of people of the world by advancing the Department of Health and Human Services' global strategies and partnerships, thus serving the health and well-being of the people of the United States.

### ORGANIZATION

OGA, within the Office of the Secretary, represents the Department to other governments, other federal departments and agencies, international organizations, and the private sector on international and refugee health issues.

### OGA AWARD HISTORY

The Total Award Amounts and Award Number chart shows the number of awards in thousands and the amount of award dollars in billions that OGA granted during the last 5 fiscal years. The number of awards is shown in the blue bars. The award dollars are represented as gold bars. Data for the current fiscal year, at the far right of the chart, are depicted in brighter colors.

**OGA TOTAL AWARDS**

The pie charts compare OGA total award dollars in billions, and OGA total number of awards in thousands, with the award dollars and number of awards of all other HHS granting agencies.

**OGA Total Award Amount**

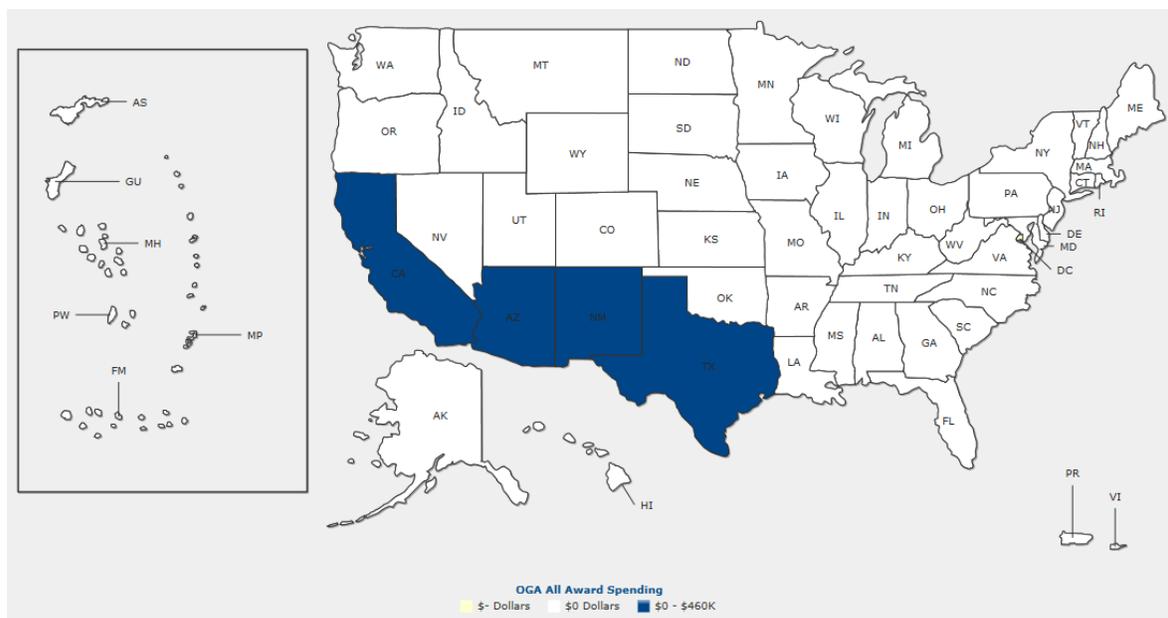

**OGA Total Number of Awards**

**AWARDS BY U.S. LOCATION**

The U.S. map below shows the total awards, including discretionary awards, and award dollars that OGA granted by state for FY 2015, including U.S. Territories. Darker colors indicate higher dollar amounts (see legend).

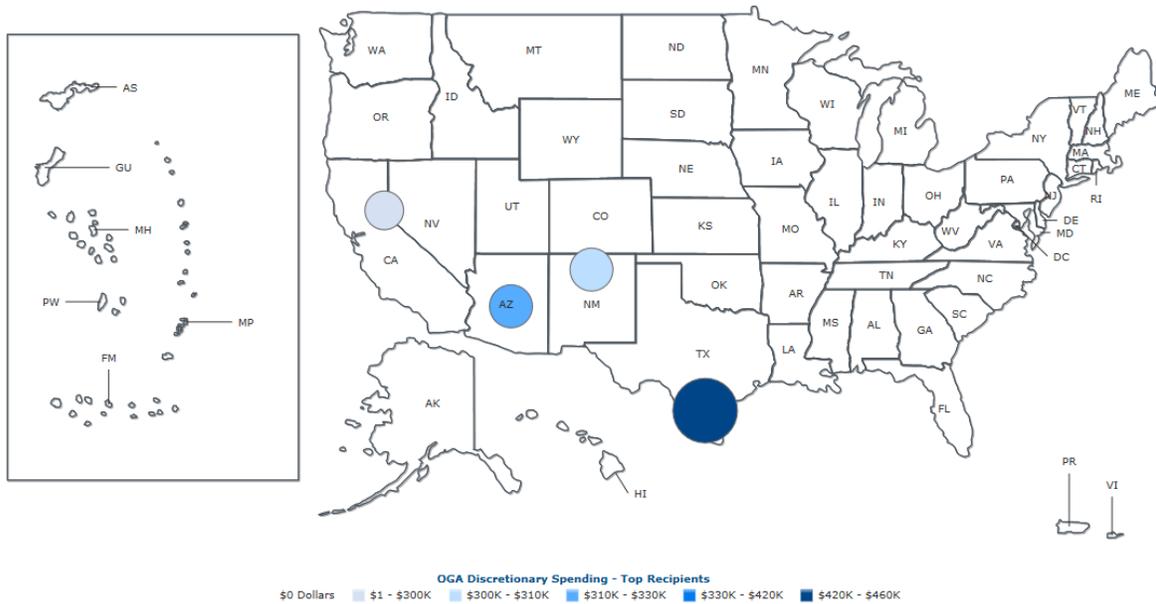

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

**TOP DISCRETIONARY AWARD RECIPIENTS**

The map below uses a range of blue circles to show the top national recipients of OGA discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend). States without a circle did not have a recipient in the list.

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

**ONC**

**Office of the National Coordinator for Health Information Technology (ONC) Portfolio**

**Karen B. DeSalvo, M.D., M.P.H., M.Sc.**  
*National Coordinator for Health Information Technology*

### MISSION

ONC is the principal Federal entity charged with coordination of nationwide efforts to implement and use the most advanced health information technology and the electronic exchange of health information. The position of National Coordinator was created in 2004, through an Executive Order, and legislatively mandated in the Health Information Technology for Economic and Clinical Health Act (HITECH Act) of 2009.

### ORGANIZATION

The Office of the National Coordinator for Health Information Technology (ONC) is at the forefront of the administration's health IT efforts and is a resource to the entire health system to support the adoption of health information technology and the promotion of nationwide health information exchange to improve health care. ONC is organizationally located within the Office of the Secretary for the U.S. Department of Health and Human Services (HHS).

- **Information Exchange through Meaningful Use of Health IT | Achieve Adoption and Information Exchange through Meaningful Use of Health IT** | How meaningful use and exchange of health IT will anchor the government's health IT strategy
- **Improve Care, Improve Population Health, and Reduce Health Care Costs through the Use of Health IT** | How health IT supports the implementation of the Affordable Care Act
- **Inspire Confidence and Trust in Health IT** | How government updates its approach to privacy, security, and patient safety
- **Empower Individuals with Health IT to Improve their Health and the Health Care System** | How health IT empowers individuals to become full partners in their health care and manage their health history
- **Achieve Rapid Learning and Technological Advancement** | How innovation will support improvements in health IT and health care overall

During previous fiscal years, ONC awarded 59 grants totaling \$36,540,067. Those awards were de-obligated during FY 2015, so the dollar figures in the ONC charts and tables appear as negative values.

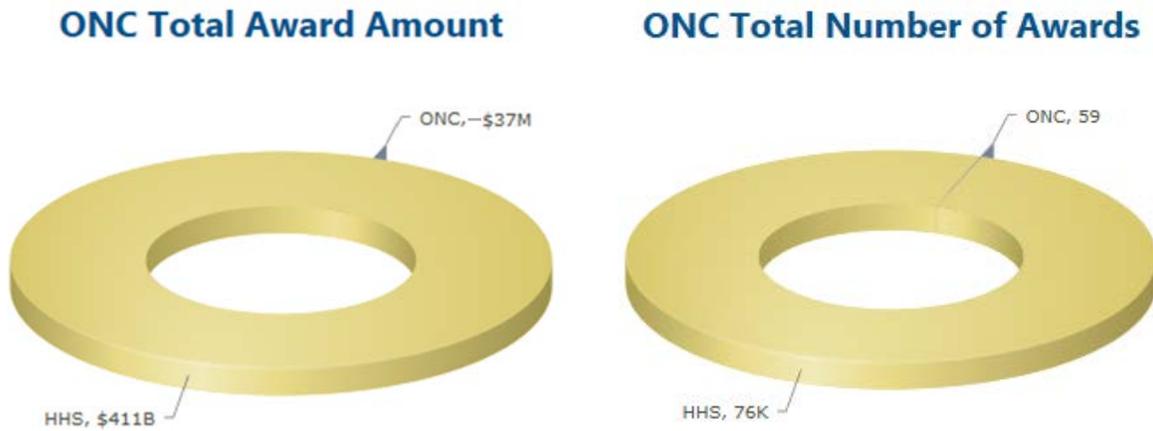

### ONC AWARD HISTORY

The Total Award Amounts and Award Number chart shows the number of awards in thousands and the amount of award dollars in billions that ONC granted during the last 5 fiscal years. The number of awards is shown in the blue bars. The award dollars are represented as gold bars. Data for the current fiscal year, at the far right of the chart, are depicted in brighter colors.

### ONC TOTAL AWARDS

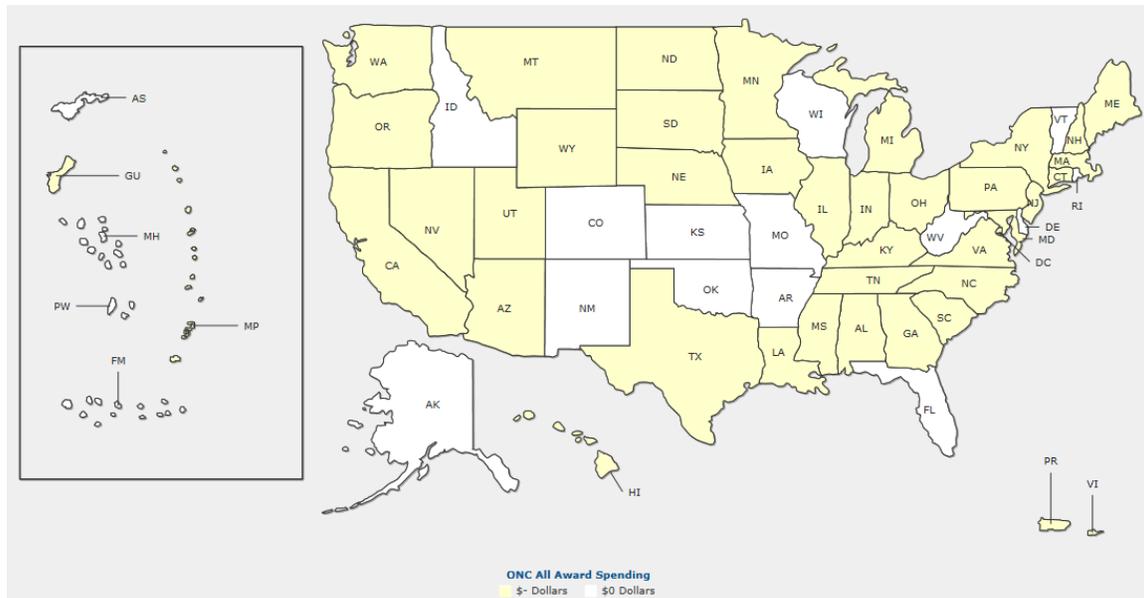

The pie charts compare ONC total award dollars in billions, and ONC total number of awards in thousands, with the award dollars and number of awards of all other HHS granting agencies.

## AWARDS BY U.S. LOCATION

The U.S. map below shows the total awards, including discretionary awards, and award dollars that ONC granted by state for FY 2015, including U.S. Territories. Darker colors indicate higher dollar amounts (see legend).

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

## TOP DISCRETIONARY AWARD RECIPIENTS

The map below uses a range of blue circles to show the top national recipients of ONC discretionary awards are ranked by dollar amount. Larger, darker circles indicate higher rank and amount (see legend). States without a circle did not have a recipient in the list.

United States Territories: American Samoa (**AS**), Federal States Micronesia (**FM**), Guam (**GU**), Northern Mariana Islands (**MH**), Puerto Rico (**PR**), Republic of the Marshall Islands (**MP**), Republic of Palau (**PW**), Virgin Islands (**VI**).

## Substance Abuse and Mental Health Services Administration (SAMHSA) Portfolio

**Kana Enomoto**  
*Acting Administrator*

### MISSION

It is SAMHSA's mission to reduce the impact of substance abuse and mental illness on America's communities.

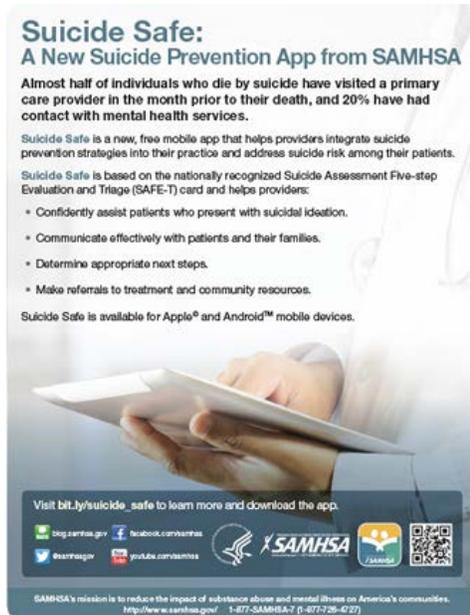

### ORGANIZATION

The Substance Abuse and Mental Health Services Administration (SAMHSA) is the agency within the U.S. Department of Health and Human Services that leads public health efforts to advance the behavioral health of the nation. SAMHSA's mission is to reduce the impact of substance abuse and mental illness on America's communities.

Prevention, treatment, and recover support services for behavioral health are important parts of the health service systems for our communities. These services work to improve our health and minimize cost to individuals, families, businesses, and governments. However, people with mental and/or substance use disorders often do not get the treatment they need. In 2014, approximately 20 million people in need of substance abuse treatment did not receive it, and 24 million people with a mental illness did not receive mental health services. The gap in service to this population unnecessarily jeopardizes the health and wellness of people and causes a ripple effect in costs to American communities.

SAMHSA provides leadership and devotes its resources, including programs, policies, information and data, contracts and grants, to help the United States act on the knowledge that:

- Behavioral Health is essential for overall wellbeing
- Prevention works
- Treatment is effective
- People recover from mental and substance abuse disorders

**Suicide Safe:**  
A New Suicide Prevention App from SAMHSA

Almost half of individuals who die by suicide have visited a primary care provider in the month prior to their death, and 20% have had contact with mental health services.

Suicide Safe is a new, free mobile app that helps providers integrate suicide prevention strategies into their practice and address suicide risk among their patients.

Suicide Safe is based on the nationally recognized Suicide Assessment Five-step Evaluation and Triage (SAFE-T) card and helps providers:

- Confidentially assist patients who present with suicidal ideation.
- Communicate effectively with patients and their families.
- Determine appropriate next steps.
- Make referrals to treatment and community resources.

Suicide Safe is available for Apple® and Android™ mobile devices.

Visit [bit.ly/suicide\\_safe](http://bit.ly/suicide_safe) to learn more and download the app.
